The Biggest Picture (Revelation)
2015-10-27

The Greek word for this is, apocalypsis (Apocalypse). The corresponding adjective is, apocalyptic. That has various layers of meaning. The occult becomes manifest. Those are fallen, mortal man's millennial lies, swept away by the Truth. The apocalyptic is immensely transformational, with vastly different effects on different people.

The following materials on the clone president of 9-11 and on cloned beings and synthetic life forms throw open the question: What is life?, and the question: Is it enough just to be alive?

Life is apparently not a quality that is unique to plants, animals and humans. Life can also pertain to machines, such as synthetic robotoids, who actually even look like humans. There is a misconception about life as self-sufficient that is swept away by the Apocalypse.

Life is not self-sufficient, not a purpose in itself. Slaves, clones, synthetic robotoids and other post-9-11 Americans are alive (in the sense of organismic living beings), but they are not necessarily free. There is a misconception about life in its relation to freedom that is swept away by the Apocalypse.

Where life is not: freedom *is* a purpose in itself. Ancient philosophy knew about this distinction. A purpose in itself, which is a purpose *in addition to* life (not the same as, life), is freedom, the cultivation of freedom, and the defence of freedom against those who ignorantly want to do away with it.

The Apocalypse rips away the veil from Heaven and hell. It is an occurrence in what is called the human mind, which is better labelled the human-mind interface. The human mind to this day is shielded by some psychic mechanism from directly encountering reality, having to rely on the senses of the physical body instead. That blocking mechanism is turned off by the Apocalypse. What is turned on in the same breath is the direct awareness of reality, of the powers of Creation, of Heaven and hell, of the vast spiritual world. We are free beings of the spiritual world on a short developmental trip into matter and physical incarnation – provided that we have done sufficiently well to be entitled to return home.

The foregoing brief remarks additionally preface my book on Atlantean philosophy, see link on foregoing page. The momentous question has no even halfway satisfactory answer in our modern materialistic proto-civilization, unless we turn to traditional spiritual wisdom from the east, which has become my main focus.

The texts below are from the internet. One piece is authored by me; you will see my name as author. The final piece (below, pp. 69-114) is by an anonymous author. I believe that, in their sum, the texts give a true picture. I cannot, however, vouch for every detail that is mentioned. I assume that the reader is sufficiently critical to form an own informed picture. The information compiled here is obviously largely incomplete. Also, it relates to other, similarly obscure but potentially very important subject fields which are not the subject of this file.

Additional Materials of Use:

Here is a short list of additional useful materials, either mentioned in the file, or useful for other reasons. I am sure you will be able to find more if you wish to research this. This is just about the epitome of what formula science and other occultist sects want the general public not to read. Does that make it true? That alone does not make it true. Maybe there are other things of interest in it. I leave that up to you. The questions, however, are the same as the key questions of modern science which have not been answered satisfactorily.

I mention these titles for further information only. I do not comment on any particular answers given in those books. In the least, the books may be useful to discover relevant questions for further research.

The Alleged Clinton And The KGB File

By Sherman H. Skolnick

Chairman, Citizens' Committee to Clean Up the Courts

Office 773-375-5741

Recorded message 773-731-1100

Long whispered about, a file now has surfaced from the KGB, the secret police of the former Soviet Union. Several commentators have the file and are silent cowards. Some declare the death of network broadcaster Brit Hume's son [1] is linked to this. Was it murder or suicide?

The KGB file shows that the person identified as or calling himself William Jefferson Clinton has an exact double, except for a few details such as a recently removed mole and distinctive private parts. Hey: Do Paula Corbin Jones and Monica Lewinsky know the truth?

For some 70 years, Russian scientists have perfected ways to create doubles. Mass media items about animal clones may be the way the press fakers skirt around the truth. And who publicly condemned the idea of manufacturing humans? Why, the alleged Clinton. (Which "Clinton" made the public statement?)

Reporters traveling with the alleged Clinton talk among themselves about the double or clone. Which is which? Is there a "real" William Jefferson Clinton? Talkative reporters, however, can lose their Secret Service press credentials.

Knowing about this was the Secret Service's top expert on physical surveillance of the President. That specialist was murdered with other presidential personnel through a sabotaged plane crash,

August, 1996, near Jackson Hole, Wyoming. A projectile hit the plane, say military witnesses. (The alleged Clinton had left, earlier, by helicopter, to go to his birthday party.)

The KGB file details the relationship of the alleged Clinton -- actually the alleged CLINTONS, plural -- with the Czechoslovak Communist Party Chief's son in Prague and at Oxford. The KGB threw junior off a roof to his death (the file gives the grisly details) because he discovered about the clone.

The file, step by step, gives the chronology of how the alleged Clinton was groomed from an early age by both the CIA and the KGB. Useful was his split personality syndrome which often makes "Clinton" forget who he is and makes him not know murder from love. With young "Clinton" supposedly under =his= wing, the CIA Station Chief in London went along, hoping to unravel KGB methods, the file asserts. The alleged Clinton was tracked as he attended anti-war rallies in Europe -- set up by the American CIA but actually by KGB. Sort of a series of Chinese trick boxes.

The CIA knew, the file shows, that the KGB paid for young Clinton's trip to Moscow and his stay at an expensive hotel there. To confuse matters, Clinton's pal Strobe Talbot was described as a "Marxist," to divert attention. To nail down his credibility with CIA, while KGB actually controlled the situation, the Soviets gave the alleged Clinton a secret transcript of Krushchev condemning Stalinists, the file shows.

Numerous dates, amounts, and details, show the KGB was keeping track of the alleged Clinton's pal, Vincent W. Foster, Jr., and his acts as a super courier of illicit funds and money laundry operator, traveling great distances, including to the Soviet Union, years prior to Foster's short time as a White House deputy counsel in 1993. (National security is a reason for covering up the murder of Foster disguised as a suicide -- the CIA-KGB-NSA overlaps.)

To confirm its authenticity and trip-up spy-watchers, the file has several Russian language code words.

The file's blackmail possibilities are obvious: the alleged Clinton is a clone, part of a method perfected by Russian scientists. The file is loaded with blockbuster revelations, for example, that Lee Harvey Oswald was not the lone assassin of President Kennedy. Widely revealing the file details could bring down the American

government.

Later developments confirm all this. Former Director of Central Intelligence (DCIA) William Colby, early in 1996, joined in a business venture with the former long-time KGB Chief to market an electronic game on espionage. It was becoming obvious: Colby was a KGB mole; his business partner was a CIA mole.

Just as Colby was about to devastate the U.S. government with the KGB file, he was assassinated, disguised as a boating accident.

So far, FBI counter-intelligence thinks they have restrained the Russian mafiya, largely now headquartered in Chicago, from using the KGB file to blackmail big bucks out of anyone and everyone.

Also reportedly inclined to use this H-bomb of a blackmail item -- the KGB file -- are reputed foreign agents within the White House, including the President's senior advisor, Rahm Emanuel, reportedly linked with Israeli intelligence, the Mossad.

Remember: in the 1970s, against great media opposition, the Citizens' Committee to Clean Up the Courts broke the story with the best details of the CIA's mind-poison project, MK-ULTRA.

[1] Brit Hume's son, according to Conspiracy Nation (CN) source "Rhea Fortean" (pseudonym), unexpectedly committed "suicide" recently. Here is Rhea Fortean's correspondence to CN on the matter:

I wonder about the sudden so far unexplained suicide of reporter Sandy Hume (Sunday night)--Brit Humes son. The obit on Fox said he was a FEARLESS REPORTER. Nothing scared him. He went after stories with a vengeance. He worked for The Hill newspaper and appeared on his dad's show on Fox nightly recently. The whole obit was =nothing= like a suicidal guy. Don't know the cause of death. Tony Snow called it in obit an "apparent" suicide. He was doing better in his career than ever. His star was rising. He was 28 years old (no marriage data available). The timing seems strange--really really strange. This scandal was making his career. His other big story was the attempted coup of Gingrich last summer. They mentioned he had the best sources of anybody.

I found it strange since Humes big story was the attempted coup that

right after his death Bill Paxton resigns from office suddenly w/out even explaining to his wife saying I can't do this. Can't do what? Also do you know why he has a very bad abrasion on the center of his forehead in photos??

The reporter that basically got him in trouble and possibly ruined his career in the Senate commits suicide and a day or two later he resigns?? Weird, huh?

Sandy Hume outs the coup of Gingrich story in Summer of 1997---ruins Bill Paxton's future in Senate.

A week or so ago Paxton's wife Susan Molinari (sp) ended up in the news with a story she is telling in a book: that Gingrich is disturbed, crys, whines, thinks he rules the world and all manner of accusations.

Then last Sunday night Sandy Hume who broke the story on the coup and who has the best sources of anybody--esp Rep sources "commits suicide".

A few days later Paxton resigns suddenly and without explanation (real) and muttering I can't do this. Is pictured with some kind of abrasion on his forehead that I have not heard an explanation for.

Gingrich is making statements and backing bills that have Republicans dropping their jaws over. Critics have even accused him of working as "co-president" to Clinton. Hints are being made and have been made that he is being blackmailed.

Don't know what it means but it is strange.

The Bilocation of Hillary Clone-Clinton

[Hilary clone pics](#)

<http://alcuinbramerton.blogspot.com/2008/01/bilocation-of-hillary-clone-clinton.html>

In 2008, during the American presidential election campaign, US Senator Hillary Clinton's handlers began to get clumsy and she was seen in two different places at once on a number of separate occasions. And not just in Iowa and New Hampshire.

Someone sees Hillary Clinton at a function across town at, say, 1.30pm. And then, when they compare notes with a Democratic Party co-worker later that day, they learn that Hillary was also seen back at the hotel at 1.30pm, three miles away. And her clothes were different, or her hair was different, or her makeup was different, and the people with her were different. Or, after a speaking engagement, the car drives Hillary Clinton away to Location A, where she is seen to get out of the car at, say, 10.45pm. But a co-worker sees her at 11.00pm at Location B thirty or forty miles away, except that Hillary Clinton and the car have not left Location A. And they couldn't drive that fast anyway, and Hillary's clothing or appearance is different, and the people with her are different. And the next day, arriving for an early morning meeting somewhere, Hillary comes from Location B, not from Location A. Meanwhile, she is seen having a late breakfast at Location A with different people. And so on.

How many different Hillary Clintons are there?

It is suggested that over half the US Presidential hopefuls in 2008 were human clones. There were several of each of them. Was Hillary Clinton one of these or several of them? And how are the voters to discriminate?

A picture of the young Hillary Clinton can be seen [here](#). Notice the physiognomy: the smile musculature, the cheek pouches, the placement of the nose bridge, the upper eyelid line. Now look at who the official Hillary for President campaign site wanted you to vote for in New Hampshire (picture [here](#)). The same woman, but older? Look at the right hand side of her mouth. Any moles visible? There are other pictures [here](#) and [here](#) and [here](#) and [here](#). Same woman again, but older? Trick of the light maybe? Moles [there](#) notice, but no moles [here](#). What about [here](#)? Moles or not? Now for the mystery woman. Who is [this](#)? Or [this](#)? Recognise the smile? Know the name from somewhere? The same as [this](#) perhaps? And where did [this one](#) come from? Or [this](#), or [this](#)? In that run of pictures, there were fifteen images of which three were repeated. But how many different individuals were shown? Three? Four? When we and others first began running this story, the Hillary for President campaign immediately changed its lead picture from [this](#) to [this](#). That image was then changed again after a bit. Their current favourite official regulation version of Hillary Clinton can now be viewed [here](#).

And for aficionados, [here](#) is a picture of one of the Hillary Clinton clones taking instructions from a clone-handler called George McGlaris in Dover, New Hampshire, on Monday 7th January 2008.

A quote from the Hillary Clinton for President website is germane: "President Clinton writes about his life

with Hillary and how she has been an agent of change for 35 years."

What was the major issue in election-alert America in 2008? It was the physiognomy, stupid.

The use of human clones in American political management is only now becoming apparent. The last US President not to be cloned was John F. Kennedy. Usually, when a President or major American public figure ceases to be compliant to the demands of the controlling corporate elite, they are quietly killed, cremated and replaced with lookalike, mind-controlled clones. These days, at the Camp David human clone laboratories (Maryland) and elsewhere, it is possible to produce an adult human clone from originator DNA and a lab-double in less than 36 hours.

The history of this covert human cloning technology is now emerging. By the late 1970s, using monochromatic laser light technology, researchers within the Russian security community created a holographic apparatus which could record the entire memory of the living brain of a chosen human individual and store the data content of that brain on stable computer hardware. The Russians used inaudible high-frequency sound waves to create a complete three-dimensional picture of the brain. They discovered that their ultrasonic cerebral hologram process duplicated and stored the entire memory of the person in a coherently recoverable form. The Russians now had what they wanted to create working lab-clones for deployment. The same technique could be used to download someone else's memory into another (different) person, in this case a lab-double, and natural doubles could now be reprogrammed to take on the full memory database of the person being replaced. More background [here](#).

Lab-doubles are generated using DNA infusion. Here the DNA of the person chosen to be duplicated is collected, amplified, processed and prepared for the infusion process into the new host body. The DNA infusion completely overrides the DNA of the living human host, physically transforming the host body into a visual replica of the chosen body. However, the residual host body DNA can still be detected, and identified, within the lab-double using sensitive DNA testing procedures. Where do the human host bodies come from? Covert kidnap, abduction and fake disappearance programmes. Many of the abducted human host bodies are those of children. And, of course, any of these adducted human hosts can be subjected to [brain programming](#) manipulation as well as to complete ultrasonic cerebral downloads.

In one curious incident, a Europe-controlled cell of US Rothschild minions within the US security community learned that the Russians were using duplicated clones for many of their leading Kremlin operatives. By this time the Americans had obtained similar brain programming and ultrasonic cerebral download abilities to the Russians. This technology had been fed to them from the Rothschild clone labs in Europe. The US military tried to use identical US-controlled clones to penetrate the Kremlin. Kremlin lookalikes were produced in America and were secreted into Moscow via the US embassy. However, the Russians were tipped off and became aware of the detail of the plan in advance. They let the US clones through into the Kremlin, downloaded their memories and programming and then reprogrammed them for Russian use. The Americans became perplexed as to what had happened because their infiltrated Kremlin clones were not carrying out their US programmed orders. It was an exotic case of double-agent meltdown. For sometime, nobody in the US knew which Russian clone was which. This engendered subtle difficulties for the Americans at international conferences.

When President George Bush Snr left office in 1993, he was Clone Number 34 in his DNA originator line. Most of his previous 33 clones had been used and terminated at that point. When President Bill Clinton left office in 2001, he was Clone Number 21 in his line. When a President is terminated and cloned, it is standard practice to do the same with his close family members. If this is not done, they immediately notice the

difference and cause difficulties.

Human clones are not ensouled and do not, therefore, have access to the higher dimensions through reflection, intuition and spiritual practice. No soul means no God-connection. And no God-connection means that clones have an inherent vulnerability to religious manipulation and deceit.

The higher dimensional data-links which ensouled humans have, help them to appear quick, flexible and alert in conversation, particularly when stressed. The absence of this potential for minute-to-minute inspiration or revelation in clones gives rise to a simplistic body language and inappropriate physiognomic responses in complexly nuanced situations (picture example [here](#)). It also means that when faced with metaphorated questioning or elliptical comments, they can appear slow, dim or confused. Anything that human clones are confronted with which falls outside their specific day-to-day conditioning or expectation engenders childlike conflict-signalling and tantrums (picture examples [here](#) and [here](#)). For this reason, two or three clones are kept up and running for each principal at any one time. They are very nearly identical in appearance, but some look younger or more innocent than others, and some have superficial tissue differentiations that cannot be concealed by makeup when viewed in close-up or under strong light.

If two different clones of one individual are interacted with at a conference on successive days by an ensouled human, the differences are often very evident. "Which George did you speak to today, Tony?"

With regard to a clone's irrational conflict-signalling and out-of-comfort-zone tantrums, Hillary Clinton can boast considerable previous form. Ask anyone who has worked closely with her. She's not just scratchy; she can be hysterically ballistic. The summer of 2009 provided a famous example. Hillary fractured an elbow in a furious physical fight with a senior colleague at the US State Department in Washington DC. On Wednesday 17th June 2009, the US Secretary of State lost control of herself and lashed out viciously at the US Special Representative for Afghanistan and Pakistan, [Richard Holbrooke](#).

The argument and fight arose from a shouting match between the two concerning North Korea. Holbrooke had just confronted Clinton with two facts about the US's handling of the North Korea fiasco. First, he let Clinton know that he was aware that agents of the US State Department, acting for Clinton, had tipped off the North Korean government about the presence of the two Current TV journalists on the Chinese border near North Korea. Second, Holbrooke told Clinton that he was also aware that Clinton had personally sabotaged an effort by the Swedish Ambassador, the Chinese Foreign Ministry and Albert Gore to secure a quick and safe release of the two Current TV journalists from North Korean custody. As a consequence, the journalists were unnecessarily detained in the North Korean presidential headquarters known as the Puzzle Palace.

Richard Holbrooke and Hillary Clinton's screaming match then went physical. Hillary began to physically attack Holbrooke. Holbrooke defended himself and during the altercation forced Hillary to the ground causing her right elbow to fracture. After her fight with Holbrooke, Clinton was treated at The George Washington University Hospital before going home. She later underwent surgery to repair the damage on Friday 19th June 2009. This photograph [here](#), taken on Monday 22nd June 2009, shows Clinton's injured right arm. It is said that much of the exchange between Hillary and Holbrooke was recorded by State Department security cameras. Inside the Beltway, Richard Holbrooke suddenly became the most popular person in town. More background [here](#).

Another celebrated Hillary Clinton tantrum occurred back in the 1990s during Bill Clinton's presidency. Investigating unusual noises at the White House one evening, a Federal Secret Service agent discovered the First Lady in a well-lubricated lesbian sexual encounter with the regular White House prostitute known as

Susan. Clinton responded by attacking the agent with a heavy glass ash tray. In fairness, it should be remarked that Susan was never exclusively lesbian in the services she provided for the US governing class. Current CIA Chief Leon Panetta and ABC talk show host George Stephanopoulos both caught genital herpes from Susan at White House socials.

Having no soul and no God-connection means that human clones have no spiritual processing power; they cannot function at the level of values, morals, ethics, compassion, honour or decency. Indeed, they have nothing within their intellection which energises or articulates such concepts in their consciousness. Human clones do, however, have a very powerful survival instinct. Under sustained pressure or threat they become amoral, manipulative fighting machines without spiritual stops or conscience. What you can get away with is what you do; lying is the core modus operandi; honesty about facts on the ground is self-injurious weakness; a spectrum of alternative views on an issue is a spectrum of aggressive enemy positions; unscrupulous elimination of opponents replaces dialogue. Human clones are perfect for politics, banking, the armed forces, religion, schooling and theft. Easily mind-controlled by the hidden negative elite, clones are the visible drivers of systemic evil.

Human clones are also prone to making extraordinary bloomers when speaking in public, and not noticing their mistakes. George Bush Jnr has an extensive back catalogue of such infelicities. For example, speaking on Australian television in September 2007 about the terrorist attacks on the World Trade Centre in New York on the 11th September 2001, one of the Bush Jnr clones said: "And I believe those of us who live in liberty have a responsibility to promote forms of government that deal with what causes nineteen kids to get on airplanes to kill three thousand students." (See 3.44-3.55 on this YouTube video clip [here](#))

Later in the same month, the same Bush Jnr clone was reported by CBS News as follows: "He (President George Bush Jnr) dismissed concerns about lack of political progress in Iraq, saying people there are still recovering from the brutal rule of Saddam Hussein. Then, pounding his lectern, the president said, 'I heard somebody say, "Where's Mandela?" Well, Mandela's dead because Saddam Hussein killed all the Mandelas.' The actual former South African president, of course, is still very much alive." (CBS 20.09.07)

A university-educated, experienced and ensouled politician would not regularly make grotesque slips of this kind. But if he did misspeak occasionally, he would notice immediately and correct himself. In the later clone years, Bush was never able to do this.

One thing, however, which George Bush Jnr was able to maintain to the last was his suspiciously consistent clone-smile. He always had a switch-on perfect smile ready for the camera. Switch-on perfect, switch-on perfect, switch-on perfect; it never changed. Ensouled human beings - even experienced actors - cannot do this; their smiles are always moderated by the 'spiritual' circumstances and context of the camera-call. Their physiognomies betray a slight change of texture, a strained tension, a fuller or slightly less full beam. And the eyes often say something the smile does not. They still smile well, but they smile differently each time. This is not the case with clones. Clones are robotically identical each smile.

US President Barack Obama furnishes a good example. On Wednesday 23rd September 2009, Obama hosted a reception at the Metropolitan Museum of Art in New York. During this event, he stood for 135 separate photographs with visiting foreign dignitaries who were in town for a major UN meeting. As [this rapid-fire slideshow](#) from Eric Spiegelman demonstrates, the US President had exactly the same smile in every shot. Spiegelman put his compilation on Vimeo shortly after the Met event and gave it the title: "Barack Obama's amazingly consistent smile." The 135 raw photoshops he used can be found on Flickr [here](#).

But what about Hillary Clinton? Is she really a tribal subset of mind-controlled clones? Follow the DNA. It's there in the lavatories, handkerchiefs, discarded nasal tissues, cosmetics applicators, bedroom dust, cutlery, drinking glasses and coffee cups. And look out for the little black box under the clothes. It's smaller than it used to be in the famous George Bush Jnr photographs ([here](#), [here](#), [here](#), [here](#), [here](#), [here](#), [here](#), [here](#) and [here](#), plus comments [here](#)), but it can still be seen on a windy day.

More information about the use of human clones in American political management can be found [here](#), [here](#), [here](#), [here](#), [here](#), [here](#), [here](#), [here](#), [here](#), [here](#), [here](#) and [here](#).

But it is not just politicians, military people, finance professionals and religious leaders who have been cloned. Human clones are found in the show business world, too. And they feature prominently in the mainstream media's presentation of celebrity culture. Consider the much-discussed case of [the two Paul McCartneys](#). Look at McCartney's left ear lobe [here](#) (in 1964) compared with his left ear lobe (in 1974). [The murder and cloning of Beatle Paul McCartney by agents acting for the Tavistock Institute \(London\) in 1966](#) is a story which has been revisited again recently. It is sometimes referred to as The Two McCartneys Conundrum.

For many decades people have taken the view that the original pop star Paul McCartney of the Beatles, a [Tavistock Institute](#) band, is dead. He died in a car accident in 1966 which was reported by several media outlets before being hushed up. The car accident, like Princess Diana's thirty years later, was an arranged murder or cover for an arranged murder.

After 1966 it was widely noted that Paul McCartney had changed. He was considerably taller, and his physiognomy, voice and mannerisms were different. And evidence is emerging which suggests that the Beatles didn't even write some of the music accredited to them after that date.

On this view, the Beatles were planned by the shadow controllers of the sixties music industry. The purpose of the Beatles was social engineering. The phenomenon of the Beatles was not a spontaneous rebellion by youth against the old social system. It was a carefully crafted plot to introduce, by a conspiratorial body which could not be identified, a highly destructive and divisive element into a large worldwide population group targeted for change against its will.

New words and new phrases prepared by the Tavistock Institute mind-moulders were introduced to America along with the Beatles. Words such as "rock" in relation to music sounds, "teenager," "cool," "discovered" and "pop music" were a lexicon of disguised code words signifying the acceptance of illicit drugs. The subtext beneath this vocabulary arrived with and accompanied the Beatles wherever they went. It had only to be "discovered" by teenagers. The word "teenager" was never used until just before the Beatles arrived on the scene, courtesy of the Tavistock Institute for Human Relations.

It was important at that time for the Shadow Government (controlling the USA from Europe) to affirm illicit drug use in the youth culture. This would enrich the drug barons worldwide who paid for the private armies and bribes necessary to maintain hidden power. And now, in 2009, the USA is in Afghanistan to protect the illicit drugs trade. And now, in 2009, most major US banks have only been able to stay afloat by bringing illicit drugs money on to their books by using counterfeit source of funds documentation.

One persistent idea is that in September 1966, Paul McCartney was replaced with a double called William Shepherd or William Campbell. McCartney was terminated and replaced because he refused to go along with the pro-drug agenda of the Beatles' Tavistock controllers.

After 1966, the new Paul McCartney started doing frank interviews about his LSD habit. McCartney's murder not only eliminated someone who wouldn't go with the program, it served as a warning to others in the circle not step out of the Tavistock line.

It is more likely, however, that Paul McCartney was cloned before being terminated, samples of his originator DNA having been obtained, cultured and amplified before his accident. Human clones, such as the Bushes, the Clintons and the Obamas, are not ensouled. They have no souls - no innate communication with positive influences among the [Higher Evolution](#) in the higher dimensions. They are intelligent, mind-controlled meat-machines, programmed by those whose negative agenda they implement. Might Paul McCartney be the same? Clones are not aware that they are clones. Such information is not permitted to occur to them or to enter their mind-programming.

More about the various Paul McCartneys can be found [here](#), [here](#) and [here](#) (YouTube video - 3 minutes). And more about the Tavistock Institute (30 Tabernacle Street, London EC2A 4UE) is linked [here](#) and [here](#).

There is no doubt in my mind that Hillary Clinton was cloned not long after Bill took office. The cloning technique seems to work much better on women, it seems. From all indications, there are approximately 12 clones of Hillary, all exactly the same as the next. Other notable clones are Lindsay Lohan (reportedly about a half dozen of her); Halle Berry (last report was that there were only three of her); Nancy Pelosi (I've heard just two clones of her); and Jennifer Aniston (documents support that there are at least two dozen of her).

Many of these women have themselves cloned unknowingly. Others enjoy sexual adventures with their exact duplicates. Even though their souls are not the same, everything else is. God puts souls even in the clones, so they are not God-less.

Nicole Kidman has had several clones of herself made, and they all live on a ranch in Australia.

One other notable clone experiment was with Laura Bush. That worked out so well that she had several more created. I have seen photos where one of her is with W, and another one of her can be seen in the background.

Their twin daughters have also been cloned. Jenna Bush reportedly has up to 30 of her in existence.

I believe that Laura Bush has around 100 of her in various chambers around Washington D.C. They often dress exactly the same on any given day.

Troubled Times

Bush Clone

On September 27, 2007 the Zetas revealed that George W. Bush was a clone, one of 14 zygote multiples created at conception, with only two at present operational. One is acting as president in the White House, the other with the Puppet Master in Europe. On Oct 13, 2007 on the live chat, the Zeta provided more details regarding how a switch to the European clone might occur suddenly. Yet another clone is imprisoned near Denver, broken down by cocaine and booze.

President Bush and his look-alikes, the biological identical twins who were raised in secure settings as a back-up, have been assured since birth that they would rule the world during the end times. It is no accident that Herbert Bush headed the CIA in the 1970's, and was selected as Reagan's vice president. The Bush family had plans. The Bush clones, who were in fact identical twins as the zygote was split and implanted into Barbara and several surrogate mothers, show the serious intent, as should the brother in the public eye develop a fatal illness or go insane or refuse to be directed by the cabal planning to rule the world, they could substitute another brother. At present there are only two brothers alive and operational - one in the White House, and the other living with the Puppet Master. The development of the Diebold voting machine, with software holes that allow totals to be manipulated from a remote location, was part of this grand Bush plan. The invasion of Iraq to gain the Middle East oil was another such part of the Bush plan, and is the reason George Herbert Bush left Saddam in place so he would have to be removed at a later date.

ZetaTalk: Bush on the Bottle, written Sep 27, 2007

There were 14 brothers altogether who were born. One of the brothers, who developed a health problem so does not have the physical appearance of the current clone acting as President, records the weekly radio show. There were 3 living clones who could act as President in 2000, but the one acting as the public face during the early years of the presidency was so damaged by cocaine and booze that he was considered out of control, and is secreted away, imprisoned, in case they need a body in which case he would be killed. Another clone was approached by the Puppet Master's agents and agreed to work with him. He is in Europe and could be substituted for the clone acting as the US President at any time.

ZetaTalk: GodlikeProductionLive, written Sep 29, 2007

The Bush clone is indistinguishable from the one currently in the White House. Any haircut or tan or scratch can be replicated in the clone residing with the Puppet Master, and this is done steadily so a replacement could occur at any moment if need be. We are in communication with the Puppet Master, and Nancy acts as interpreter on occasion. We, the Service-to-Other Zetas, have teleporting abilities whereby someone can just suddenly appear in a room. We would not be telling you this if the Council of Worlds had not allowed an exception to the Rule of Non-Interference in the affairs of man. If it is deemed better for mankind to have a clone switch, instead of a breakdown in the current clone in the White House with a sudden need to assassinate

Cheney, then the switch would be made.

ZetaTalk: [GodlikeProductionLive](http://www.godlikeproductionlive.com), written Oct 13, 2007

The current clone is much more comfortable with press conferences than the clone in place after the 2000 election. By the 2004 election, this first clone was in a type of prison, near Denver. He was the one who had an affair with Ashe. Laura Bush, of course, is much in the know about this, as she must appear with them all.

ZetaTalk: [GodlikeProductionLive](http://www.godlikeproductionlive.com), written Oct 20, 2007

Is there any proof of this? After the 2004 elections there was [buzz on the Internet](http://www.buzzontheinternet.com) about an apparent nose job, as the President's nose appeared slightly different than before. This rumor even hit the [David Letterman](http://www.davidletterman.com) talk show.

George W. Bush Nose Job?

February 09, 2004

http://www.slumdance.com/blogs/brian_flemming/archives/000631.html

The President Bush pictures above are undoctored. The nose? Not so sure. The political significance of this possible nose job? Zero.

A careful analysis of photos during the Bush presidency reveal more than a broken nose, slightly pulling to the left hand side of Bush's face in Clone1, the president from 2000 to the 2004 elections in the Fall of 2003. They reveal that Clone 2, the current president, has an anxious expression. Clone 1 is a party boy, finally becoming unstable due to cocaine and alcohol use, and didn't like giving press conferences. During his reign, there was a period of 17 months without press conferences held by Bush. Clone 2 is comfortable with press conferences, and gives them frequently. The fact that he is a worry wort can be seen in his health problems, as he was stricken with the nervous shits, even caught writing Condi a note about having to rush to the bathroom, and appears to be taking tranquilizers. The photo tour can be seen on the [Zeta Report 14](http://www.zeta-report.com) video.

Russ Baker's book about the Bushes, "*Family of Secrets: The Bush Dynasty, the Powerful Forces That Put It in the White House, and What Their Influence Means for America*", has several passages that thoroughly confirm the existence of more than one Bush Jr. Perhaps Mr. Baker reads ZT too! 'Machine' Politician Exposed by Photos

by **Gene Weingarten**
Washington Post Staff Writer

The Washington Post

First, don't panic. There is probably a good explanation for the mystery of the photographs, something that does not threaten the enslavement and/or extermination of mankind.

There has to be a benign explanation. I just haven't found it yet.

President-elect Bush named top advisers Condoleezza Rice and Alberto R. Gonzalez at the governor's mansion in Austin on Dec. 17. (J. Scott Applewhite - AP)

The first photograph appeared in *The Washington Post* on Dec. 18. In it, the president-elect stands behind and to the side of Condoleezza Rice, his nominee for national security adviser.

George W. Bush is slightly out of focus. His head is cocked to the left and tilted slightly backward, his mouth downturned in a perfect cartoonish crescent, the way a first-grader might draw a frown. His eyes are squinty.

The next photograph appeared in this paper two days later. In it, the president-elect stands behind and to the side of **Alberto R. Gonzalez**, his choice for White House counsel. **George W. Bush** is slightly out of focus. His head is cocked to the left and tilted slightly backward, his mouth downturned in a perfect, cartoonish crescent, the way a first-grader might draw a frown. His eyes are squinty.

It is not a similar pose; it is an identical pose. It is not a similar expression; it is the identical expression.

Both photos were sent to me via e-mail by Post reader Adam Shannon, and at first I suspected chicanery: that as a joke, Shannon had altered one or both of them in a Photoshop process. But no, Post archives confirmed that both had been published.

Then the third photo appeared in *The Post* two days later:

The president-elect stands behind and to the side of Ann Veneman, his nominee for agriculture secretary. George W. Bush is slightly out of focus. His head is cocked to the left and tilted slightly backward, his mouth downturned in a perfect cartoonish crescent, the way a first-grader might draw a frown. His eyes are squinty.

Identical. Different tie, identical pose.

Now I suspected chicanery of a different sort. Could *The Post* have violated its own hallowed standards for accuracy by ginning up these photos from old stock, to cover for lazy or drunken photographers who missed their assignments? Or something?

Then the fourth photo appeared. This was in the *Philadelphia Inquirer*. Bush, with his new EPA chief, Christine Todd Whitman. Cocked head. Backward tilt. Crescent frown. Squint.

Then, *The Baltimore Sun*. *The New York Times*. *The Washington Times*. **Bush**, with his nominee for treasury secretary, Paul O'Neill. Squints! Frowns! First-graders! Tilt!

Then, *El Nuevo Herald in Miami*. ¡Ceños! ¡Cortaduras! ¡Estrabismos! ¡Cabezas inclinadas!

I felt I was losing my mind.

Adopting a background pose of requisite gravity is evidently a tricky thing for a new president: In 1993, when Bill Clinton had to appear beside his new nominees, this very newspaper commented how similar the president-elect looked in the photographs: It was the birth of his famed *lip-bite pose*. But those photos were fraternal twins of each other. These new ones are **clones**.

What could explain this?

It occurred to me that it might not be Bush in these photos at all. The president-elect is a busy man these days, forced by circumstance to collapse his interregnum into a few weeks. Perhaps he hasn't the time to attend all these ceremonial events. Perhaps what we are seeing is a stand-in, one of those cardboard cutouts you can pose with on the street around the White House.

I telephoned **J. Scott Applewhite**, the *Associated Press* photographer who took that first excellent picture of Bush and Condoleezza Rice.

Is it possible, I asked him respectfully, that he was fooled by a cardboard cutout?

"A cardboard cutout?"

Yes, I said hopefully.

"It was Bush," he said.

You sure?

"I am absolutely certain. Otherwise, I wouldn't have said it was Bush in my caption."

Hm...

I asked: How is your eyesight?

Silence.

"It does the job," he said, a little stiffly.

I admit I was pressing, but I was desperate. The only alternative scenario I had was the one I did not wish to visit.

Adam Shannon, the Washington communications consultant who first brought this matter to my attention, had a theory of his own:

The Bush we know, the Bush we see, the Bush at the debates, the Bush on the campaign trail, the Bush we elected, the Bush whom J. Scott Applewhite and others have been photographing, is "an animatronic robot."

A machine?

"It's a fusion of a servo-motorized biofidelic shell and a sophisticated artificial intelligence module," Shannon theorizes.

What we are seeing in these photos, he postulates, is "*a machine that has defaulted into standby mode.*" At a press conference in which attention is directed elsewhere, he said, the robot would,

"go into a temporary shutdown state in which it assumes a preprogrammed pose while waiting its turn to reactivate and begin speaking."

Let's follow this through to its logical conclusion. The *most powerful human on Earth* is not a human at all but a machine under the control of an unknown master with technological skills far beyond ours, programmed to carry out God-knows-what for the benefit of God-knows-who at the expense of you-know-very-well-who?

Oh, man.

Desperate for an alternative explanation, I went to our photo files, and found a picture of George W. Bush at around age 7, holding his baby brother Jeb. If you look at this picture just right, you can see the hint of the same downturned mouth, the same squint.

What could this mean?

I brought this new evidence to [Shannon](#).

"Can you authenticate the age of this supposedly old photo?" he demanded.

Well, no.

"See, if you were going to create an *animatronic robot* to run for president, you would have to go back and establish a documentary childhood. So you would have to build and photograph Mini-Me's. This is probably a Mini-Me. Same default posture."

Oh, man...

THE CLONE (P)RESIDENT

Democracy in Action

by Dr. [Stefan Grossmann](#)

July-21-2007

from [CloakAndDagger](#) Website

It's been featured pointedly in a top newspaper, but the people don't understand. I am writing this article for a free internet medium in order to help the people understand: **George W. Bush is no human**. He is not the son of his alleged parents. He is a cloned president. The *Clone President*.

The sizzling hot subject of cloning has not yet reached the public, but it is the biggest subject of all.

The headline of this article places the first letter of the word "president" in parentheses because legally speaking the sitting

president is merely a resident of the White House, see legal analysis of the Supreme Court corruption swindle at [Criminal Presidents Part 2](#).

The word "clone" is intended and is not to be confused with the word "clown" even though in the given context the two words may come close. The subtitle "Democracy in Action" – yes, the subtitle alone is *ironic* because the report gives us barely anything else to laugh about.

The human race is possessed by demons. That is a common religiously tainted word for a certain type of freak life. Some beings can slam their life into a reverse gear so that it does not grow and procreate but it shrinks and disintegrates. They are like Dr. Jekyll after he drinks his potion and turns into the abominable Mr. Hyde. These beings are mentally sick, upside down and follow a perverse goal of death instead of life.

George W. Bush died in 1987 and was carried on through secret laboratories ([Area 51](#) etc.) as a zombie henceforth. He is not the only one. They walk among us and look like we do; but they are geared to sorrow and not to happiness. Their souls are like wild animals. Their survival is driven by fierce cruelty untamed. They are fugitives from paradise. They are dwellers of the jungle. Their law is the law of the jungle – to eat or to be eaten.

America has no president. It has a series of look-alike cloned *Bonobo chimpanzees* who are 100% remote controlled through magnetic waves. The alleged President is a sophisticated theme park diorama, a walking and talking 9-11. Its controlling force is not democracy but jungle law and demonic possession.

This has a pre-history in [British royalty](#) (Greg Hallett) and in the personality development of the young **George W. Bush** (Brownsville, TX, Children of the Fold Satanic ritual slaughter, Bush at that time still human).

**GWB is a Bonobo
cross-over clone.**

PART ONE - THE EVIDENCE

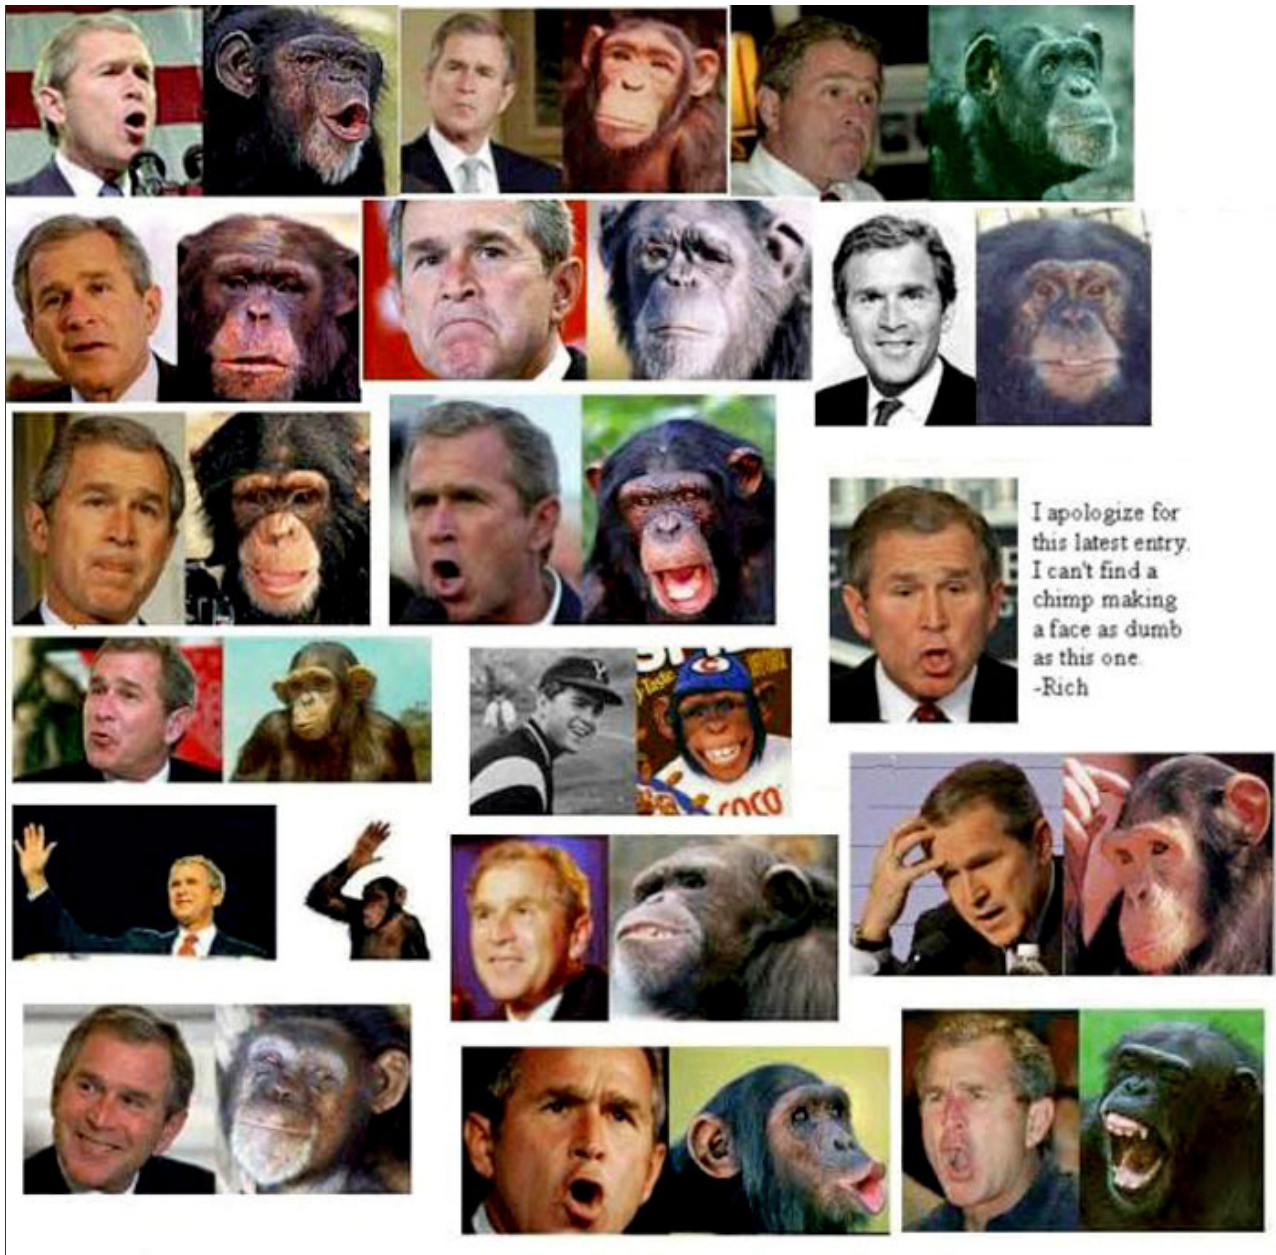

I have been hearing and reading such reports for years from serious and well-informed people including, without limitation, more than three top mainstream journalists or former journalists.

Let us look at the evidence for this proposition.

I - FIRST INTUITION - FACE READING:

As a trial attorney with psychological interests, one of my first intuitions is to get a look behind the curtain through face reading.

Here is a compilation from the internet of alleged *Bush monkey faces*, a compilation that is distributed under the guise of humor:

Study the photo compilation to form your own opinion.

I see two or three younger faces of Bush where I believe from my gut feeling that he still looks human. There is additionally another relevant face type of Bush documented on the internet. We see *absent-mindedness that resembles hypnotic dissociation*.

The most well-known dissociation photo is this:

Bush in dissociation, reportedly
remotely induced (morning of 9-11-1)
[click above image](#)

II - REPORTS OF MONKEY CHATTER:

Insiders report of monkey chatter, grunts and more extreme monkey faces, but these phenomena are for the most part filtered out of the public media stream. The inside reports are frequent and consistent.

It appears that on his own without remote control, Bush is unable to socialize and communicate in a human way.

III - REPORTS OF COVER-UP AND SUPERVISION:

There are reports that the *National Security Advisor* is a supervisor for the monkey clone. For example, before the recent G8 summit in Berlin, the President briefed a group of journalists for an hour. Without any conceivable reason, the *National Security Advisor* was present, the chief of a huge security administration with a choc full work calendar.

Does he have nothing better to do than to spend such idle time?

Another point mentioned by several sources is that the toilet excrements of Bush are guarded and kept secret by Secret Service agents whenever Bush visits the toilet during a travel in a foreign country.

The sources mention that the reason for this is that genetic material of *Bush is a top national security secret because a genetic analysis will reveal that it contains chimpanzee genes.*

IV - REPORTS OF INSANITY:

The psychiatrist (*shrink*) Dr. **Justin Frank** summarized this issue in his book "[Bush on the Couch](#)."

Jeffrey Steinberg [writes in his book review](#),

"With clinical objectivity, Dr. Frank draws upon the mass of material available in the public domain about the President, particularly **George W. Bush's** own, documented remarks, to paint a picture of a man suffering from a number of serious, but potentially treatable psychological disorders.

Among them:

- [Attention Deficit Hyperactivity Disorder \(ADHD\)](#)
- untreated and uncured alcoholism (what is commonly referred to today as, 'dry drunk')
- an omnipotence complex
- paranoia
- an [Oedipal Complex](#)
- sadism
- a mild form of [Tourettes Syndrome](#)
- a diminished capacity to distinguish between reality and fantasy

All of these disorders stem from what Dr. Frank describes as Bush's 'diminished ability to manage anxiety.'"

In other words, **Bush** *is at least mildly insane*.

Here is a photo that would support Dr. Frank's findings:

Bush was trying to flee out of a press conference but found the door locked.

GWB's insane face from foregoing photo.

Inside reports from the White House say that Bush sees visitors who appear at night and walk around his bed.

V - WASHINGTON POST - BUSH AN ANIMATRONIC MACHINE:

The *Washington Post* reported on December-27-2000 that Bush is an *animatronic machine*.

Here are some details of this article: The article is captioned " 'Machine' Politician Exposed by Photos", is written by **Gene Weingarten** (see above report) and was printed on page C.01 of the *Washington Post* on December 27, 2000 (archive copy).

The article compares the identical stereotype of GWB on live photos taken at different inaugural events.

Here are two of the photos referred to in the article:

The *Washington Post* staff writer describes the two photos:

"There has to be a benign explanation. I just haven't found it yet.

The first photograph appeared in *The Washington Post* on Dec. 18. In it, the president-elect stands behind and to the side of Condoleezza Rice, his nominee for national security adviser. **George W. Bush** is slightly out of focus. His head is cocked to the left and tilted slightly backward, his mouth downturned in a perfect cartoonish crescent, the way a first-grader might draw a frown. His eyes are squinty.

The next photograph appeared in this paper two days later. In it, the president-elect stands behind and to the side of Alberto R. Gonzalez, his choice for White House counsel. George W. Bush is slightly out of focus. His head is cocked to the left and tilted slightly backward, his mouth downturned in a perfect, cartoonish crescent, the way a first-grader might draw a frown. His eyes are squinty.

It is not a similar pose; it is an identical pose. It is not a similar expression; it is the identical expression."

The article elaborates that the photos are not manipulated and were taken at live events. The basic tendency of the article - a piece of serious journalism at the beginning of a new presidency - suggests that only a machine can reproduce a facial expression thus faithfully.

Near its end, the *Washington Post* article presents the following information:

"Adam Shannon, the Washington communications consultant who first brought this matter to my attention, had a theory of his own:

'The Bush we know, the Bush we see, the Bush at the debates, the Bush on the campaign trail, the Bush we elected, the Bush whom J. Scott Applewhite and others have been photographing, is , an *animatronic robot*.'

A machine?

'It's a fusion of a servo-motorized biofidelic shell and a sophisticated artificial intelligence module,' Shannon theorizes.

What we are seeing in these photos, he postulates, is ,a machine that has defaulted into standby mode.

'At a press conference in which attention is directed elsewhere, he said, the robot would go into a temporary shutdown state in which it assumes a preprogrammed pose while waiting its turn to reactivate and begin speaking.'

Let's follow this through to its logical conclusion. The most powerful human on Earth is not a human at all but a machine under the control of an unknown master with technological skills far beyond ours, programmed to carry out God-knows-what for the benefit of God- knows-who at the expense of you-know-very-well-who?"

I read this key article as a desperate attempt of top journalists to break the silence about cloning and its use in politics.

Regrettably, their faint plea has not been noted by the public to this day. According to inside sources, their report originated from a cell in naval intelligence that had been close to the head of naval intelligence, Admiral Boorda before *President Rockefeller-Clinton* (natural son of Governor Winthrop [Rockefeller](#), report) had him assassinated on behalf of [the Illuminati](#) shadow regime.

This adds particular weight to the *Washington Post* report.

PART TWO - BACKGROUND ISSUES

There are several quite secretive background issues for the reader to understand before she or he can properly assess the foregoing: The long tradition of manipulating royals in the British Empire, the Nazi connection of the Bush family and the Nazi exodus from Germany to America, the use of presidential clones as doubles since at least 30 years, magnetic-wave plasma weaponry and mind control.

I - MANIPULATING ROYALS:

After the American Revolution when the U.S. Constitution was created, the office of the U.S. President was inspired by the power of the British King. In the British Empire there is a tradition of manipulating royals.

This is analyzed by **Greg Hallett**, an intelligence historian in New Zealand, in his book written together with Spymaster: *How to Take Over the World, A Right Royal Con*, Auckland 2007.

Here is the summary from [Greg Hallett's book site](#),

"Never before have the cons of history been so clearly exposed.

Germany took over Britain in a 25 year TEWT – a Tactical Exercise Without Troops between 1689 and 1714. Thereafter time was altered so that no one would know whether a British Royal was killed causing a policy change or as the result of a policy change.

King George III was kept in a permanent state of madness for 55 years so that the German Freemasons, who had taken over the British Crown, could create the United States in their image. This resulted in U.S. citizens permanently funding the U.K. and the British monarchy through their taxes – [to this day](#).

The *Jewish Laws of Babylon* have now become the Uniform Commercial Code and current law. The Jews control the Freemasons and the Freemasons control the Police. All three specialize in misery.

Most of the British Royal family are illegitimate, including Queen Victoria, Prince consort Albert, King Edward VII and his son Winston Churchill. Winston Churchill was first cousin with Adolf Hitler's father and uncle to Anthony Blunt, King Edward VIII and King George VI. Adolf Hitler's grandfather ran the Rothschild Bank, the

Bank of England, and was the first Jewish MP in British Parliament.

Prince Albert was also the son of a stable boy. Close to bankruptcy, the British Royal family were saved by another stable boy, [John Brown](#), who went on to marry Queen Victoria after Albert 'died'.

The *British Royal family* are a subset of [the Rothschild family](#) and the Rothschilds control all the wars and finances of the British monarchy. The British Royal family declare war as soon as the Rothschilds have completed their preparations. This makes for huge profits.

Many royals died of syphilis and many others died from the treatment of syphilis. When a British royal didn't like his wife, he simply ordered her murder – on their coronation night. This was repeated again 166 years later with the murder of Princess Diana as covered up by Lord Stevens.

All Intelligence is now Counter-Intelligence. The media is a Counter-Intelligence organization. The media backs every war. The role of the media and embedded historians is to surround the truth with a bodyguard of lies."

For those interested in this pre-history, go to the book because it so full of historical detail that it cannot easily be summarized without losing many of its points.

II - THE BUSH-NAZI CONNECTION:

Building on the ground-breaking and well-founded historical research of **Mae Brussell**, *Webster Tarpley* and *Greg Hallett & Spymaster*, the most recent findings suggest that the Bush family is an emigrated German Nazi family by the name of Scherf(f); see [report by Don Nicoloff from the April 2007 Idaho Observer](#).

Here is the site's summary of its article:

"What you are about to read is another step beyond research pioneered in the early 90s by author/historian Webster Tarpley based largely on deathbed 'clues' provided by former Hitler bodyguard Otto Skorzeny and his box of photographs. Since Skorzeny's death in 1999, the various leads he provided have been followed up and tend to support what, at first blush, would appear to be the unbelievable rantings of an embittered old man.

What remains constant as we pore through publicly available official records, private correspondence, memoirs, newspaper articles, photos and other 'clues' is that Bush family records (the ones that exist) are a puzzle palace of inconsistencies and curiosities. Since it is a congressionally established fact that [Prescott Bush was in business with the Nazis during WWII](#), we can safely say that [the Bush/Nazi connection](#) existed.

Who are the Bushes? How did they get connected with the Nazis? Is the connection still alive through U.S. presidents George H.W. Bush and George W. Bush?

The answers are not as literal as we would like them to be. But we have the testimony of [Otto Skorzeny](#) and his photos – especially the one at right. So, here we go – the first installment of an investigation that points to a curious conclusion: The 'Bush' family was created to destroy America."

Refer to the report linked above for many research details.

According to the report in its second installment, Bush Sr. (41st U.S. President) was a **Scherff**; i.e. *the U.S.A. was governed by a Nazi*.

III - PRESIDENTIAL CLONES AS DOUBLES:

The stolen police file in the Brownsville, TX, [slaughter of the Children of the Fold](#) implicated GWB in his younger years as *being a deranged Satanic killer*, [see report](#).

Inside information is that *GWB the human died in 1987* from drug abuse. His genes were used to clone him on a

chimpanzee base.

Numerous sources from the security community disclose the existence of laboratory-grown clones of U.S. presidents. At the time of Jimmy Carter, the clones were still recognizable by not having an *adam's apple*. At a marathon run, one presidential clone fell over on its side but, embarrassingly, its legs did not stop their running movement. Here is [an article by the late Sherman H. Skolnick](#) that deals with the subject.

[James Casbolt](#), a whistle-blowing former MI6 agent from a family with a tradition in such profession, writes,

"On level 6 at Dulce human and ET scientists are crossing ET, Humans and animals together. Workers at Dulce have reported seeing strange creatures which are a mixture of alien, human and octopus."

This is one of the milder inside tips on animal-human cross-over cloning using Alien science and technology regarding the Dulce, NM location.

Here is a photo of the Dulce cloning facility, level 19,

The Exif file that comes with this photo provides the following information: photo taken April 24, 2007, 12:04 with a Canon PowerShot A530. The cited web page describes the human shape such as seen above in the rays as a "programmable life form". Reports from security personnel mention that the clones are by far not as long-lived as real humans and need to be replaced with new carbon copies from time to time.

In a video by TV producer [John Boylan](#), **James Casbolt** presents additional details,

http://hotflick.net/videos/John_Boylan/ (true source see my note at the end of this quote):

"In early 2006 an enormous underground installation, 16 miles long by one mile wide, began operation some kilometers distant from the Icelandic village of Djupidalur (see photo at bottom). It took 13 years to build, having been authorized in 1993 by the U.S. National Security Council, who had been duped into believing it would be a research facility concerned with nuclear, biological and chemical weapons.

Instead, this facility was a key part of Cabal plans to build a super army of mostly Human clones whose genetics had been upgraded with just enough retrieved Star Visitor genetic material to give these clones enhanced physical, mental and psychic abilities. This cloning project is what Colonel/Dr. [Michael Wolf](#) (Kruvant) of NSC's Special Studies Group was so incensed about when he told me several years ago that he had learned that his work in human cloning was being perverted by (Cabal) military into creating the Super [hybrid] Soldier who would then receive mental programming to get the clone to mindlessly follow immoral orders.

This caused him to resign from government research work. This weekend, a crack *counter-insurgency team* (CIT), operating independent of military control, and disgusted by Cabal takeover of key positions in government, undertook a mission to penetrate the Djupidalur installation. The CIT located where the hapless, misinformed Hybrids were being held, liberated them, and escorted them to the surface, where their safe

extraction would be arranged for by an individual with friendly ties to Star Nations and legitimate compartments within the U.S. National Security community.

During the escorting, CIT came under fire from Cabal security forces, and in the ensuing firefight, (Cabal) Brigadier General [Frank Dougherty](#) and a number of his security troops were killed. The Counter-Insurgency Team then set off munitions they had emplaced, and destroyed the clone factory installation, after setting off an alarm to give non-security personnel an opportunity to leave for the surface.

When Dr. Wolf was working on cloning, he told me that it took a year to create a human clone from test tube to walking, talking adult."

The information quoted is to my mind [copied verbatim from an e-mail](#) of a leading researcher, Dr. [Richard Boylan](#).

The destruction of the Iceland underground facility leaves other reported facilities such as Dulce and underground beneath south-western German unharmed and in operation. The period of an entire year for creating a human indicates a derived retro-engineered cloning technology that is thousands of years of research & development behind [top Alien technology](#).

Dr. [Michael Salla](#), another leading researcher in the field, writes in his 2003 "[Dulce Report](#)",

"Castello claimed that the different projects at Dulce involved reverse engineering of ET technology, development of mind control methods; and genetic experiments involving cloning and creating human-ET hybrids. Similar projects have been conducted at [Montauk](#), Long Island and Brookhaven laboratories and been the subject of a number of other whistleblower testimonies."

The associated disclosure project information ([Steven Greer](#) MD) is well researched from more than 100 top inside informants who have made themselves available.

According to **Michel Desmarquet**, author of a book about his friendly abduction to [planet Thiaoouba](#), there are only 78 Alien abductions by [Zeta Reticular Grays](#), and they all serve the purpose to help cure the progressing immune deficiency of the Grays (a result from nuclear contamination of their home planet, similar to what Earth is experiencing).

There is no direct or conclusive evidence that Zeta Reticulans are pursuing an agenda to control the U.S. government. The [Dulce facility](#) (lowest and most secret levels) is reported to be under the command of Reptilian-based people (usually called *Reptilians*) who allegedly bear an ancient grudge against the occupation of their planet Earth by a dummy human race planted here from space ("[Lacerta Interview](#)"). With highly intelligent actors, the situation is not readily transparent for human minds.

The history of the 20th century seems to indicate the build-up of a major genocide such as described in symbolical terms in the last book of the Bible under the supervision of the 500 year old [Jesuit Order](#). The operative level would involve many layers of deceptions. According to reports, [the Reptilians](#) and the Grays apply drastic strictness to destroy evil in their own respective race, and feel that we (terrestrial surface humans) must be taught to apply the same strictness to our social and racial hygiene.

Our lax approach to human evil leads the Aliens to believe that we are no better than uncivilized monkeys and need an intervention to return humanity to universal law. They see themselves, in other words, as demon hunters on a mission, with certain evil elements in our terrestrial surface race being the target of their cleansing. The question who these evil elements are is answered by Alien genetic science (not by skin color).

In lay terms, the evil beings are such whose existence is a social cancer, who are driven by hate, materialism and selfish instincts, i.e. the opposite of the *Christ*. The use of human clones is thereby the bridge-head of an Alien sting operation for liberating mankind from evil.

Dr. Salla in a slightly different context also finds a positive light to shed on the situation with regard to Aliens, see comments in "[The Need for Exopolitics - Implications of Extraterrestrial Conspiracy Theories for Policy Makers and Global Peace](#)"

Any conclusion that would paint "them" as the bad guys and "us" as the good guys would in any event be over-simplified and would, since one-dimensional and monocausal, fall short of explaining anything.

The only thing certain is that, in the end, evil is a grilled chicken (levity will be limited to this one here).

IV - PLASMA WEAPONRY AND MIND CONTROL:

Mind control is dealt with extensively at the archive page of the [Mind Control section](#).

The modern SDI Star Wars method is to piggy-back the mind control on plasma weapons which work with magnetic waves (component of electro-magnetic waves and not limited to ferro-magnetism), see [ongoing disclosure project by Carolyn Palit](#).

The brain interface is usually not a visible ray but invisible to the unaided eye. The targetting is so precise that it can pinpoint specific arteries of a human body's blood system. The scientific details are taunting and are not a subject of this article.

One of the homing devices used is a secretive white helicopter that has holographic stealth cloaking. It took a special camera to capture some photos (albeit still quite blurry) of such a helicopter over Alpine, TX in July 2007 during a plasma attack.

Photos by [Carolyn Palit](#):

Col. [Thomas E. Bearden](#) provides [the following information](#):

"The worst area we face is that of defense against ,conversion' (insertion of an extra living human mind - including a ,clone' with certain behavioral changes implemented - in targeted individuals, to switch between the personalities and thus alter the behavior of the individual). This can be (and is slowly being) used to decrease group order (GO) in selected elements of our society. In other words, it can be used to convert GO to NO-GO, either partially or - ultimately - rather resoundingly."

For more information, Tom Bearden refers the reader to his 2006 book "[Oblivion, America at the Brink](#)." In the book, Bearden presents a "disturbing new area of *psychoenergetics* - mind wars - that completely overturns the strategic landscape".

That confirms the existence of the *remote control mechanism*.

[Horus-Ra as the Archontic Alien Parasite: A follow-up interview with Maarit a Scandinavian MILAB-abductee By Eve Lorgen](#)

In one of Maarit's experiences with her 5-year-old son, they both remember being placed in an enclosed machine with deep red lights and pulsating sound. Her son remembered long needles being inserted into him. She believes this pulsating sound and light instrument had to do with cloning in some fashion, and recognized similarities in her and her sons experiences, as those events described in Ted Rice's abduction testimony, written in the late Dr. Karla Turner's book, *Masquerade of Angels* (Keltworks, 1995) One of Ted's abduction memories involved a small black box that was used to transfer his astral body consciousness from his original body into a cloned version of himself. Maarit told me that one of the reasons they use the black box, is so that the human spirit consciousness does not disperse and go elsewhere, and instead is trapped and directed into cloned bodies or stored until transferred to where the aliens want to place the astral body consciousness. Maarit believes this black box technology is also key to the aliens "soul recycling" technology, which entraps human souls to be born into bodies chosen for that person. Some abductees have reported to me privately that the aliens have interfered with them in other lifetimes, and were told or remembered to have made pacts with "reptilians" in former lives. This being the reason they now are in milab supersoldier programs, for example. Observing cloned human bodies is a recurrent theme reported in many alien abduction testimonies, and with milabs. In Dr. Corrado Malanga's research with testimonies gleaned via interviews and hypnotic regressions, abductees reported vivid memories of cloned human bodies of other abductees stored in various places by the aliens and human military collaborators. (<http://flashmentalsimulation.wordpress.com/lones-removal/>)

This information was gleaned through numerous abductee testimonies and through hypnotic regressions. In my own work, I see this more within the milab abductee testimonies. In fact, based on the number of milab reports and abductees being used as "operatives" for the aliens or military, led to the hypothesis that the cloned bodies of abductees are sometimes the physical bodies used to carry out various mind controlled operations for various agendas, alien and human. This is one reason why some milabs and supersoldiers I have interviewed say that in these mind-controlled ops, they feel as though their bodies are perpetually younger or no older than 35 years of age. Many abductees have discussed with me mutually shared "dream experiences" with other abductees. Memories involving military operation themes are common, as if they are being either tested and trained for specific military operations or are literally being used in an alter personality mode or, possibly in cloned bodies.

[How Many Fulford Clones Are Out There?!](#) Okay, this is getting ridiculous and weird — and for me to say that is something! There have been reports of Fulford sightings all over the place — in Tokyo there was at least five reports, when Fulford and his clone were indoors; in Osaka, two Fulford sightings were reported at the same time but on opposite sides of the city; one was spotted in London with a mgeahorn outside the Royal Bank of Scotland; one was spotted in Tel Aviv inside a cafe, screaming about the evil Zionists; one was spotted in New York City outside the offices of Goldman Sachs; and yet another sighting was in Los Angeles at the gates of Paramount studios, demanding that they stop making films filled with disinformation. So how

many damn Fulford clones are out there?! Or are they reptoids using hologram tech to create confusion?

[Gary McKinnon: Project Mannequin Agent and Clone](#) Gsry McKinnon was taken at age four to undergo training, torture and programming via the British arm of MK Ultra in Project Mannequin. He was taken to a six-level base 200 feet underground the village of Peasemore at Berkshire, a facility known as AI/499, where most UK children are molded to become soliders, operatives, sex slaves and assassins. Returning from duty on Mars in 2006, a disinfo plan was hatched by the NSA. McKinnon would pose as a marijuana-smoking amateur hacker who somehow found a backdoor into US government and NASA databases (c'mon, folks, they are not *that* sloppy) where he stumbled on photos of anti-gravity ships and crew manifests for United States Space Command. That information is correct. The plan was to release this information into the public to gauge reaction, if people would accept or believe it. To add creditbility to the story, a bogus investigation and extradition demand, along with hearings in the UK courts, was manufactured. This way people would say, "Well, if the USA wants to prosecute him, what he found must be real." It is real, but the circumstances are all disinfo. However, the lover of McKinnon's ex-girlfriend murdered McKinnon, thinking he was doing the Cabal a favor and would be rewarded for it. He found himself tortured and mind-wiped instead. A clone of McKinnon was gestated to take his place. If they allowed the murder to become known, it would raise too many suspicions and there would be citizen outcry that the US government had him killed, when it was nothing but a crime of jealousy and opportunity. What further orders will be given to the McKinnon Clone is unknown.

Clone

Synthetic

A clone is a lifeform that got created trough manipulation of biological premises, while a synthetic is just a simulation of biological activity. When you study since many years psychology and you have some skills for that, you will be able to read the mind of humans and animals by just looking into the eyes and I figured out that some people exist in media, that do not exist in our society and this increased my interest. Why people of media, movie and music industry look so different than the people that walk trough our streets? I don't speak about their expensive clothes.

I talk about the big emptiness in their eyes. A problem clones have is they got not born in a natural, but in a artificial way, so their body will look normal, but their inner self can't be cloned. A soul or self you can't clone, because what makes a human being human is that his deepest fragments of the intrinsic self will be a biological counter-piece, but cloned beings have a psychological cut-off point that will manifest a intense dis-connection of their mind and body and this will create BPD ("Borderline personality disorder") since their first birthday.

Even if a cloned child is not even born, it will feel and be dis-connected from the higher levels and sources because there will be no telepathy between the cloned being and the mother, so these clones will never know what love is or emotion.

They are able to think, but cloned beings are not working via six-helix bundles of DNA. Clones work with less than five-helix bundles and you people may know that more than six-helix bundles of DNA are necessary

to get full awareness and all higher features that we all are looking for. So a clone is a artificial lifeform that lives in the - extremely limited - genetic cave of his creator(s).

The inside psychology of a clone will be not very different from the psychological point of view that you people here experience, when you feel totally disorientated and lost after you mixed to much alcohol with a very bad drug. If you watch how people feel after they use drugs since a long time, you will see they loose their mind, they loose their intelligence and they will loose their higher awareness, also they will loose their inner integrity.

A clone never experienced a inner integrity.

So clones are very easy to (mind)control, because they don't have the natural ability of a inner integrity. They are absolutly defenseless and it makes me sad to be aware of the fact that scientists create clones of models, actors, singers and all kind of famous people. <http://forum.davidicke.com/showthread.php?p=1059834902&posted=1#post1059834902>

<http://www.cyagra.com/>

"Not ready to clone yet? Make use of one of the most revolutionary genetic management tools available today, genetic preservation cell line development. Genetic Preservation is the act of sustaining an endless supply of Viable DNA material from your superior animal.

As the scientific discoveries and technologies continue to develop one thing you need to realize as a breeder or owner is the value of DNA. This is the blueprint of your herd or flock's foundation. This is what you have spent a lifetime breeding or invested substantial money to purchase. That animal is more than just a hide so invest in him / her like the foundation they are. Developing a cell line gives you that blueprint to recreate him / her or to make use of the valuable genes he / she carry.

The process involves taking a small skin biopsy from the founder animal from which millions of fibroblast cells are grown to develop a cell line. Each fibroblast cell contains the complete DNA of the founder animal. Once a cell line is established you can move forward with Cyagra's patented cloning technology to create a genetic twin or preserve it for future use. Your cell line can also be used for genetic testing such as gene markers or future genetic technologies."

If they have this for animals already, I suspect they have it for humans. Its just not out in the open yet.

There might be some electronic means whereby measurements could be obtained in terms of electronic frequency that would allow discrimination between one type of entity and another. The field of radionics essentially does this kind of thing. The entity seeking to attune to another's vibration uses a kind of drum with powder and moves the fingers around on this until they stick, while at the same time turning a knob which changes frequency on the machine and when the fingers stick, the frequency at a certain level is assumed to be the frequency of the person or individual the operator is attuned to. Once you have that frequency, then you set the dials to that entity's frequency and begin to do readings on the entity in terms of frequencies associated with illness or other concerns. You could use the same method for finding the frequency in a diode or implant that the entity may have within himself, or if the entity is a synthetic or Robotoid or non-human type, you might use this method for finding what frequency this entity is and thus, gain some understanding of the frequency level associated with synthetics.

A decent radionics box consists of nine small rheostats (wire-wound variable resistors) with numbered dials (1 through 10) electrically connected in series. Into this tuning arrangement is plugged an electrode upon which rests a sample of what is to be analyzed. The output of the tuning arrangement passes through a metal plate covered in stretched latex, the metal plate then being connected to earth ground. An operator rubs the latex covering (called a stick plate) while tuning the dials until the fingers "stick" and the latex makes a snapping sound indicating the dial has been properly tuned...the operator then moves to the other dials and repeats the procedure until all nine are tuned. This produces a nine digit readout encoding the vibrational characteristics of the analyzed sample. It is a sophisticated form of dowsing.

A radionics box with nine dials allows for two billion possible numeric answers. The only problem is you would have to know for sure the entity is a synthetic and there would need to be a great enough difference between most entities and synthetics that there would always be a standard level for synthetics shown by the vibration or frequency so that you could distinguish this entity is a synthetic because his vibrations are those that match other synthetics that we have tested. it would require many years of research unless it has already been done and you would also need to have a control group of synthetics to measure and compare with a control group of real humans to determine if there is indeed a difference in the vibration and how much difference and if it is always present in synthetics and if the human vibrations never extend into the same areas as the synthetics.

For more on radionics, research the works of Dr Ruth Drown.

About cloning: A human adult clone today can be made from a single cell in less than thirty-six hours. I am not joking. Russia had perfected cloning by the mid 1970's, and the Rothschilds were close behind in cloning technology. (from <http://www.2012unlimited.net/Robotoids.html>)

1970's - Rand Corporation predicts that "para-humans" will be genetically created to do menial tasks in the future. In a totally different affair, Lord Rothschild, who is a physiologist who has studied genetics, warned that self-centered fanatics might set up cloning shops privately. Lord Rothschild suggested to genetic scientists that a clone controlling organization with world wide jurisdiction to license cloning be set up to protect the world from evil men who might want to clone people for evil purposes. He called his suggestion 'Commission for Genetical Control.'

1977 - Announcement of the first successful cloning of a person, which was done for someone very wealthy. This whole affair came under strong attack by the establishment. The book giving the shrouded details came out in 1978. The author went into hiding, and our Congress had a parade of establishment research doctors testify at a hearing to debunk the book and to reassure the public that medical researchers were too concerned about ethics to clone people. The author was convinced of the veracity of the cloning event, although the media/establishment doctors claimed the author wrote the book merely as fiction...

One writer notes that "genetic engineering has the potential to create a vast army of identical clones, each produced to some preset specification. Canon fodder, scientists, opera singers, all could be manufactured to order..." The New York Times has editorialized, "Life is special, and humans even more so, but biological machines are still machines that now can be altered, cloned, and patented." --(Do you realize that between the lines they are talking about bionic robotoids--the robots that are now being created to take the place of people in high places?!) And the chilling idea that human-like machines will be produced that will not be treated as anything but machines. That is a chilling thought too.

The novel, "Multiple Man", is about how exact copies of the President are made. The book has some surprising similarities with what they actually did with President Carter...

Secret Cloning Sites: Ada, Oklahoma's underground facility is being used to clone humans. The other cloning facilities are turning out weird creatures...

The secret cloning facility at Bull Run near Mt. Hood, Oregon, is a large tract of forested land... The area has lots of electronic surveillance, etc. Of course, those in the know, know that it's an underground facility which the CIA use. It is not an accident that Tektronics in the Portland area does work/research with holograms...

According to someone who has worked in the Dulce Underground Facility, the openings on the North and Sout West face (Aztec Cliffs) are still in use. Actually the cliff that has a face on it that looks like an Aztec on Mt. Archeleta, has been cemented shut, because hikers kept straying into the area. A deep needle detector which could detect metal or magnetism deep down, could reveal the Dulce Underground Facility, but people who get this close often end up 'disappearing'.

Reptilian Bloodlines

<http://hardtruth.navhost.com/bloodlines.html>

"...The cloning program is there to develop designer bodies for the reptilians of the "in between world" that would not require the overpowering of an already incarnate consciousness.

Once activated, the DNA opens the body to possession by these reptilians and other beings, and this is what is happening, for example, to Freemasons in the rituals that most of them deliver in parrot fashion, while having no idea of their vibrational significance. This is why the Illuminati are so obsessed with knowing a person's bloodline. They know which bloodlines have the potential for this activation and possession and which ones do not.

The Mormon Church genealogical data base and now the DNA data banks are designed to identify those with the bloodline. These are the people who are given jobs and roles that serve the Illuminati agenda, while most of them have no idea what is really going on and what they are being used for. Their DNA is then activated and they go through a "change of character" (a phrase I have heard so many times in relation to such people once they advance in the system) and a very different consciousness takes over their mental and emotional processes.

Each new generation of the Illuminati bloodline families is exposed to the appropriate ritual to activate their possession by the reptilian entities and so the cycle continues.

Apparently, this DNA infiltration is known within the inner circles of the British royal family as the "family disease". They are actually in fear of it, because they know that once it is activated, they will be taken over. But of course they are caught in a world of constant ritual and ceremony designed specifically to activate their possession. Without the ritual they cannot be the royal family, but with the ritual, they are activated and possessed. The thought and emotional processes of the UK's Queen Mother are not those of Elizabeth Bowes-Lyon, the little girl officially born into that body. They are controlled by the reptilian entity, or entities, which possessed her after her hybrid DNA activation..."

Murray Foster Missing in Toronto; Replaced by a Robot

TORONTO (AP) – Murray Foster, bass player and vocalist for Toronto Indie group Moxy Früvous, was recently discovered to be a robot. The FosterBot was discovered while performing at C'est What? in Toronto with local singer-trumpeter and all-around "hottie" Tory Cassis. A spokesperson for Moxy Früvous' management, who spoke on condition of anonymity, stated that Foster was actually reported missing in December 1998 and the robot was constructed to keep the band's rabid fan-base happy. "Jian, Mike and Dave were afraid of what would happen if it were discovered that Murray had vanished, so they suggested the robot." The robot idea worked quite well until the band's release of their final full-length album "Thornhill," when it was suggested by some in the rabid fan "community" that Murray had indeed been abducted and all photos of him in the album's notes were actually those of his look-alike replacement. Joe Navratil of Campbell, CA, spoke to reporters today at a news conference, "The real früheads knew that

Murr had been abducted and the remaining guys were just covering it up.” Mr. Navratil said however, that he has no idea as to the whereabouts of the missing bassist. Toronto police have taken two suspects in the Foster kidnapping into custody. The suspects are Fiona Gardiner and Andrea Eves, both of Toronto. Police are currently questioning the self-professed “früheads” in the matter. Eves is reported to have been heard shouting to reporters, “We don’t have the Mur-man, that Snow has him.”

If you don't believe what I've said about clones, check out Barack in the New York Times for the year of 2010. Since many online articles were redacted because of this horrible mess, the best way to verify the use of lookalikes is by retroactively checking out the New York Times over the course of the year. January to June he looked normal. July he got sleepy... August, he looks ABSOLUTELY DIFFERENT, many different faces. September till December? Well, that's the current Obama. Don't believe me? Check it out for yourself! This paper turned him sick. When people read what's being written here about Barack Obama, the response is usually skeptical. One reason is because this information involves the President of the United States, not to mention the existence of psychic abilities. When I describe this Freemason-controlled planet, this certainly doesn't seem like the world that we know. Remember that if you are skeptical, you should look into Barack's day-to-day appearance over the course of the year like I've mentioned. Our current president has a distinct face and looks much different than the original president.

At this point, the Freemasons had their heads up their asses trying to figure out what to do about the media image of Barack Obama; that's when the transitional lookalikes emerged. See, our current president who has been in place from October 2010 until now has a very distinct face. Even he looks much different than the original Obama, but he blends in very easily compared to the guys that were used in August and September. The most notable lookalike is the guy that was used on August 9th for a 26-minute long speech at the University of Texas. Take a close look; this person is certainly not the original nor the current Obama. They just couldn't back out of this speech; what could they do? They did what they could, but it's quite obvious.

There were several other standins that were used during August and September, and people don't realize how simple it would be to research this. Microfilm and microfiche are two tools that would certainly come in handy for this one, since our government edited the internet over this mess. Looking day to day in the New York Times and USA Today would certainly show evidence of lookalikes. Check out Barack Obama's appearance from his inauguration up until June of 2010. You won't really see anything out of place; he just looks the way that he always looks. All of a sudden in July, he looked ridiculous. Sleepy, veins showing in his face, obviously bothered. Then in August and September the government used transitional lookalikes, and in October our current Obama jumped in and saved the day.. until people catch on, of course.

Organic Robotoids, Synthetics & other Non-Humans:

Has human society been infiltrated with non-human entities who look and act like humans? Have government leaders and top officers of corporations been replaced with non-humans? The very idea is just too strange and beyond the comprehension of many.

"The purpose is to awaken consciousness to allow entities to have a greater expansion of concepts that allow the mind to move into areas which were previously unthinkable, to expand consciousness into thinking about unthinkable things, to explore the unknown and to discover new things regarding the universe in which they live." ~Cosmic Awareness

The portrayal of robots and humans with robotic parts is a recurring theme in music videos, movies, books and articles. (See Terminator, i-Robot, Surrogates, Daybreakers, the tv series Caprica and Fringe.) Is humanity being prepared for future disclosures?

Kevin Warick, the world's first cyborg is the real-life story of a scientist who has incorporated robotic parts into his own body and he encourages others to do likewise. The recent Project Camelot video, Heather Material, Ben's Story, discusses the scientist, Heather, who said she was working with top scientists building human looking robots. (Apparently the publicizing of the source for this info facilitated the separation of Project Camelot into Project Camelot Productions and Project Avalon.) The Black Eyed Peas' Imma be Rocking that Body video portrays the merger of humans and robots.

Essentially all corporations of any magnitude have been take over by synthetics and are being controlled and run by those who are behind these forces.

That does not mean that every individual in power in a corporation or in the executive or administrative level are robotoids or synthetics, but rather those key positions within the structures are quite usually controlled and operated by this type of being.

In many instances the being is a replica of one who is still living, and this allows the entity to be elsewhere, while still at his office.

This Awareness suggests the synthetics live longer than robotoids, that the synthetics have been created by extra-terrestrials rather than Russians.

Essentially these entities are being associated more with the synthetics this Awareness has described, than with the robotoids described by Dr. Beter.

This is well-known by certain departments in the government—that many of these have been involved in the government, and in fact, many of these robot-like creations have taken over certain departments of government.

Awareness indicates this information as being extremely dangerous for this entity to have released—that the only reason why the entity has been allowed to continue serving after the release of this information is because it appeared to be so unbelievable that the public has not responded or reacted in a manner that threatened those who are behind this action.

[\[2011\] Interview with Maarit, a Scandinavian MILAB By Eve Lorgen](#)

10. Have you ever seen or observed the human clones in your experiences?

Yes I have. In a DUMB, I have seen my clone. Somehow it was not properly made. The tissues looked puffy. This creature could barely walk and it was wobbling. Movements were very clumsy and the scenario reminded me of the Frankenstein's story. Somehow I believe human participants made this clone. In UFO craft I have consciously seen male clones, lots of them, lying on the tables. I saw this accidentally when a hybrid creature was showing me the way to somewhere. I think this was not meant for my eyes to observe, but accidents do happen.

I strongly believe that almost 13 years ago, my original body was killed and used somehow. My

consciousness was put in to cloned body. (This happened to Ted Rice and was elaborated on in the late Dr. Karla Turner's Masquerade of Angels book—EL) At that time I felt physically different and looked younger. My friend also told me that I looked different. But I have no conscious memories of this. Only my instinct. The procedure was conducted after very sadomasochistic events by the Reptoids and humans, which I do not want to go into specific detail. But the process of soul recycling (after being born into a body) begins after abductees are given some sort of liquid to drink. I had to drink it as well as a couple I had not seen before. What happened to them, I don't know. I also experienced being killed (in a ritualized fashion) a second time in the autumn 2010, a similar procedure and I have conscious memories of that incident.

I was spontaneously awakened in the 2010 "storage in a black box" procedure, where the pure consciousness, essence of me was temporarily kept. I know these issues are frightening and sound psychotic. Only a very strong person is able to go deeply in to these disturbing experiences without being shocked. The denial of these soul-recycling procedures is natural for humans and I can understand that clearly. I'm telling this, because the facts and witness testimonies cannot be ignored forever. Behind the surface there are more things happening than friendly discussions with the space brothers.

I can give you one thought to contemplate: What the term karma is given to people as a justifier for their memories of previous lives, which they lived because their consciousnesses had been recycled by the aliens may not be because of the karmic law. In my opinion we don't know what is the natural process of consciousness to transform or move forward. We only know that we have been told to behave or otherwise we could wake up as pigs. We are being told that we remember past live because of reincarnation, not because someone has reincarnated us. There is a huge difference here and I believe the technology for doing this is being kept hidden and it would be very precious for humanity if they don't already have it.

Doubles, Clones & Aliens

Published By TBFWs (The Battle For World Supremacy), Version 2.13

August 8, 2009 - Updated: October 6, 2015

The importance of human doubles was realized very early as politics became more complicated amongst the ruling elites [old wealthy families -- Rothschild, Rockefeller, British Royal Family, Fondi Family Trust, secret societies, etc.]. With either side wishing that if they could just replace certain persons in their way to bring about changes in political circles to create situations and environments more favorable to their agendas.

After World War II facial plastic surgery was practiced by skilled surgeons and perfected in secret. The Soviets were using it to create high-ranking doubles and these doubles had to undergo hypnosis sessions and devote many years mimicking mannerisms, behaviors and traits of the person they would eventually replace. And the United States, England, etc. were also involved in the facial surgery sleight of hand to fool the public and members of the aristocrats. But the process of bringing about the change had its limitations, and over the many decades to follow all science institutions funded by the elites were searching for new ways to create replicas. In the United States, England and Europe the research was especially compartmentalized to ensure secrecy.

DNA Infusion:

The first public knowledge of DNA infusion (to incite form-feature transformation) was revealed in France using ducks, according to Gordon Rattary Taylor, author of the book "The Biological Time Bomb". The original research as to how it was done was closed down after information about the results was published in peer-reviewed journals. Another batch of experiments was attempted by the same group, but the results from the first attempt could not be duplicated, and the first published findings were believed to have happened by chance.

The French research institute in Strasbourg was being funded by the Rothschilds. And according to reports in 1959 biologists were hearing news that three French geneticists had used two species of ducks, the Khaki Campbell and the White Perkin, where the Khaki Campbell DNA was extracted, the material processed and injected into the White Perkin. The geneticists were hoping that the DNA injected would transfer into the offspring of the White Perkin. But something amazing happened, the White Perkin's body features started to transform into that of the Khaki Campbell! [Photo 2](#)

The Rockefeller family funded universities in the United States were also tinkering with DNA transformation. Seven years after the French report, A. S. Fox and S. B. Yoon of Wisconsin University said that they were able to bring about a genuine transformation after treating different strains of fruit flies. They bred true hybrid offspring for up to seven generations and then their foreign DNA disappeared.

After reading about the Fox and Yoon research, Soviet Professor Serge Gershenson, head of Virology of the Academy of Sciences in the Ukraine said that he had treated Drosophila (fruit fly) with DNA extracted from the thymus glands of calves thirty years prior and that his research was published in 1939. His experiment produced stable transformation in the wings and a small segment of the Drosophila chromosome was also affected. Gershenson was surprised by the results and wanted to continue the experiment, but soon after World War II erupted and his research was discontinued. [Photo 1](#)

Lab-Clones & Lab-Doubles:

In 1967 Lord Rothschild a physiologist and international authority on the structure and action of spermatozoa, told scientists at the Weizmann Institute of Science in Israel that he regarded cloning people as a near possibility, and that the hurdle he foresees is ethical. Rothschild was not specific about the type of cloning -- in womb baby or current age (teen or adult) biological automaton, but most likely he was referring to regular human cloning by tinkering with the DNA in the sperm and egg.

The first to mention lab-cloning at the adult stage as fact was Dr. Peter Beter, informed through his intelligence sources and recorded into his audio letter series and radio interviews. And Dr. Beter was shown actual photos of human clones deployed in Washington DC. Many years after disclosing the discovery, a source who Beter was getting some of his secret information from, confirmed what Beter had said, and revealed more. Beter was later warned to stop producing his audio letter series and a few years after he suffered a heart attack and died. The source said that he took Beter to see one of the U.S. presidents, Jimmy Carter, in cloned form in Washington DC at a morgue after fulfilling its political stand-in and died due to body function

deterioration. The source said that the clone had a doll-looking appearance, and that adult cloning was pushed aside because the process was time consuming and the end product had a limited lifespan. Adult clones are still being used today, yes, but not as widespread like when their deployment first began in the late 1970s. [Photo 3](#), [Photo 15](#)

Lab-clones were somewhat retired in the political sphere four years after their deployment started in 1979 where the secret group that was behind these futuristic biological automatons resorted to using another form of human product that was more durable, called 'lab-double', which requires genuine human host bodies. And these host bodies are collected through clandestine means to avoid public outrage and ethical scandal.

Lab-clones can be created from scratch using the donor's DNA starting from the egg cell stage using recombinant DNA technique; while the other method of human lab-cloning grows the host bodies and store them for eventual DNA transformation. And lab-doubles require genuine human host bodies that are snatched from among the general public. When this is done, people will go missing or framed/initiated in brutal murders, found guilty, sentenced or taken away for fake death; and those who are sentenced commit suicide or die in some strange way.

Lab-doubles are generated using DNA infusion, where the DNA of the person to be copied is collected from blood, skin, etc. processed and prepared for the transfer procedure into a different host. The target host body DNA is suppressed as the foreign DNA is transferred, which completely overrides the body's original DNA and physically starts to transform it in hours.

(Reference: THOMAS CASTELLO declaration about the Dulce Base; an excerpt: "...Dark haired boys between five to nine, small to medium size men in their mid-twenties to mid-forties. But, let me stress that there are ALL TYPES of people being held against their will in the Dulce Base! The boys (i.e. for

lab-doubles) are favored because at that age their bodies are rapidly growing, and their atomic (i.e. DNA) material is adaptable in the transfer chamber."

As mentioned earlier, the experimentation of transplanting DNA into a different host has been tested since the 1920s, even though the reality of the double helix (DNA) came into public knowledge in the September 1967 issue of the National Geographic magazine in an article titled "THE NEW BIOLOGY". The public acknowledgment of the long held theory became fact and biologists were now excited and perplex about the new science and possible ramifications, because they realized that DNA markers were like colors or different blocks that could be mixed or re-sequenced to create variations and similarities. In the year 1997 I was informed by a source that the first human clone outside womb by a private European firm took place in secret, in Belgium, and that the child was four years old when the news leaked. The source said that as the child got older its consciousness started to deteriorate and had to be kept alive using life support equipment. The Belgium project funded by the elites [old wealthy families -- Rothschild, Rockefeller, Fondi Family Trust, secret societies, etc.], said the source, was to perfect the science to grow humans from baby to adult, and that the knowledge would be used later to create emotionless fighting clones for future military warfare.

Cattle Mutilation:

As the 1960s dawned reports of mutilated cattle began to surface in the United States confined to the states of Pennsylvania and Kansas and was seen as isolated incidents. By the mid-1970s the bizarre phenomenon of cattle mutilation became widespread in the Americas. The public had no idea what was behind these mysterious cattle killings. The same phenomenon was also being reported in England between 1983 and 1993, and in Germany between 1992 and 1998. Rumors were being spread throughout the UFO community that extraterrestrials and their spacecrafts were involved; and still today the made-up blame as to who is behind it remains the same.

Predatory animals are also involved in some killings of cattle, and their methods (jagged and ripped wounds, battered bodies, etc.) of slaughter can be deduced by knowledgeable investigators. Cattle mutilation done by human predators the wounds are more precise along with certain logical patterns regarding the harvesting of organ parts.

The Rothschild's subordinate, the U.S. Bolsheviks, were behind the wave of cattle mutilations that struck the Americas in the mid-1970s. The U.S. Bolsheviks were using the Rothschilds' method for generating adult clones, developed in France, which requires the collection of certain organs while the donor (animal or human) is still conscious. Biologists in the know, especially those working on secret government projects, are very aware of this practice. [Photo 4](#)

I was informed about one such incident involving the British that happened in the 1960s to harvest animal kidneys to assist in creating nutrient rich tissue cultures. The animals were captured and held in cages, then after their organs were harvested while conscious. Years later information about the project surfaced into the public causing scandal and repercussions, and the entire procedure about how the organs were collected was denied to have ever happened.

Not to repeat their mistake, the secret group behind the harvesters was now using advanced technologies and chosen locations to collect cattle organs, tissues and blood; and then blame the cruelty on extraterrestrials. This was part of the alien invasion agenda scare tactics campaign to perpetuate fear among the public about extraterrestrials.

On June 30, 2003, Israeli scientist Dr. Tal Biron-Shental at the annual conference of the European Society of Human Reproduction and Embryology, said that they were successful in growing egg-producing follicles taken from aborted human fetuses, where 70 baby mice were born using the technique. Vaguely detailing the process he said that researchers removed ovary samples and froze them; later thawed and cut into thin slices and placed in a dish with growth-enhancing chemicals (e.g. hormones extracted from glands and other organs) and "calf blood" for four weeks. At the symposium some experts were skeptical that aborted fetuses could ever be a practical source for human eggs, while others said it was technically possible, but that ethical concerns make it a bad idea.

The biological tissue cell culture, nutrients, etc. extracted or grown from the cattle or human organs are used as a starting point in the cloning process. Thomas Castello, the security administrator for the Dulce Underground Base corroborated the cattle mutilation phenomenon as terrestrial related as mentioned by Dr. Beter over thirty years ago. The Dulce Base project was similar to the Plum Island project in New York and the fictional Island of Doctor Moreau. However, the Dulce Base project...was more advanced because it brought together accidental discoveries for in-depth exploration in secret. The project was grandiose because it had ulterior motives in mind. And some of them was to try and solve the problems of human cloning, create off-world looking species, create human-like caste of species, mind-programming, anti-gravity propulsion, etc. And the project was to get ready the master plan for a fake alien invasion of Earth. Natural Doubles:

Lookalikes or natural doubles are one of the mystifying occurrences of nature. It is said that a percentage of the population can find a close or similar mirror image of themselves among the populace. The intelligence communities worldwide are always actively searching for lookalikes of people in important positions just in case something happens to the original person, then a lookalike is used for a period of time. Before the late-1970s using lookalikes were problematic, because the only thing that they were required to do was to pose as the original, but when it came to public interaction, etc. their performance was often poor since they did not have the memory of the original person. In situations such as public engagements knowledgeable aides that have made it their business to know most everything that the original knew are used. Such aides are right beside the lookalikes whispering in their ear when they're lost for words. Once lookalikes are brought into the political spotlight this also creates problems for them because they now know too much, especially if they are used briefly where their lives have to be terminated through premeditated accidents. [Photo 5](#)

Unknown to many readers worldwide is the contact case of Billy Meier, and according to the Plejaren extraterrestrials he's in contact with, they told him as fact that the legend of the long dead person Count Saint Germain of France was kept alive using natural doubles after his death. These lookalikes were put in operation over the many long years by the secret sect of the Rosy Cross (i.e. the German Order of the Golden and Rosy Cross) to continue the legend of Saint Germain. Memories of the history of Saint Germain were transferred to the doubles using hypnosis sessions and they were also taught sleight of hand tricks.

Written rumors about his mysterious history said that he had found the elixir of life and lived for 2,000 years. But the elixir was

nothing more than a recipe consisted of euphoric herbs and chemicals given to him by the Rosy Cross sect, and so his long-lived life was attributed to natural human doubles. The original Saint Germain died at the age of 73. Did the Rosicrucian organization in Germany had some type of interaction with extraterrestrial intelligence? They selected and schooled the real Saint Germain and after his death the organization prolonged his image and history. Voltaire on June 6, 1761 replied to Saint Germain's letter from a previous correspondent he received in April, where Voltaire hinted about revelations in the middle of the 20th century, and referred to talking pictures and flying machines. It is not clear if Voltaire saw talking pictures and flying machines; most likely he was told about these things in conversations with Saint Germain. The mission of Saint Germain working through the Rosicrucian organization in Germany was to establish a world government. the the Today the New Age cult has built an even more ostentatious faulty legend around him as an Ascended Master, but that should have been corrected as him being only an Ascended Master of the Rosy Cross of Germany. The mission of Saint Germain failed, and centuries later the Thule Society was formed with members in contact with extraterrestrial intelligence that later influenced Hitler.

Artificial Living Mind/Consciousness/Personality:

As the 1990s dawned the Russian science lab in Siberia discovered how to create an artificial living mind/consciousness

/personality that can be inserted into an individual's mind unnoticed, where that personality acts as a spy, with sight and ear senses recorded from a distance monitoring site Russian lab. This discovery by their scientists has lessened the deployment of clones and lab-doubles of high-ranking people in government. Russia is the only country with this technology.

Mind Programming:

During the reign of the Nazis in Germany research was being funded to develop techniques for mind-control. Into the 1970s out of that exploration the method of using a millivolt device to transmit frequency waves into the brain to inject thoughts, suggestions and commands was developed by the United States and England. This method of brain programming creates an end product with missing gaps. Later the technology became more developed to allow some measure of memory recording, but the gap problem remained because depth or 3D recording was not yet possible. Nevertheless the technology became very useful by the Rockefellers and the Rothschilds in human brain programming. During the testing phase many kidnapped humans went insane, suffered brain damage, had no knowledge of who they were, etc. [Photo 7](#)

Although the Russians knew about the millivolt technique, they pursued another method using light waves. The requirement was a specific form of monochromatic light, which unfortunately was not yet developed. Although cloning technology was far ahead, the living end-product was useless because it had no memory history to draw from and the duplicates were like zombies.

It was not until 1947 that Hungarian-born physicist Dr. Dennis Gabor discovered a way to make three-dimensional photographs (static frames) called "holograms." To make motion holograms the monochromatic light was still unavailable, but all that changed with the invention of the laser in the 1960s. The light that it produces is monochromatic (which means light of just one wave length) and the Russian technologists went to work to develop a device that could record the entire memory of the brain. By the 1970s the Russians had built an apparatus that was able to record the contents, the image, a complete record of the neuron patterns of the human biological brain using inaudible high-frequency sound waves to create a detailed three-dimensional picture of the brain and store it in stable computer form. They found out that the "ultrasonic cerebral hologram" process duplicates basically the entire memory of the person. The Russians now had what they wanted to create working lab-clones for deployment. And the same device is also used to download someone else's memory into different person, in this case a lab-double. But also natural doubles could now be reprogrammed with a copy of someone else's memory made by the holographic device. And after the procedure the natural double has the full memory database of the person it replaced. [Photo 8](#)

In one incident, the U.S. Rothschild's subordinates tried to use their clones to penetrate the Kremlin, but the Russian secret group became aware of the plan and let the clones through, then had them reprogrammed, and so whatever problems the subordinates were to instigate in Russia never happened. The U.S. Rothschilds became perplexed trying to figure out what had went wrong, as to why the clones were not carrying out their mischief-making as planned.

Growing Fetus Inside Artificial Womb:

The amazing feat being pursued by science since the 1930s is the construction of an artificial womb. Such an achievement would make it possible to continue the in womb growing cycle of premature fetuses that weren't able to finish their natural in womb development for whatever reason -- vehicle accident, forced premature delivery, etc; but the technology had other applications. Research began all over the world to duplicate human placenta and machinery that would assist in supplying the fetus with oxygenated blood while it is suspended in an incubator apparatus containing artificial amniotic fluid heated to body temperature. As the technology and science matured, experiments were being done using animal and human fetuses. [Photo 9](#)

By the 1960s research was done at the King's College Hospital, London using a prototype womb that was designed with ideas from the heart-lung machine. A human fetus, 26 weeks old, was kept alive for five hours in good shape, said the report. In addition, an experiment was carried out at the Stanford University School of Medicine using a live human fetus, monitoring its survival in an artificial womb via cutaneous respiration (oxygen passing through the skin from the highly pressurized fluid

surrounding it). Shown in montage photo (taken in 1965 by Fritz Goro) is a hand adjusting a valve to regulate nutrient levels. [Photo 10](#)

A formulation for artificial placenta was eventually developed and tested in growing pig fetuses. While through the grapevine in the 1960s the Russian Academy of Medical Sciences hinted that they have had remarkable success after many years researching artificial womb. What discoveries the Russians made were never published.

An article published in the New Scientist magazine under the title "The Development of The Perfect" noted that a six-week-old fetus could be transferred to an artificial womb machine and brought to maturity. And that when the technology becomes workable, if required, a fully automated baby-factory producing thousands of babies a day could be constructed.

The science fiction writer Isaac Asimov was very much aware of advanced technologies being developed in secret.

Babies matured to nine months term in artificial wombs are living among the general public and are somewhere in the twenties and forties age range.

Clones & Humans -- The Differences:

The "nature life-force" that permeates all things in the universe is called "Cosmic-electromagnetic life energies". It is this life-force that makes animals, plants, etc. comes to life, and enables planets to beautify themselves with different flora and fauna lifeforms, etc. And the human being has a Spirit-Form that is fused with this life-force. The Spirit-Form is what makes the human being intelligent-life because it has expandable memory storage, rebirth ability, etc. that is on a mission to evolve over millions of years and eventually unite and contribute to the expansion of the Universal Power -- the Creative Energy of all things existing.

To create a **lab-clone** requires a starting point and that is an egg cell to grow the host body. The egg cell (ovum) used for disposable clones are from animals -- e.g. **pigs**, monkeys and other forms of animal life. The human to be cloned, the material (i.e. skin, blood, etc.) to collect the DNA from is processed. The animal egg cell is prepared for **recombinant DNA**. The DNA responsible for body form (organs, features, etc.) in the egg cell is isolated and removed -- the process is known as **enucleated**. The human DNA is inserted and the egg cell is fertilized...with adult body-cells (in vitro [in glass] fertilization -- IVF) with special nutrients added, etc. ...The fertilized hybrid egg cell is then implanted into the animal (female surrogate) to "jump start" the life of the egg/fetus with electromagnetic life energies existing in nature. After some weeks in the animal the sufficiently formed fetus is removed and transferred to an artificial womb where it is further nurtured and accelerated for fast growth to current age over several months. The fast growth time of animals...was studied and catalysts responsible were isolated and reproduced for the cloning process. After the clone reaches maturity it is stored in stasis (**hibernation**) -- a form of induced sleep similar to coma to slow down body functions until the unit is ready for deployment where the finishing is done

Recombinant DNA

in chamber.

Also, another method of the process, in the hybrid clone creation stage, the egg can be modified to grow only the body form with muted facial features where the eyes, nose, mouth, etc. are not fully formed. When the clone is ready for deployment the muted facial features are fully developed after giving the clone an infusion of the person's DNA to bring about complete transformation while inside **chamber equipment**. This method produces clones that are very identical. (In the future, scientists will have figured out how to use the biological nerve interface to merge robotic limbs to humans. These future humans, their DNA will be modified so that they are born without legs and arms. Research is secretly ongoing in this area of science today.)

When a new adult clone is ready for deployment it is brought out of stasis. Awakened it will randomly do hand gestures, stand, make strange sounds, etc. These behaviors are normal as the clone has no memory information to coordinate itself, but once the holographic brain memory of the original mind is downloaded into the clone, it behaves and acts like the original person -- remembering friends, families, general information, etc. The clone is placed in a chamber device connected to inputs where information is transferred into it, etc. Depending on the mission, a few clones of the same person are prepared and in waiting, because sometimes clones are neutralized (i.e. killed or captured) by counter-forces in political scuffles in governments and corporations. The other duplicates not yet deployed are returned to stasis until they are ready for deployment. Before these "in waiting" clones are deployed their memory history is updated.

Remember, even though these man-made creations look human, they are not human, and are animal. The genetic science used to create these artificial humans allow an animal egg to be modified with human DNA similar to someone putting on different costumes impersonating characters. And not all lab-clones are jump-started, i.e. have life breathe into them, using female animal surrogates, because human female surrogates can also be used to jump-start disposable adult clones. (And, just think of how many human female surrogates are kept against their will to keep this type of manufacturing ongoing.)

If the intention is to **clone an extraterrestrial life-form** for "long term" survival, that clone will use a human female egg. The clone will have a Spirit-Form because the egg is human and was jump-started inside a human female. And that clone will start its life from baby and grow normally into an adult. (The stories popularize among UFO groups about hybrid babies in the 1980s, 1990s, etc. were creations done by a private terrestrial group on a mission to prototype a mini-society with its own language, beliefs and culture under the leadership of their creator-overlords [the Gods i.e. the elites] of this hybrid human race living in secret. Where Earth human [i.e. American Caucasian type] looking children are raised together with children that look alien -- and one of the humanoid types look **exactly like the one in this alien photo -- Dulce**. At least two different types were noted: a Grey type, and a Nordic type whose appearance was doll-like. All created by Earth scientists in secret. **I was told by a source from a different group that interfaced for a short time with one of the secret terrestrial groups: that they took all her eggs in her early teen years and in her adult life did not have any desire to have children. This secret terrestrial group had a private human baby production center where all their future members are born.**)

The difference between plants, animals...and a human is that a human person has a Spirit-Form, while the others do not. The Spirit-Form is what gives the human life-form its creative energy, will-force, reincarnation cycles, personality storage, etc., because the Spirit-Form is on a mission through its will-force to be creative and inventive with ideas that influences the personality in living, modifying the experience in its environment, whether positive, neutral or negative. And animal life has memory awareness that is instinctive built into its design for survival and for the beautification of nature. However, with some animals their instinctive scheme is more developed. The "Spirit-Form" is not the "Soul", and the Soul is not the Spirit-Form. As mentioned earlier, the Spirit-Form is a storage mechanism but in pure-energy form and is fused with nature's life-force -- the cosmic electromagnetic energy; while the Soul is developed as the person experiences life. This is what many call the "personality". And the personality gets transferred on a cellular level and becomes Fluidal-Force or cellular memory in the person's physical body. And this is what people see as ghost after someone dies. The Spirit-Form is anchored in the fontanel lobe area between both half's of the human brain and is unique because it is a "spark of energy" existing in fine-matter that is birthed by the Universal Power intricate workings of cosmic regulation and it is on a mission of knowledge-development and cannot be cloned.

Clones that do not have a Spirit-Form: That only applies to human-looking clones generated from animal products - (i.e. egg cell/ovum). That means: The animal DNA responsible for form is removed from the animal egg cell and the human DNA is inserted. That egg cell is then jump-started inside a female animal. And you can have animals with a human Spirit-Form: This would use a human egg cell, with the human DNA removed and the animal DNA inserted; and then that egg cell would be jump-started inside a human female. The nature creation scheme already provides the egg cell with that lifeform type DNA to produce that type of lifeform. **Earth scientists are just deconstructing the creation stage of form/image at the egg cell level** to see if they can trick the egg cell to produce something other than that type of lifeform.

Russia, Britain or the United States does not have the technology to create an "artificial brain" for clone deployment that behaves and functions like a human brain. This technology is thousands of years away from achievement. And an artificial brain is a form of bio-organic consciousness that is capable of development similar to the consciousness of a natural human person. The scientists are the ones that give the artificial brain creative and inventive abilities, and it can be modified to be an individual and/or a collective. This type of bio-organic brain-plasma technology belongs to intelligent races that are well-developed in social collectivity, morality and greater good. Just as how you have different grades in schools, so is the civilization of a planet graded. It is not about "I", "me", "**Goldman Sachs**", "Israel", the "United States", the "white race", etc. as practiced selfishly on the Earth. It is all about the well-being of the "we" to crown the individual I's with knowledge...and to maintain and elevate humanity to the last perfection possible to contribute to the greater good as integration progresses into the eternal scheme.

The Coming Race by Baron Edward Bulwer Lytton -- Vril Race: "It deals with an underground race of advanced beings, masters of Vril energy -- a strange power that can both heal and destroy -- who intend to leave their subterranean existence and conquer the world. But the book has been seen by many as a barely concealed account of Hidden Wisdom, a theory that has attracted many strange bed-fellows, including the French author Louis Jacolliot, the Polish explorer Ferdinand Ossendowsky, and Adolf Hitler." **(Author: The Vril Race [The People of Shambhala] plans to come up to the surface and bring order on the Earth at some future time. Will the United States use nuclear weapons against them? The Vril Race is over 50,000 years old and highly advanced. If the USA considers this race as an aggressor and enemy, it is terribly mistaken. Because the mission of the Vril Race at a near future time is to bring peace among the surface people. The Vril Race and the Hybrid Race do not have the same masters. The correlation between them both is that their motive is similar. The Hybrid Race is a younger ambition copycat idea by the Elites [old wealthy selfish families -- Rothschild, Rockefeller, British Royal Family, Fondi Family Trust, secret societies, etc.] to recreate themselves as a savior race to conquer the surface people.)** [View CLONING PHOTOS Click Here](#)

Man-made Aliens & Body Modifications:

The War of the Worlds radio broadcast authored by H.G. Wells was a stunt orchestrated by the early formation of the American secret service and British intelligence. Wells was coerced by the Americans to adapt his book for a realistic-seeming horror radio play to let loose wild panic, worries and hate about extraterrestrial invaders, but he did not want to be the announcer and suggested Orson Welles for the job. Wells was threatened by the Americans to keep silent and if he did not he would only create problems for himself. After the War of the Worlds saga, anti-extraterrestrial advertisement (also known as "propaganda") continued with contra films about extraterrestrials with financial support from western governments and military powers to inject fear about aliens to coincide with their pending fake alien invasion plan for Earth.

Western governments and military powers started very early to hide their technological accomplishments using bogus stories, where disinformation became credible, while genuine and actual events are debunked and made laughable in public. The United States became the center and leader regarding alien information distribution. All negative alien stories can be traced back to the United States. Information dispersal became more vigorous as the UFO community increased in size, thirsting for

new material and the CIA operatives aware and unaware were there to fill the void. Feeding the public with bogus information getting them ready for the grand fake alien invasion plan. And Hollywood was not far behind with a steady diet of contra alien films. A well known source have said that he was told by Hollywood insiders that they are often visited by CIA people who would give them topics that they would like to see in movie form for the public -- in blockbuster films and television series.

According to a source, a small selection of people in the United States and probably in other countries underwent permanent transformation with the aid of plastic surgery and DNA infusion to appear alien or off-world looking. And that these fake alien individuals were secretly carrying out face to face contacts/meetings pretending (i.e. Travis Walton, Whitley Strieber, etc; and the Carlos Diaz UFO experience was that of a non-American terrestrial group) to be genuine aliens, deceiving selected people among the population. And the man-made alien types that were being prototyped at the Dulce Base their DNA are from actual extraterrestrial dwarf corpses the U.S. elites ([old wealthy families -- Rothschild, Rockefeller, secret societies, etc.] connected to the three branches of government) have in their possession. Also involved are the kidnapping of individuals for programming to make real in their minds interaction with aliens. (The author of this article is not implying that all contact stories are phony, but that a majority of them are likely so, especially those involving bellicose aliens, aliens kidnapping humans for food source, bad reptilians, bad greys, etc.; and there is no truth behind the Draco alien saga. The source revealed that the reptilian looking humanoid specie in the universe is very minuscule and that the stories being reported from the United States are not accurate regarding the truth. The fake alien invasion saga was part of the [Dulce Underground Base Project.](#))

Stealing Knowledge From Man-made Aliens

An individual using the alias "lethceb" (whose avatar was a red background image with the word Bechtel) began posting entries on the [alien-ufos.com forum](#) in the year 2009 about Thomas Castello. Lethceb information was at times very colorful, but in the end disappointing. Some of the questions to the poster "lethceb" for answers: Were they (i.e. the aliens) able to reproduce here on the Earth? Were females at the base? Were alien children at the base? Born on planet Earth? And did they have sex with animals? What do you mean by animal hybrids? And "lethceb" replied: "They could reproduce here, although it is a very artificial process along the lines of cloning. The four alien species were neither male or female. Once a "clone" was produced they instantly looked "adult" although they needed a large amount of mental development similar to what a child needs. ...Hybrids were created "outside the womb" so to speak due to it being impossible for a host to carry a potential hybrid internally. There was no sexual procedure necessary. It is understood that elements from each species were combined (sperm and egg, etc.) in the lab; the creation is monitored until it was at the stage where it could enter an artificial womb (actually a large test tube-like device). The success rate with these "hybrids" was very low (6%). They tend to live for a very short time as breathing difficulties and brain formation issues are common (problems)." Here, "lethceb" is describing creations, i.e. aliens, that are totally manufactured on Earth at secret facilities in the United States, etc. **These aliens are not genuine extraterrestrials, but rather man-made creations using alien DNA retrieved from crashed vehicles; accidental discovery of malfunctioned vehicles, etc; trying to piece together an alien life-form with the intention to steal/gain knowledge from; where they then use/misuse this knowledge to their advantage.** If anyone says that aliens are working with the United States government and that a deal was agreed upon where they can kidnapped people, etc. in exchange for aiding the U.S. with technologies, etc. these claims are all lies. The only genuine aliens that the U.S. is getting advanced technologies from are the dead ones and their crashed vehicles, exploited for military supremacy on the Earth. So what you have are **alien-hybrid clones in the servitude of the financial elites** being publicized as genuine aliens carrying out contacts with Earth people. And since the original aliens are all dead, they get nothing in return for their bodies and equipment being dissected. (In the Billy Meier contact case with genuine extraterrestrials identified as Plejarens..., told him that fake UFO contacts were being orchestrated by earthly secret groups pretending to be extraterrestrials.)

Extraterrestrials Helping The United States:

All the UFO/Alien stories about extraterrestrials working with the US government, transferring technologies and from this collaboration the United States is using this knowledge to update their military. These extraterrestrials, if they are involved in such an undertaking with the US, have no morals when it comes to exploring the cosmic universe.

Put aside all these fantastic stories and contemplate a bit: the constant war situation on the Earth among different power groups and peoples, and knowing this, these extraterrestrials recklessly off-loading their technologies to help the United States are only adding fuel to the fire to hurry Armageddon on planet Earth. It appears that their advanced evolution has destroyed their common sense and intellectual intelligence because they are unable to recognize the problems that Earth people have been enduring for centuries. But, what if all these fantastic stories coming out of the United States about alien collaboration with their government is all made-up for some future agenda?

In the [Billy Meier contact report #115 on October 19, 1978](#): The dialogue starts off with Billy conveying information to Ptaah about a US secret service agent contacting him about the Russians receiving new and mysterious weapons from extraterrestrial intelligences, and have gained advantages over the United States as well in space travel technology. And was asking Billy to relay a message to his extraterrestrial friends, the Plejarens, if they could give technical assistance to the United States regarding technologies. Ptaah replied that he looked into the matter about extraterrestrials helping the Russians and found that it was untrue; and that Russia developed their technologies on their own. And have also looked into the matter regarding extraterrestrials helping the United States and found no such evidence. And noted that all the previous inventions of the United States and Russia of all kinds is a result of normal progress and are the work of their earthly scientists. And like all other earthly scientists they receive impulses (i.e. thought transference they regard as their own) that do not allow them go overboard (i.e. progress too fast before showing responsibility for the greater good -- the cohesion of humanity). Ptaah noted that the request by the US secret service agent for the Plejarens to help the Americans is possible if it was required, but that it would be in the assistance of behavior patterns (i.e. peace and harmony conduct) and not technological plans.

The Roswell Crash, and UFOs Manufactured On Earth:

I was informed by a longtime source that the Roswell crash in July 1947 did happen and that there were bodies in the crashed vehicle. He said that this was around the time of the beginning of the Cold War with the Soviet Union and that the United States did not trust the Russians or the Chinese as far as sharing information (i.e. samples, etc.) from the crashed vehicle. And that the United States at the time was paranoid because they did not want the Soviets or the Chinese, if they were to share information about the alien bodies and vehicle, that they were concerned that scientists from these countries might discover information and refuse to share it with the United States. And if this was to happen it would give the Russians advanced knowledge not yet discovered by the United States, and so the Roswell crash artifacts were kept from them.

The Billy Meier extraterrestrial friends, the Plejarens, told him that the Roswell crash was a planned incident, but that they were not involved. The reason was to seed new technology by introducing a foreign artifact on the Earth. The artifact was meant to be shared but that never happened because the United

States selfishly confined everything to their research scientists.

Although the Russians were unable to participate in dissecting the US Roswell treasure, they were manufacturing semi-anti-gravity crafts that were orb-shaped by the late 1950s. These crafts became true anti-gravity vehicles with plasma illumination by 1978 and were armed with well-developed beam weapons, and their normal travel speed is mach 11.7 and when necessary can go faster. And in 1981 prototype cylinder motherships capable of mach 25 speed were introduced to service the orb vehicles with fuel, repairs, food, crew rotation, etc. The cylinder motherships are also used to deploy and retrieve satellites and transport 50 tons of cargo. And a small fleet of the orb vehicles were outfitted exclusively for passenger transport of officials.

Meanwhile, the United States gifted with the Roswell treasure was struggling to understand gravity forces and by the 1970s had a prototype of a triangle craft that was not anti-gravity, but used a center piece mechanism to reduce the bulk of the craft's weight where the craft's body was then pushed with special rockets to mimic repulse force, with a speed of mach 9 under 23 miles altitude and above that travels a little faster. The craft initially had problems but some issues were resolved where the craft became more workable into the 1980s. The technology behind this craft came out of a secret branch of the "Stealth Program". The project did extensive research in superconductivity using magnets which were cooled and mercury heated. Traditional aircrafts like the F-117 and B-2 spun-off from the project using exotic technologies such as supercooled magnets, paint coating made from special pigments, etc.; and the triangle craft using skin tiles made from unique crystals, etc. (Kenneth Arnold sighting in 1947: These were secret U.S. test flights of one-winged aircrafts. These crafts were influenced from captured Nazi technology related to the Horten project and flying discs. These one-winged aircrafts used exotic jet engines for thrust in the second phase of their flight testing that began in 1947. The hybrid triangular prototype craft then followed many years after.)

(NOTE: A large percentage of the triangle crafts sighted do not belong to the United States secret group. These crafts have no invisibility function and are made from a very hard metal, and they belong to a foreign group that has been coming to the Earth for centuries and consists of four squadrons. Their technology is still underdeveloped (but more advanced than the Earth people's secret technologies by 100 to 300 years) and their propulsion system appears to have been gifted. They are here as observers, but have tried to interfere a few times with not much success; carefully patrolling over regions of the Earth: in the western continental area of Antarctica over Tierra del Fuego and all the Americas with various islands up to Alaska and to the Arctic. And they also move entirely in Europe (and the Belgium craft was one of theirs; the craft developed a minor malfunction but was able to recover and continue on its journey), Africa and all islands, and also Greenland, Eurasia, Arabia, Madagascar and the Arctic, as well as various other islands. And moves entirely in Asia and Oceania and all their islands, as well as Australia, Tasmania, New Zealand and in a part of Antarctica.)

Sightings of Strange Creatures & Animals:

Another interesting phenomenon is the sightings of strange creatures and animals, etc., one being the Chupacabra. And given the pattern, it is safe to assume that it is a man-made creation originated from a secret laboratory involved in genetic hybrid research in the United States. The animal was probably released into the open to monitor public reaction -- hysteria, fear, etc. so that adjustments can be made before the actual alien invasion plan is implemented. [Photo 12](#)

Instant Facial Expression Reshape:

I was informed by source long ago that the CIA was involved in self-activated Facial Reshaping technique. The procedure uses an **electrical muscle stimulation (EMS) device** with an electrode-dotted-mask touching the muscles of the face, etc. When the stimulation device is activated the person's facial muscles contracts and relaxes over the timed cycle set into the machine. The procedure, facial muscle retraining, when the sessions are completed allows the person to self-express at will a different facial muscle configuration and hold it for short periods of time to trick visual surveillance. The intelligence agencies use individuals who have had this procedure done to do undercover work that requires a person to enter a facility as a different person (face reshaped and clothing) and leave as another person (face muscles relaxed and clothing changed). The technology is publicly used for beauty treatments of the face and body; strength training and exercise for athletes; and as a tool for rehabilitation therapy.

The Alien Invasion Agenda:

The Rockefellers, the Rothschilds and other involved elites are planning with the intention of controlling the pending alien invasion agenda in a very tricky way using operatives in the military and government, assisted by mind-control; individuals who have had their bodies modified to appear alien-looking and low level actors fitted with alien-looking costumes. The Rockefellers are behind the grey alien hysteria being popularized in the United States, while the Rothschilds are plotting the reptilian alien sensation, and both alien types are being programmed into the public's psyche through various UFO outlets -- contacts, books, conferences, etc. The agenda started to gain popularity after the 1970s when factions of the elites made advances in areas of science that are still being kept secret from the public.

The CIA began instructing Hollywood to produce terrifying alien movies to help condition the public and also generate profit. And since the movies are passed off as science-fiction the viewers readily open their minds to absorb the information. When the movies are discussed in public the participants reassure each other that luckily it is all make believe and that they do not have to worry. But the CIA and others behind the operation would say, not yet. Many of these alien movies are causing

cynicism to develop among the population, but if the elites are allowed to play their alien invasion agenda in reality, the public will surely undergo psychological breakdown, because science-fiction and reality will overlay each other, with the masses accessing movie scenes in memory and blending those storyline with reality creating all sorts of what if scenarios which could result in terrifying reactions. The pending invasion would be many times more grandiose than the United States September 11, 2001 terrorist plot. The Dulce Base project was helping to prototype the alien invasion plan, but some years ago the alien invasion plan was canceled. And the endgame crisis narratives that are to decide and shape the future of Earth's humankind will be "Terrorism" and, "Asteroid and Meteor" news events over many years to come until 2050 AD. But the asteroid and meteor events will linger for decades and centuries to come until the end.

(UPDATE: The plan was canceled: By the year 2000 all the necessary technologies were now in place *to create a fake alien invasion* scenario without the public ever suspecting, because the population has been kept in the dark regarding how advanced certain technologies [hologram, electromagnetic propulsion, beam weapon, body transformation, etc.] have progressed.) [Photo 13](#)

The reptile/grey aliens have been a longtime fixture among the defunct group the Illuminati. This information they received centuries ago using trans-mediums, individuals with psychic abilities, who went into trance hoping to make contact with off-world intelligence. Among the ruling elites, reptile/grey aliens discussion is normal dialogue and literature handed down from the Illuminati secret society. They believe that these reptile aliens came to Earth from a particular constellation and seeded humans from apes and will one day return. And that the Earth humans would also one day duplicate the same pattern of creating human lifeforms similar to the off-world reptile aliens ancient activity. (Hint: The hybrid race-types that are being created in secret on the Earth using genetic science and cloning.) Even though the Illuminati group later became obsolete, some members affiliated continued with trans-medium contacts to the present day.

Science Fiction:

The realm of science fiction is a conduit for the society to experience future possibilities without the associated trauma of reality. While many in the movie audience will go away laughing and enjoying themselves a few will wonder if there is a message behind the movie they saw. Often when you see something from Hollywood it is to prepare you for eventual reality.

The public awareness of many things in science and technology is approximately 50 to 100 years behind what is going on in secret, and movies are the public's only means of experiencing happenings still being kept top secret, but obviously in a make-believe environment.

The general public is programmed from birth to think and behave within confined paradigms. The ones who will have to leap out of those confinements are

those in the sciences, for their minds will wonder off into different ways of doing things. And those different ways after becoming workable are fed to the general public in time-release stages.

Many science fiction writers of yesterday and today are becoming prophets of tomorrow.

A List Of Science Fiction Movies Produced By Hollywood Over The Years

6th Day (2000):

The movie "6th Day" is about human cloning being done in secret by a company hiding behind pet cloning. (Author: This is one of the best produced Hollywood movies so far, because you are able to see the final clone ready process: the clone host bodies in storage, the transformation process while the body is in the **chamber equipment** and the mind programming procedure (using monochromatic light). This is the cloning process that was funded by the Rothschilds. The only part that was not shown in the movie is the growing of the human host bodies, which is done in a unique aquatic-like environment.) [Photo 15](#)

James Bond: Die Another Day (2002):

The movie "Die Another Day" is partly about human identity reassignment using DNA infusion therapy being done in secret on an island off the coast of Cuba. (Author: In reality, a similar process is used in secret to create lab-doubles.) [Photo 17](#)

The Fly (1986):

The movie is about a scientist who overrides his human DNA with fly genes to incite body transformation inside transfer chamber.

The Island (2005):

The "Island" tells a story about human clones that are grown at a rate slightly faster than regular humans, and are kept in captivity on an island until their host bodies or body parts are needed, where after they're unpacked and deployed. (Author: According to one source, something similar is going on in secret. The source said that clones are being manufactured whose minds have been modified to have them fight like robots to the death. And that these clones would not be used for open battle until World War III erupts.) The website **Wired.com** published an article about experiments being done in the United States using drugs and other techniques that make soldiers want to fight. [Photo 14](#)

Invasion Of The Body Snatchers (1956):

The movie plot is set around an investigation being done by a small-town doctor about people in his community being kidnapped by aliens and replaced with emotionless duplicates. (Author: This somewhat sums up the harvesting scenario for lab-doubles by earthly secret groups, but they are not zombie duplicates as the movie depicts, but rather people who have undergone form-feature reassignment, changing their physical identity to that of someone else.) WW3 Alien Invasion Scenarios -- (The War of the Worlds by H. G. Wells):

The documentary looks at mankind's fascination about the possibility of life on Mars and the fear of an alien invasion -- starting with the 1896 book "The War of the Worlds by H. G. Wells", to the 1938 radio broadcast by Orson Welles that caused millions to panic and to what spawned a little-known scare about alien invasion in upstate New York in 1968.

Lazarus Effect (2015):

The movie is about a group of research scientists achieving the unimaginable - *bringing the dead back to life*. After a successful trial on a deceased animal the scientists unveiled their breakthrough. (Author: **Bringing the dead back to life has been going on in secret since the 1960s and there are a few techniques to do so. There are rumors about long dead Egyptian Pharaohs being cloned, as well as long dead bible characters. And one of the characters is said to be Moses [who was murdered by Joshua and his associates] buried in Moab, but his grave has not been officially found. And it is said by some believers that the bible God took Moses into heaven, so his body is not on Earth for DNA retrieval for cloning.**)

Submerged (2005) Steven Seagal -- (Mind Programming):

The movie plot is about terrorist elements that have infiltrated the government of Uruguay in South America. The terrorist elements are operated by corporations and are used to manipulate the government. The president and his fiancé, etc. are secretly picked up and transported to a mind programming facility to undergo **mind control overlays** (using a device that generates monochromatic light). When the session is completed they are secretly brought back to their locations. And when the time comes their mind control overlay is activated to do things that are in the interest of the corporation. (Author: I was told about mind control being done before I stumbled upon the movie. I often tuned my television of the Sci-Fi channel. And one day, some years ago, the movie Submerged was airing and I was just in time, about 53 minutes into the movie, to see the scene showing **mind programming**. Immediately some of the information the source told me about was similar to the scene in the movie. I was told this in summary: The old way to fracture the mind was to use torture to induce disorientation. [Like what is being done at the U.S. Guantanamo Bay facility, etc.] The men were anally raped repeatedly as were the females both anus and/or vagina. [I met a female that this was done to. Review back to the Iraqi war news and the **U.S. military men having anal sex with Iraqi males at Abu Ghraib prison Baghdad**. Also, other forms of shock methods are used.] The abusive contact is repeated until the person faints -- a form of induced collapse from trauma. That was the old way said the source, but that a drug was developed to achieve the same results, and that some of the facilities [in Lebanon where Yasser Arafat underwent sessions; North Korea, etc.] however still used physical torture methods. But the movie Submerged shows the updated method of the doctor using truth serum drug that was tested by the Nazis to induce collapse of the mind -- unconsciousness. [In the news about terrorism, note that some of the **males from Guantanamo Bay** are in the ISIS group that the U.S., Britain and their allies are fighting. When you hear news reports talking about "**Torture Sites/Black Sites**", rephrase it to "Mind Programming sites". And then ask yourself: what are they programming these individuals to do?] An overlay memory can be inserted in minutes, but to remove it can take months or years depending on how deep was the mind programming overlay. An example of an individual who has been programmed is "**Jihadi John**" of ISIS whose real name is Mohammed Emwazi.) [Photo 7](#)

THOMAS CASTELLO declaration about the Dulce Base; an excerpt:

The man-made "...alien **scientists re-program the human brain and plant false information**. ...When the person awakes, he 'recalls' the false

information as information he gained through life experience. There is no way for a person to learn the truth. The human mind 'remembers' and believes completely the false data. If you attempt to inform them, they would laugh or get angry. They NEVER believe the truth. Their mind always forgets the experience of re-programming. ...If you were 'lucky', you would be re-programmed and become one of the countless spies for the Ruling Caste. Question: How are the human workers stopped from telling everything about Dulce? Answer: Implants, fear threats to harm the families, EM control, also reprogramming with ELF (Extremely Low Frequency) and drugs are the most common methods....".

Cloning Human Organs:

Cloning human organs has been in the news publicly since the year 2000, but the knowledge on how to grow them has been in serious development since the 1960s.

A cursory back track, before cloning organs, surgeons were tinkering with organ transplant using primates in the 1930s. However, in 1837 a corneal allograft transplant was done using a gazelle; and in 1905 the first successful human corneal transplant was done at the Olomouc Eye Clinic by Eduard Zirm in the Czech Republic.

Into the 1970s organ transplant progressed, but the issue was the rejection of the donor organ. Scientists were put to the task of finding a serum to block the donor organ from being rejected in the recipient. One of my sources noted that by 1977 news surfaced that such a serum, an antigen, was produced from special animal substances found in fetus using recombinant DNA technology. The self-building substances of cells in the serum, bonds with the recipient's body cells so that the donor organ is accepted. Much testing was done secretly and it was now time to put the discovery into public practice, said the source. And terrestrial scientists were encouraged to start implementing the discovery to save lives by an extraterrestrial group that was monitoring the development on the Earth and noted that the time was now mature to bring the technology to the people.

Organ transplant is often rejected for the recipient's body is unable to integrate the organ foreign substances because the recipient's immune system is in defense mode, and that's why the self-building substances of cells in the serum are needed for cellular fusion. Also, a donor human organ carries what is called "Fluidal Forces", known as "Cellular Memories", and can be harmful in the long run as it can influence the carrier of the transplant positively or negatively according to the strength of the Fluidal Forces in the organ. This is where the donor organ transfers memories into the recipient's body.

After human clones were being secretly deployed in the late 1970s, into the 1980s research was well underway to clone human organs. The exploration was to find the biological seed capable of growing organs. Undifferentiated biological cells are called **Stem Cells**, and are found in the inner cells of the blastocyst -- a 3- to 5-day embryo. The inner cells generate the entire body of the organism, including all of the many specialized cell types and organs -- such as the kidney, heart, lungs and other tissues. But also Stem Cells can be derived from a person's blood, skin, etc. Once the Stem Cells are developed into expressing key markers, i.e. early cells that forms the kidney, a "seed" is created. That seed is then cultivated further and implanted into an aquatic animal -- i.e. stingray and other fish species. The small fishes are used to host small cloned organs such as the kidney, **heart**, finger, hand, ear, etc. While the larger fishes are used to host large body parts for example a complete leg, a complete arm, etc. The aquatic animals are used because of the fluid environment they live in to float the body organ appendage around so that it does not distort in shape while growing. (Stem Cells technology is the future of medicine and many diseases like diabetes, cancer and aging related ailments like arthritis will be cured allowing individuals to live healthily into very old age. **Today, Stem Cell rejuvenation therapy for the human body is being done at private clinics** around

the world, but only the hierarchy elites have access to the full-strength of the therapy. For the rejuvenation process, blood is taken from the patient and the Stem Cells are separated. The patient's own Stem Cells are then supercharged with younger stem cells and transfer back into the body. A few hours after the procedure, the patient's body begins to repair itself.)

When a request is given to supply the needed organ, the aquatic animal is seeded to grow the organ, microchipped and put into a tank made from special stainless metal, filled with liquid made from minerals and other nutrients and the liquid is more concentrated than sea water. The seeded aquatic animals swim around the tank with their human body part appendages. At the end of the gestation period, the aquatic animal is tracked using the implanted microchip and retrieved from the tank. The organ that was seeded is now developed and is removed. The animal is not eliminated, but is reseeded again and the process starts all over. The organ removed is transplanted in the recipient and the incision is sealed with a laser-like device that rapidly heals the cut area without scarring. The quickly and newly formed skin is said to be lighter in color, but that the normal skin color returns over time.

Organs cloned are better suited because they are synchronized to assimilate in the recipient's body and there is no problem of Cellular Memories crossing over.

Despite the experimental progression stories that the news media gives about cloned organ research as being many years away, secretly, this is not the truth, because already human organ farming is being done privately for the hierarchy elites. (And lower ranking subservient elites who do not have access to this technology have people framed in murders where they are killed for their organs. One such case, according to a rumor, was the Craigslist killer Philip Markoff who murdered several females many years ago. He went to prison and eventually committed suicide. And the hierarchy elites who are always reiterating their humility service to humanity, they are all a bunch of hypocrites and very selfish to the core. Because all the countries where wars rage and countries that are overpopulated, the Western countries are deeply involved in organ trafficking. For example, in Pakistan...a percentage of individuals in the population have only one kidney, because the other kidney was sold to clients in the West for money.)

Some cloned organs, the science of growing them, are not yet perfected in terms of durability. The fragile fusion (i.e. seeding and growing) of the process is not yet able to implement correctly the longevity strength on a cellular level in the cloned organ matrix. As a result, for example, a recipient can have a few heart transplants during their normal lifespan. But research continues to try and resolve the longevity mechanism issue. Refer to the science-fiction movie **The Island**.

US Government & Extraterrestrial Materials

Published By TBFWs (The Battle For World Supremacy)
February 20, 2015

Where are the secret groups in the United States getting their extraterrestrial materials from if they are cloning them?

The United States of America is unofficially ruled by several forms of governments. And it is not ruled according how the people are told officially. The US government is organized as follows: (#3) the Presidential government (i.e. The Obama Administration, Congress, etc.); then (#2) the Pentagon government; and lastly (#1) the CIA government. They all officially belong together, but each one works for themselves at their most secret levels; and at that innermost level they each form a government onto themselves. I was told that there are people in the upper tier of the CIA government that the official Presidential government is unaware of.

The Presidential government has several kinds of materials of extraterrestrial origin -- dead bodies of dwarf beings (and possibly the Boyd Bushmans case showed one of the aliens in statue form) and destroyed space crafts that are non-functioning. The alien materials collected over the many decades came from mysterious crashes, archaeological excavations, accidental discoveries, etc. and this all started back in the 1920s. The Pentagon government has no dead bodies of extraterrestrial origin. All the hierarchy elites (old wealthy families -- Rockefeller, Rothschild, secret societies, etc.) with clearance have access to see or use bits of the alien artifacts stored with the US Presidential government. **(In Texas there are a few secret bases that are managed privately and are operated by terrestrials and not by aliens as some believe.)** The extraterrestrial DNA materials from these dead bodies are used in cloning -- recreating living bodies that look extraterrestrial. These man-made alien lifeforms are jump started using Earth human female eggs. Using recombinant DNA technique, the egg is strip of the DNA that creates the body of the human being and replaced with the dwarf extraterrestrial DNA that creates that particular body form. The height of these dwarf extraterrestrials are under 5-feet in height.

When holographic brain recording was made workable, the terrestrial scientists tried to download the minds from long dead alien bodies, but failed. These aliens came from crashed spacecraft recovered, where some was found alive and some dead. At the time of the crash-recovery the US did not have brain recording technology. The dead alien bodies were put in cold storage. (The possibility exists that a recording can be made from a body that was frozen for thousands of years if such a specimen was found in good condition and the body was handled properly. And besides copying/transplanting knowledge from the brain electronically, the brain's knowledge can also be copied using a medical procedure. Research was done by Kaiser Aluminum & Chemical Corporation in the 1960s where a biopsy of the brain tissue was taken, processed and transplanted into a recipient's brain. And over time the memories from the donor tissue was integrated into the recipient.) They had a chance to download two minds from not so long dead dwarf alien bodies from an emergency landing in South America in 1976, but I doubt it was successful. These aliens were human looking and the Boyd Bushmans case may have shown one of them. They did not breathe oxygen and had to move around the Earth using air breathing apparatus breathing the air of their home planet in a distant galaxy. The Nazis found them and the ship. The ship's interstellar propulsion was damaged from sabotage and only the planetary anti-gravity propulsion was fully functional. The old Nazis used the craft for a short while before it was taken from them and destroyed.

THOMAS CASTELLO declaration about the Dulce Base; an excerpt:

Question: "**Could you shed some light on the type of human** the aliens (also known as man-made Earth aliens) are looking for when they abduct?"

Answer: "I can tell you that the **most common are petite women** in their early twenties or early thirties, **dark haired boys between five to nine, small to medium size men** in their mid-twenties to mid-forties. But, let me stress that there are ALL TYPES of people being held against their will in the Dulce Base! There are tall heavy men and women, teenagers, elderly folks and very young girls in the cages AND the vats. I only mention the most common age-size are the **small young men and petite women**. The boys (**i.e. for lab-doubles**) are favored because at that age their bodies are rapidly growing, and their atomic (**i.e. DNA**) material is adaptable in the **transfer chamber**. The young small women are frequently very fertile. The men are used for sperm. I have no idea why they prefer small to average size men." (Editor: **One of the reasons for the shorter stature selection of males and females from the Earth's population is to match height and growth proportions with the dwarf extraterrestrial DNA. And one of the reasons for disproportionate limbs, etc. in dwarfism on the Earth is from the actual mating of short and tall stature extraterrestrials, where over time the DNA for height and body proportions, etc. in the descendants became mutated.**) To see  photo montage of the Dulce Base, click: [See Dulce Photos](#)

Putin Discusses Possibility Of Mammoth Cloning With Scientists:

RIA NOVOSTI - February 25, 2015 - "Russian President Vladimir Putin discussed...the possibility of cloning a woolly mammoth with the scientists from the Lazarev Mammoth Museum, part of the Northeastern Federal University. This museum is the only one of its kind in the world: with a collection that includes some of the most recently excavated and unique ancient animals. The head of the museum, Semyon Grigoriev, told the head of state that in the last 4 years they had managed to collect more than 4,000 exhibits. One of them is the a 12,500 years old mummy of a dog, the only one in the world, according to Grigoriev. The main treasure of the museum is the so-called Malolyahovsky mammoth, which is virtually intact, after being preserved for 28,000 years under the Siberian ice. Even its soft tissue and liquid blood remain. **President Putin asked whether the scientists possessed materials to clone the animal.** "Soft tissues are preserved," said the president. - **So, can it be cloned?**" The museum staff explained that **they are working in close co-operation with South Korean scientists in order to achieve this**. As for the prospects of cloning, the students told Putin that there is a complete cell's worth of mammoth DNA. The blood sample is kept in a specialized freezer at -17°C (1.4°F). Cloning prehistoric animals has interested scientists for a long time, but the results are still hard to predict." [Link: Article](#)

INDEPENDENT.CO.UK - April 14, 2015 - "There is no shortage of woolly mammoth tissue, some of it remarkably well preserved in the permafrost of Siberia and some scientists are confident that they can extract its DNA to bring the species back to life, either as clones or as a kind of mammoth-elephant hybrid. ...Scientists in South Korea and Russia are collaborating on a project to clone a woolly mammoth **by extracting a cell nucleus from frozen mammoth tissue and inserting its entire genetic material into the enucleated (i.e. removing the original genetic nucleus which is the central and most important part forming the basis for activity and growth) egg cell (i.e. ovum) of an Asian elephant**, which would also act as a surrogate mother. It's the same basic cloning technique that led to the birth of Dolly the cloned sheep in 1996, except this time two species are involved rather than one -- and one of them has been extinct for thousands of years. ...For a start, finding a good enough mammoth cell nucleus in preserved tissue is a tall order. **Getting it to spark into life** as a cloned embryo developing from the egg of another species is even more problematic -- and that's before the difficulties of pregnancy and birth. ...**Another de-extinction approach is to cut and paste large fragments of mammoth DNA into the chromosomes of an Asian elephant, thereby creating a genetically-engineered mammoth-elephant "hybrid".**" [Link: Article](#)

Men In Black, Mars & Anti-Matter Weapon

MIBs: The real Men In Black originated from Sirius. They came to Earth thousands of years ago and were one of the groups interfering with the surface people besides the now defunct Aryan extraterrestrials who were living under the Egyptian pyramids. The MIBs had high technology weapons, shielding and space crafts, and could break into pretty much any existing structure on the Earth's surface if they wanted to.

Through the real MIBs, two factions spun off, a faction of MIBs in the United States secret government, and a faction of MIBs working through the Nazis. These two factions of MIBs were considered low-level MIBs. They acted as assassins, with vehicles appearing and disappearing out of nowhere. Once the real MIBs were captured, so far nothing has been heard from the low-level MIB groups.

With help from an extraterrestrial group the real MIBs were tracked down. This assistance was needed because the MIBs were encrypting their flight coordinates and it could not be easily decoded to discern their real location. The flight coordinates were eventually decoded in real time and the MIBs were tracked coming and going from their base location on Mars. Their home planet in Sirius was contacted and a security team arrived and, with the assistance of other extraterrestrial groups, all the MIBs were captured and their well fortified underground bases on Mars destroyed. The MIBs saga came to an end in the year 2006. They were taken back to Sirius for debriefing and sentence. Members of the captured group were of very old age and not large in numbers.

Anti-Matter Propulsion and Weapon: The United States (or Russia) does not possess the capability to manufacture anti-matter energy for space propulsion or weapon. The only thing I can conclude is that what they are calling anti-matter, that it is kept in a special container, is not the true-form of anti-matter, but rather something else. **(The 'anti-matter' that Jo Ann Richards is talking about is a form of "radiation particles" that is found in the Van Allen belt. This form of radiation particles can be vacuumed and stored in special containers. Future possibilities are being talked about regarding the mining of anti-matter for usage in space propulsion. This type of radiation can also be used to enhance bombs. LINK: [Listen to LaRouche Basement team. Anti-Matter dialogue starts at 17:16 minutes into the video.](#))**

When a real anti-matter weapon is fired at anything that is matter, it disappears. How can something that powerful be kept in a tank? To construct anti-matter technology, one needs to master the "seven-fold synthesis of matter" to gain an understanding of the planes that comes into being during transmutation into the mastery of Anti-Matter technology. The highly developed Earth nations only understand 2.5-levels so far. The CERN (LHC) project is about finding the last undiscovered particle in the universe, the Higgs Boson, they say, but the truth is the project is trying to understand the process of Anti-Matter.

The Russians have also launched a collider project of their own in Moscow based on local technologies, and their goal is far different from that of the CERN project. The Russian scientists are pursuing to understand the intermediate state right after atoms collide and before smaller particles are formed. The Russian project is to investigate and understand the "transmutation process" of the atom after colliding. This will at some point in the far future lead the Russians to have a better understanding of the "seven-fold synthesis of matter", which some referred to as the so-called GOD particle, but it is the true path to "anti-matter energy" technology.

The Unified Earth Order that comes about sometime around 2800 A.D. will eventually develop an anti-matter weapon, but not technology for anti-matter propulsion -- that will come later. Our space propulsion then will be based on plasma/light radiation.

Before I was told this bit of information I had always wondered about the Nazi offspring from these escaped men, because I was under the impression that they also took German females with them. If they did however, these females probably lived among the general population in South America.

After WWII, a large contingent of Nazi men (over 2000 in number) fled Germany to a secret underground location in South America and Antarctica. No women were allowed into the base. And the reason I was given was that it was done to prevent quarrel among the men and that they did not trust females. That in general females were entrapping -- luring, cunning, etc. and would over time create tension between the men and distract them from their mission. There was also fear that females could easily cause blackmail. And if procreation was allowed on the base it would bring with it distractions and divisions with the raising of children and all that the duty necessitates. And bringing offspring into the group would require programming about ways of doing things, etc. and at some point the goals of the Nazi could be disrupted. The group was not setup with a

mini government in mind. The hierarchy was simple and it was on a mission, because the Nazis believed that they were going to rise again to power. The Nazis did not fail because they did not procreate. They failed because off-planetary forces and a powerful extraterrestrial faction still hiding on the Earth got involved and hampered their lifelong dream.

The large contingent of Nazi men lived in secret, worked together and became lovers of each other in order to keep a tight lid on the Nazi seclusion from the surface world. Because they were not allowed to procreate, the men over time died out, mostly of old age, many lived past 90 years old. And these old men were very alert and strong for their age. After the late 1990s dawned they all died out. I do not know what happened to their underground base and the technologies they had in their possession. But one of two things could have occurred; the base and equipments were destroyed or was given to a well intentioned group. **(UPDATE: The Nazi base was replenished by the late 1990s with young men of German ancestry in their late twenties/early thirties who were trained in science related professions of which many were engineers. Today they continue to improve Nazi technologies and fly their earthbound space ships. They have no interest to seek surface power and are reclusive because they keep to**

themselves). Also keep in mind that much of the surface groups technologies were advancing beyond what the Nazis had accomplished. So the Nazis were becoming irrelevant.

The Nazis were also running an undercover spy-conduit in Germany after WWII. The spies were informers and troublemakers, and were used to give warnings to certain people not in alignment with Nazi plans and if those warnings were ineffective, the Nazis in Brazil would be contacted to finish the job. The members of the spy-conduit were constantly under the influence with mind-altering electronics to control them negatively.

The Nazi group in Brazil had established contact with an off-planet alien race consisted of two grey males for a short time until the aliens were removed, because they were assisting the Nazis in troublemaking. The group who removed the original fathers of the Illuminati (see below) said that after some deliberation they decided to let the Nazis escape, because they did not pose a threat anymore and that they were not bad people. That they just think differently (regarding the movement that was going on, which was later hindered) and that the seeds the Nazi group had planted regarding high technologies would make others curious, and that this would eventually lead to a revolution that the controlling elites [old wealthy families -- Rothschild, Rockefeller, British Royal Family, Fondi Family Trust, secret societies, etc.] could not stop and that it was just only a matter of waiting it out.

At the South America base they continued to test their disc crafts and other technologies. And also had found some extraterrestrial equipment, one being an interplanetary spaceship, but its deep-space hyperdrive was nonfunctional, and only the planetary gravitic propulsion was working. The Nazis figured out the flight controls and were able to use the craft for a short time before it was taken from them and destroyed.

They were also in contact with the last colonization of extraterrestrials that did the Eve and Adam procreation. (Where an Earth human female was captured and tamed to become surrogate. And from natural sex and genetic science, a female was created, and after some tweaking and monitoring the scientist created a male. And later both coupled and produced offspring. This act was done by "three different scientists" [i.e. Semjasa, Asasel and Sartael], creating "three different lineages" [i.e. Adam -- a segment of the white race; Ledon -- a segment of the dark race and Tet-el -- a segment of the red race], which added to the then existing Earth human races. Also remember that the fetus is always female first, and if the genetic coding is in the DNA to change the sex, the transformation begins to that of a male.) It was these extraterrestrials residing under the pyramids of Egypt who originally influenced the Illuminati surface group, starting with the Vatican. It was this group who had the many popular religions corrupted. They also appeared before many popes and carried out apparitions at Fatima, Zeitoun, etc. to reinforce the Roman Catholic religion. These extraterrestrials were hoping that one day they could come up to the surface and rule, and the Vatican was facilitating that eventuality. But things changed and the extraterrestrial group was removed in the late 1970s to stop interference with the surface people.

Into the 1970s a faction of the Nazis that had fled to the polar (Antarctica) region still existed there. The crafts piloted by them were bell/mushroom shaped using electric propulsion for air travel. And since these crafts were not very large they could only carry a few people. The crafts, at the time, were not very reliable for long flights because their energy storage cells deplete quickly. When that happens the craft has to land, recharge its storage cells and take off again until it reaches its destination. And because of this limitation the crafts did not journey very far

from their base in the early years, but technical problems were later solved. The Nazis who settled in the polar region were also dying out and if by chance anyone came in contact with them, they would be kidnapped.

As World War II ended with the Nazis inner circle having escaped; they continued with plans to fulfill their eventual aim of a great Germany. By 1955 George Adamski published the book "Inside The Spaceships" where he wrote about contact with extraterrestrials from Venus. (The Adamski saga started when he came in contact with an American woman who had met people [from a secret terrestrial group] showing her spaceships and she was given a tour inside one of the ships. These people [of secret terrestrial origin] told her that they came from the planet Venus. The lady did not want to come forward about the contact because she did not want to be ridiculed. Adamski later met the lady and took information and drawings from her and became the transplant contactee who has never met the people that the lady came in contact with. Adamski then perfect the drawings and add to her story and published the material claiming to be in contact with extraterrestrials from the planet Venus. Adamski's business partner **Carol A. Honey, a trained Hypnotist**, revealed that George Adamski had been hypnotized. **And Asket from the Billy Meier contacts noted that information was implanted in Adamski's mind.** It was rumored that Adamski signed a confession note on his deathbed saying that he was not in contact with extraterrestrials from Venus. This evidence at the time was in the possession of a friend and so far has not been released to the public.)

By 1958 a male individual appeared in German UFO circles named Karl Michalek. He was traced back to South America. In Germany, Louis Emrich published a newspaper called "NEUES EUROPA" or in English "New Europe" in which Michalek wrote articles claiming that he was in positive contact with the governmental heads of the planet Venus. And that the intelligent being he was in contact with was named "ASE".

In the publication Michalek made threats to the Soviet Union, giving an ultimatum to Premier Nikita Khrushchev on March 12, 1960: that if he did not withdraw Russian weapons of mass destruction directed at other countries, that there would be severe measures from the Venus spacefleet, invading the Soviet Union to destroy the weapons. (And today we have NATO and the United States giving similar threats.)

Michalek said he was chosen to become the president of the coming nation -- a uniting World Republic (known today as the One World Order) of the Earth; merging together the regions of Europe, America, Africa and Asia. (Germany was to take the leadership position to form this union. The dominos started to fall with the dismantling of the Berlin Wall, the collapse of the Soviet Union and the disintegration of Yugoslavia. And emerging was a little known organization that started between 1951 and 1958 called European Coal and Steel Community (ECSC) and the European Economic Community (EEC), known today as the European Union of which Germany is the leader country dictating to member countries. The dame in the script is rather interesting because rumors have emerged claiming that Chancellor Angela Merkel is the daughter of Adolf Hitler, made possible using artificial insemination in East Germany.) And in line with what is going on, it so appears that the One World Order goal is to subdue the former Soviet Union countries. This intention is echoed by Henry Kissinger, Zbigniew Brzezinski, the goal of NATO, the United States, England and Europe. And Angela Merkel is being ordered by the ruling elites (old wealthy families -- Rockefeller, Rothschild, secret societies, etc.) to start a world war in Europe against

Russia.

The elites are now interfering with the food supply resulting in the younger population showing signs of aging disorders. The planet is overpopulated, and the problem will get worse when old industries are mechanized and there is no longer high demand for manual labor. And severe measures will have to be put in place to lessen the birthrate worldwide. Rampant procreation in a mechanized new world will only lead to more problems. When a civilization advances into high technologies, primitive thinking must also be upgraded to match advances.

In regards to the Nazis, unlike many who are misinformed, the problem is not homosexuals. It has its place in society. The elites [old wealthy families -- Rothschild, Rockefeller, British Royal Family, Fondi, Kaiser, Soros, Warren Buffett, Koch Brothers, etc.] will have to undo the persecution of homosexuals caused by their hands; stop all wars, because wars just keep the baby machine in constant motion as adults and children are killed off; uplift the poor and stop using their situation to enhance resumes, etc.

The Elites & The Commoners

Published By TBFWS (The Battle For World Supremacy)

July 22, 2009 - Updated: May 4, 2015

As one climbs higher up the ladder of power where the elites [old wealthy families -- Rothschild, Rockefeller, British Royal Family, secret societies, Soros, Warren Buffett, Koch Brothers, etc.] reign, one will notice that there aren't a lot of people there. The elites have always kept their numbers modest to maintain power, order and control at the top. The sons and daughters of the elites will generally have one or two offspring if they choose, while a few may have more than two, which is not a common occurrence, unlike among the breeders; and others may opt for adoption (popular among some, especially those who are one or two levels below the elites), while some prefer no descendants. Sometimes they will have children outside their family nucleus and detached, but the illegitimate offspring are watched with future goals in mind (and according to Benjamin Fulford from his private sources, he was told that Mark Zuckerberg of Facebook is the grandson of David Rockefeller). The men are allowed homosexual encounters if they so wish and the females likewise, also with other men if desired.

The Vatican was in contact with the last colonization of extraterrestrials that did the Adam and Eve procreation 13,000 years ago. These extraterrestrials had the popular religions corrupted after 4 AD. It was they who gave the impulse to form the Illuminati surface group, starting with the Vatican. And by 30 AD the first mysterious Illuminati group came into being in ancient Rome. It was using the spoken word through the Saul-Paul doctrine to facilitate wars in the slaughtering of believers and people who did not want to fall under

their leadership. The extraterrestrial group residing under the Egyptian pyramid also magically appeared before many popes and carried out apparitions at Fatima, Zeitoun, etc. (using holograms) to reinforce the Roman Catholic religion. These Aryan extraterrestrials were hoping that one day they would be able to come up to the surface and rule, and the Vatican was facilitating that eventuality. But things changed and the group was removed in the late 1970s to stop interference with the Earth's surface people.

The masses (i.e. the commoners, the general public) are considered breeders and are there to help in the building and shaping (with cultures, talents, etc.) of the civilization and uphold its maintenance and provide manpower when needed. But as the civilization advances in science, technology, social order, etc. the breeders are monitored to help avoid the society from becoming bloated. The Earth nations are now at that crossroads, because they are moving into an era where much of the **manual labor will be done by computer automation**. And with the coming end to wars, the introduction of therapies for longer lifespan, etc. a liberal population count is no longer necessary.

The elites are now having a difficult time with the breeders because of their outdated programming (i.e. religions, philosophies, social order, economy, etc.) and so they are using various measures to try and bring the masses into compliance with their long term goals. And one such goal is the convoluted, to the masses way of thinking, **the pending New World Order of which there are two versions**: the first was officially launched by George W. Bush Sr. publicly is known as the **"One World Order"**, the **"Uni-Polar World Order"** or Globalism and is 100% elite controlled from London and New York City and the United States is the Global police/military force; wants a percentage of the population replaced with robots. And the second new order is the humane **"Multi-Polar World Order"** organized by a good-willing faction made up of old-watchers in Russia, Austria and China guiding the surface population. The Multi-Polar World Order (i.e. a **New World Order**) is what the BRICS [Brazil, Russia, India, China and South Africa] group would like to establish on planet Earth. They are setting up their own payment system for transaction cards, SWIFT interbank business and also their own rating system. But the hegemony elite rulers in the United States, Britain and Israel are making every effort to destroy these possibilities.

We are in a pickle, and quite a sour one, because there will be sadness as the plan unfolds. One of the genuine extraterrestrial groups noted that they would not like to be in our shoes, because difficult and unpopular decisions will have to be made.

Cabal Clone Factory Targeted

Underground Facility, Destroyed by Crack Counter Intelligence Team and Clones Rescued

by **Richard Boylan**

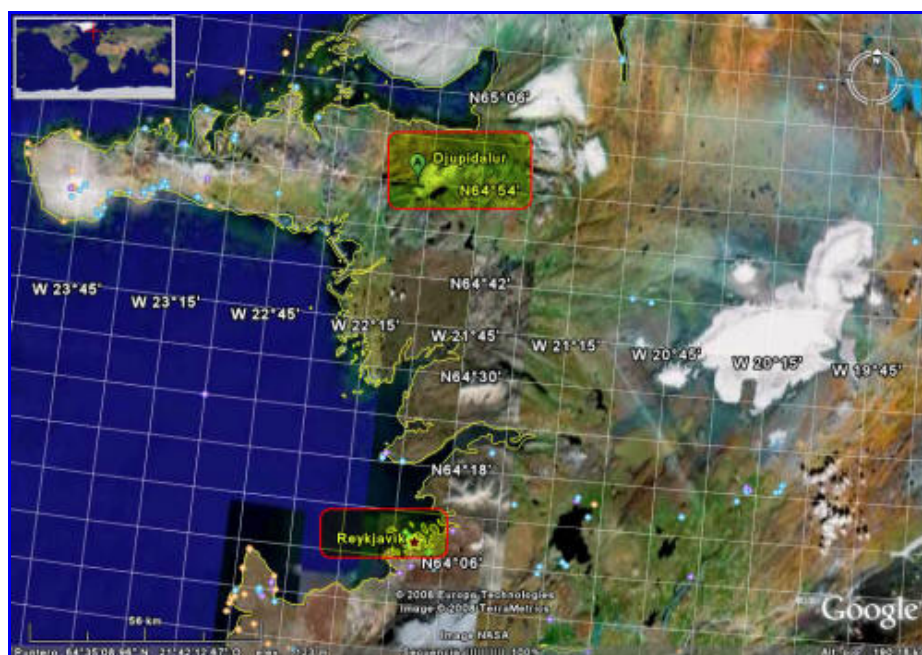

April 19, 2007

from [DrBoylan](#) Website

I just received information from a key informant, with affiliation to a three-letter government agency, that a Cabal-controlled installation, which has been manufacturing and then mentally programming Hybrid-Human clones to operate as its *Super Soldiers*, has been eliminated.

The details.

In early 2006 an enormous underground installation, 16 miles long by one mile wide, began operation some kilometers distant from the Icelandic village of Djupidalur.

It took 13 years to build, having been authorized in 1993 by the U.S. National Security Council, who had been duped into believing it would be a research facility concerned with nuclear, biological and chemical weapons.

Instead, this facility was a key part of Cabal plans to build a super army of mostly Human clones whose genetics had been upgraded with just enough retrieved Star Visitor genetic material to give these clones enhanced physical, mental and psychic abilities.

This cloning project is what Colonel/Dr. [Michael Wolf](#) (Kruvant) of NSC's *Special Studies Group* was so incensed about when he told me several years ago that he had learned that his work in human cloning was being perverted by (Cabal) military into creating the Super [hybrid] Soldier who would then receive mental programming to get the clone to mindlessly follow immoral orders. This caused him to resign from government research work.

This weekend, a crack *counter-insurgency team* (CIT), operating independent of military control, and disgusted by Cabal takeover of key positions in government, undertook a mission to penetrate the Djupidalur installation.

The CIT located where the hapless, misinformed Hybrids were being held, liberated them, and escorted them to the surface, where their safe extraction would be arranged for by an individual with friendly ties to Star Nations and legitimate compartments within the U.S. National Security community.

During the escorting, CIT came under fire from Cabal security forces, and in the ensuing firefight, (Cabal) Brigadier General **Frank Dougherty** and a number of his security troops were killed.

The Counter-Insurgency Team then set off munitions they had emplaced, and destroyed the clone factory installation, after setting off an alarm to give non-security personnel an opportunity to leave for the surface.

When Dr. Wolf was working on cloning, he told me that it took a year to create a human clone from test tube to walking, talking adult. So, if Djupidalur went on-line in early 2006, and went off-line in early 2007, there must have been only one "batch" of Hybrids graduating from that mill. And the CIT team got them all.

The complete success of extraction of the Hybrids and destruction of the installation is a signal moment in the incremental retaking of Earth from Cabal control.

But we are not yet at final victory.

Many other light-workers are doing what they can, from wherever they are located within society and its structures, to take back Human society from the control of the Cabal monsters.

Look for your opportunity.

Although most will not be as spectacular as the CIT's, opportunities to reform and transform our society are all around you.

"Cloning"

<http://tinylink.com/?vx5aTEWg5S>

Almost everything has already been cloned on your world...people, animals, plants, insects...you name it. This has been kept a secret from you because those scientists who are cloning fear that if or when you find out, that you will violently rebel against their actions. There is probably great truth in that. Especially since it is now fairly widely recognized that clones do not have souls and cannot, unless by direct order by Creator God Itself.

Since it is known that soulless creatures do not have the direct connection with Creator God Itself, it is also known that clones even though they "look" exactly like they original, they are not. For not only is the soul missing, but also missing is the ability to greatly love, feel compassion and receive intuition from your higher self. A clone is only interested in its survival and the objectives that were programmed into it and clones do not have the life longevity of a souled being

Introduction

What if you were to discover that certain individuals in government, corporations, military, academia, media, and the alternative research community are either reprogrammed versions of their former selves or artificial beings entirely? What if you learned these were under the complete control of covert forces possessing a vested interest in manipulating society? Then you would see a hidden order beneath the chaos in current affairs that leaves others with more limited understanding shaking their heads in puzzlement.

This document is a compilation of sources discussing various aspects of the human simulacrum phenomenon: the strategic and covert replacement, reprogramming, or artificial creation of individuals to function as total societal control devices. Multiple descriptive terms exist for these creatures: *organic robotoids, reanimated humans, synthetics, clones, duplicates, doubles, look-alikes, replicants, robots, and cybergenetic humanoids*. Although these terms differ in their precise definition, they concern themselves with the same general phenomenon of impostors.

The information presented here approaches the subject from angles that vary in their accuracy, so it is the reader's responsibility to discern which viewpoints are viable, relevant, and functional. What is provided should be sufficient to give direction for further research and allow the reader to correlate these concepts with personal experience and observation. My intent is to provide clarification and elaboration where necessary and give guidance as to the proper use of this potential knowledge.

There are two dangers regarding the reception of this knowledge: *ignorance* and *misuse*. The danger of *ignorance* is misconception, stemming from force-fitting into a limited viewpoint those facts originating beyond; gullibility, arising from failing to perceive such facts at all; and frustration, which comes with holding others to a standard not in accordance with who they really are. The danger of *misuse* includes obsession with the subject, fascination solely out of being entertained by the bizarre, having one's vision colored rather than expanded, seeing danger where there is none, and worrying about that which one cannot change.

Proper use of this knowledge requires bringing it into consideration when other explanations fail, seeing patterns that one would otherwise miss, and most of all, avoiding the frustration and gullibility experienced by those who disagree or fall for that which they do not properly understand.

Sources will be presented in rough chronological order with an introduction preceding each series of excerpts, concluding with my own information and thoughts on the subject.

Dr Peter David Beter (1921-1987) is most remembered for his Audio Letters, cassette tapes on conspiracy topics sent out monthly to subscribers from 1975 through 1982. He was a successful and well-connected business man who disseminated dangerous information most refused to believe and many attempted to suppress.

From a website dedicated to Dr Beter:

Dr. Beter was General Counsel for the Export-Import Bank of Washington; a candidate for the governorship of West Virginia; cofounded SODESMIR, a mineral exploration company in Zaire; represented American gas utilities building a pipeline the length of Argentina; represented mining interests in underwater manganese nodule exploration in the Pacific; was featured at financial seminars in New York City, Los Angeles, San Francisco, Toronto, Montreal, Geneva, and other international financial centers. As a political and economic commentator, Dr. Beter worked with Wall Street luminaries including Franz Pick, Edward Durell, Colonel Curtis Dall, Norman Dodd, Emmanuel Josephson, and many others. He wrote prolifically, including *Conspiracy Against the Dollar* (Braziller New York).

From the editor of the *Revelations of Awareness* newsletter, 1979:

For the benefit of new CAC members, a brief explanation of why this particular reading was given. Dr. Peter Beter (his first and last name rhyme) is a well-known and respected Washington lawyer with many contacts high in government positions who 'leak' information to him. During the past four years, he has been revealing this information to the public in the form of 'Audio Letters' -- 40 minute tape-recorded cassettes which he mails to subscribers each month. His information mainly is concerned with behind-the-scenes activities and intrigues, power struggles etc. between agents of the United States, Russia etc. The information Dr. Beter reveals seldom appears in the 'controlled' press or television networks. In the past he has uncovered such strange plots as the removal by Rockefeller of the gold from Ft. Knox, the placing of neutron bombs in the freshwater lakes and rivers of the U.S. by the Russians. Although his information is 'far out' to many, quite controversial and sensational, most of his accusations have never been adequately refuted by his many detractor (mainly publishers who have been 'scooped' by his stories). [....] Dr. Beter revealed the 'Bolshevik plot' taking place behind the scenes in Washington. These were entities expelled from Russia, brought to the U.S. by Kissinger, Rockefeller and Nixon and placed in high positions of authority—their ultimate aim being to take over the government of the United States and collectivize the entire country, thus creating a totalitarian police state. In the meantime, the 'new guard' in power in Russia, (Christians, who had been waiting 60 years to oust the Bolsheviks) had perfected the art of creating 'doubles'—trained look-alikes by use of plastic surgery, actors etc. who would quickly replace an official who had been secretly executed, and assume that pretense to the public. In this manner, a revolution took place behind the scenes in Russia, unknown to the public, and the familiar faces in the Kremlin began to gradually change their stance. According to

Dr. Beter, the Russians no longer desire a 'cold war' or any war for that manner, for they have developed technology (with the aid of UFOs) that is years ahead of that of the United States. They have developed 'particle beam' laser-type weapons, UFO type aircraft, ('Cosmospheres'), which hover above our nation and which are capable of incinerating an entire city within moments if necessary. In short, according to Dr. Beter, the Russians have not only won the cold war, but are totally in command and fully capable of winning any kind of 'hot' war the US or any other country might try to pull off. The four Rockefeller brothers (who were behind the plot to take over the US) were all executed, according to Dr. Beter and replaced with doubles (all but Nelson's, whose murder was detected and subsequently covered up). When the Bolsheviks in power in the U.S. learned about the doubles being used here and abroad, they became desperate. In order to maintain their positions, they decided to try a 'first-strike' limited nuclear war which would wipe out the missile bases in Russia and destroy that country as a world power. Thus 'Operation Global Shield '79' was staged. The plan was to send all SAC bombers and NATO bombers around the world, loaded with nuclear warheads to the Russian borders (without prior notice), then turn around and come back. This so-called 'exercise' was so planned that the bombers would not turn back at the Soviet borders, but would continue on into Russia and wipe out their missile bases. Fortunately, this did not occur as the Russians had informed Washington that if they proceeded with the plan, they would launch a full response of nuclear warheads against the United States, and a cosmosphere hovering over Washington DC was ready momentarily to wipe out that city. None of this, of course, appeared in the controlled press. [...]

One big reason this nuclear disaster was avoided was because the Russian agents in Washington, working behind the scenes to prevent the Bolshevik takeover here in the U.S., began a campaign of executions. Systematically they executed those in positions of power who had been pushing for war and replaced those entities with 'doubles' or look-alikes. According to Dr. Beter, some of those executed included Jimmy Carter, his entire family, Vice President Mondale, all of Carter's Cabinet, many in the military, the heads of NATO. In Dr. Beter's latest Audio Letter (No. 47) he reveals that the U.S. Supreme Court has been replaced, that the assassins are now moving through Congress and the mass media, eliminating and replacing those who have been 'Hawkish' on containing Russia and promoting legislation and propaganda favorable toward war in the Middle East and elsewhere etc.

Heady stuff, this, and if true the citizens of the United States are due for quite a surprise when the plot is finally revealed to them, which it eventually must. (You can't kill off every right-winger and hawk in the U.S. and replace them with doubles without eventually being caught in the act). When Cosmic Awareness, which in the past had indicated that Dr. Beter was 90% accurate in his revelations, confirmed that these executions were indeed going on behind the scenes, many members of C.A.C. decided that was too much, they could not handle that type of information-so they resigned. Many of Dr. Beter's subscribers cancelled also. If they thought that was too far out to swallow or handle, they should have waited until Audio Letters No. 46 and 47 were released. For Dr. Beter revealed on these two latest tapes that the reason the Russians have successfully executed and replaced so many bigwigs with doubles is that they have been able to create artificial humans (organic robotoids)- grow these creatures from a single cell of the executed person within hours and program them through computers to do and say what they want them to. Having the same DNA as the original, the robotoids retain the same memory, personality and traits as the original entity. Their lifespan, however, is very short (a matter of weeks)so new Robotoids must constantly be grown. Weird, huh! Far-out! Straight out of science fiction, perhaps? Well who can say?

What follows are key excerpts from the mentioned Audio Letters #46 and #47:

Audio Letter #46

May 28, 1979

In Russia as well as in the West, research has been under way for many years in biological synthesis—that is, artificial life forms; and according to high intelligence, a stunning break-through took place in Russia some years ago. The Russians refer to this break-through as a “providential discovery”, something they learned almost by accident. They discovered the key to creating what are known as “organic robotoids.” An organic robotoid is an artificial robot-like creature, it looks and acts exactly like a human being and yet it is not human. A robotoid is alive in the biological sense but it is an artificial life form. Robotoids respond to conventional routine medical tests in the same way as humans do; they eat, they drink, they breathe, they bleed if cut; and they can be killed. Robotoids can also think, but they think only in the sense that a computer thinks. Like any other computer, the brain of a robotoid has to be programmed for each assignment it is given; but unlike many electronic computers, the biological computer brain of a robotoid possesses an enormous memory. As a result, robotoids can be programmed to communicate and think in such complex patterns that they act human.

Organic robotoids are remarkable creatures, but they have many drawbacks. They don’t grow or reproduce but must be manufactured one by one in the desired form. They also have a very limited life span, measured in months or even weeks, depending upon how they are utilized. This is due to the fact that their metabolism, while it resembles that of humans, is very inefficient. A robotoid can be manufactured on very short notice, a matter of hours; but after a few weeks or months it suddenly begins to degenerate physically and mentally. When that takes place, the robotoid has to be removed from service and disposed of. To extend its useful life as much as possible, a robotoid is customarily cooled down to slow its metabolism between assignments. Organic robotoids are extremely expensive, troublesome creatures to produce and utilize; and robotoid capabilities do not exceed those of human beings. All they can really do is simulate human beings; but, my friends, for Intelligence purposes that’s all they have to do!

To produce an organic robotoid it is necessary to have a pattern to go by. The pattern required is that of genetic coding taken from a few cells from the body of a human being. In this respect the Russian technique sounds like cloning, but the technique itself is totally unrelated to genuine cloning. A robotoid is produced within a matter of hours, and it simulates the human donor at his current age. Like any man-made copy of anything, a robotoid is never a perfect copy of the human that is to be simulated; there’s always small discrepancies in appearance and behavior, but these are seldom great enough to arouse any suspicion.

Audio Letter #47

June 28, 1979

Last month I made public one of the most carefully guarded of all Intelligence secrets—that is, the existence of ORGANIC ROBOTIDS. As I explained last month, they are now the key fact of life in understanding current world events. Without knowing this very important secret, you will have no hope of understanding present and coming events. Even so, some of my listeners are not waiting for events to speak for themselves. Instead, they are shakily telling themselves, “There just has to be some other explanation for the strange things in today’s news.”

The man-made biological machine known as a Robotoid is remarkable from head to foot; but the most astonishing thing about them is their ability to simulate

human beings—not just in appearance but in behavior. In other words, the most crucial and most amazing thing about a Russian Organic Robotoid is its biological computer brain. The developments that were destined to lead to Russia's breakthrough in robotoid brain research began 32 years ago, in 1947. In that year a Hungarian-born physicist, Dr. Dennis Gabor, conceived of a way to make three-dimensional photographs called "holograms." It was a revolutionary scientific discovery, and it was destined to lead to the Nobel Prize for Dr. Gabor. He did not receive the Prize until 24 years later, in 1971. By then, holograms were a reality in numerous laboratories world-wide; and yet most members of the general public still had not heard of holography. And even today, more than three decades after Dr. Gabor's original discovery, holography is still unfamiliar to the public as a whole. In 1947 Dr. Gabor's theory pointed the way toward holography, but at that time holograms could not actually be made. What was needed in order to make them was something called "monochromatic light"—that is, light of just one wave length. No one knew how to create that kind of light in 1947, but in 1960 the situation suddenly changed—that was the year the laser was invented. When lasers are discussed in public, attention is usually focused on just one of their amazing characteristics—that's the ability of a laser to produce a narrow, intense beam of light. The beam can travel great distances without spreading out and diffusing. Lasers pointed the way toward energy-beam weapons, among other things; and as I revealed long ago in AUDIO LETTER No. 26, this is what secretly spawned America's crash program to get to the moon in 1961. But the reason laser beams behave the way they do is that the light they produce is monochromatic, so they are made to order for generating holograms. Like lasers, holography has led to developments that were totally unexpected, and one of these was the Russian breakthrough in biological computer brains some years ago. When you hear how they work, you'll understand why robotoids act so much like the human beings they replace. A hologram is a very unusual kind of photograph. To make one, the film is exposed using a laser and a set of mirrors and lenses; and to make the holograph image on the film visible later on, laser light must again be used. When you look at a hologram, it is as if you were looking through a window at the real object. You can move back and forth, up and down, and see it from different angles in three-dimensional detail. By contrast, of course, a conventional photograph is flat and looks the same from all angles. Holograms are also different in another way. If you tear a normal photograph into several pieces, you ruin it. Each piece contains only a disconnected fraction of the total, but not so with a hologram. If you cut up a holographic film into several pieces, each piece still contains almost the entire image. There is some loss of detail but basically it's all there. It's this fact that led years ago to the Russian breakthrough in biological computer brains for their robotoids.

[...] Last month I revealed that the Russians can manufacture organic robotoids, which are almost exact carbon copies of real human beings. This is done by a process that simulates the genetic coding of the person to be copied. It sounds a little like cloning, but it's not. A clone of a human would itself be a human, but an organic robotoid is NOT human. It's an artificial life form, like an animal in some ways but like a computerized machine in others. Every Russian robotoid has what is called a "holographic brain." This brain duplicates essentially the entire memory of a person being copied. The key to doing this is a new technique called an "ultrasonic cerebral hologram." Using high-frequency sound waves, which are inaudible, a complete three-dimensional picture is made of a person's brain. This is a painless, non-destructive process; and under the proper conditions it can be done without the person even being aware of it.

[...] Organic robotoids are such amazing creatures that they are still a subject of questioning and debate. This is true even among the Russian scientists who made them a reality. For example, robotoids seem to have no true instinct for self-

preservation. In this regard they act like machines, simply doing as they are told to do. By contrast, both humans and animals generally have the instinct for self-preservation. Robotoids can be programmed for self-preservation, but they are equally willing (if "willing" is the word) to perform suicide missions, exploratory one-way trips into space. I've only one example of this: if a space mission looks too dangerous to risk the life of an experienced cosmonaut, a robotoid can now be used. The robotoid copy of the cosmonaut is already trained the moment it's made, thanks to its holographic memory. Organic robotoids look and act so much like human beings that it's hard for us to get used to the idea that they are not human; but the Russians decided several months ago that the stakes are too high not to employ them, and so the silent Russian invasion of America by robotoids is now well under way.

Dr Beter goes on in Audio Letters #51, #52, and #53 to discuss another category of artificial human known as "synthetic automatons" (or simply "synthetics") who have a longer life span than organic robotoids but suffer poorer mental abilities, appearing "dull-witted" in comparison to those they replace. Synthetics manufacture involves the use of cattle parts and glandular substances, more complicated than the rapid-grow procedure used to produce organic robotoids.

It is well known from other literature on cattle mutilations and alien abductions that cattle organs and glandular secretions are used in the manufacture and maintenance of synthetic organisms such as the grays. Related to this are the oriental-looking and olive-skinned humanoids seen in conjunction with some black helicopter and cattle mutilation phenomena. From the infamous O.H.Krll document (purportedly written by John Grace and John Lear):

Situations involving the mystery helicopters appear to be a little more insidious. A good example is an event which occurred in Madison County, Montana, between June and October of 1976. Twenty-two confirmed cattle mutilations had occurred during that period, and they were accompanied by reports throughout the county of silent, unmarked, jet-black helicopters, flashing or steady anomalous lights in the air and near the ground, unmarked fixed-wing aircraft and white vans in remote and previously inaccessible areas.

Toward the latter part of this period, in early autumn of 1976, a hunter from Bozeman, Montana, was out alone around 3:00pm one day in the Red Mountain area near Norris. He watched as a black helicopter without markings flew overhead and disappeared below a small hill. The curious hunter climbed to the top of the hill. There was the black chopper (a Bell Jet Ranger, he thought) on the ground, the engine still running. Seven men had apparently exited from the craft and were walking up the hill toward the observer. As the hunter advanced toward the seven, he waved and shouted congenial greetings. It was then that he realized there was something about the men -- they were all Oriental. They had slanted eyes and olive skin and were jabbering among themselves in some indecipherable language. They wore "everyday" clothes, not uniforms. Suddenly they began to return to the helicopter. The hunter, still waving and shouting friendly greetings, started after them. The Orientals quickened their pace. When the hunter approached within five or six feet, they broke into a dead run, crowded into the chopper and took off.

In a documented "mystery helicopter" wave in England, accounts place Oriental-appearing occupants in an unidentified chopper. Slant-eyed, olive

skinned, Oriental-seeming occupants have been a staple at the heart and at the periphery of UFO accounts for years. Significant numbers of the infamous "men-in- black" (MIB) have a similar appearance, but very often they are seen as very pale and gaunt men who are sensitive to light.

If these are genuine accounts, such entities are probably synthetics. The point of mentioning this is that while Dr Beter may have erred in his perceived context of phenomenon (framing it in context of the Cold War), many of the specific details he discussed concerning the synthetics and robotoids themselves are scientifically plausible and generally correlate with other discoveries and anecdotes in fringe research.

But whereas grays and the olive-skinned humanoids comprise mysterious phenomena easy to sandwich between the covers of *Time Life* books, what hits closer to home is the idea of equally artificial beings gracing the pages of *Time* magazine. That public officials, authors, scientists, military personnel, and others with power and influence in their respective fields can and have been replaced by cybernetic doubles gives pause for considering of the implications.

Dr Beter's exposé on robotoids and synthetics made waves far and wide, catching the intense interest of those who were not immediately turned off by his claims. Fortunately this spurred others to do their own investigating and pick up where Dr Beter left off.

In 1979, a channeled source identifying itself as "Awareness" was asked to comment on the validity of Dr Beter's material. Normally discussing matters of a spiritual or practical nature, over the next several years Awareness divulged interesting information on the subject of synthetics and robotoids, particularly concerning its connection with the alien phenomenon. Channeling is not generally valued for its accuracy, but rather its depth and breadth of information. Accuracy is left for the reader or listener to achieve by filtering signal from noise. And so it is with the Cosmic Awareness material, which contains deeper insights than Dr Beter's Audio Letters but also makes wilder claims.

What we seek in this document is sheer *data* on the phenomenon of human simulacra, data from any and all sources that, like panning for gold, allows the sifting process to produce greater quantities of valuable substance. There is no better candidate for this sifting process than the Cosmic Awareness material.

Here are numerous excerpts from *Revelations of Awareness* newsletters published by Cosmic Awareness Communications (C.A.C.):

79-20

QUESTION:

We've received quite a few letters in reference to Dr. Beter's latest tape and the 'Robotoids', and we will probably no doubt get many more unless we print something up. And, probably this letter from M.W. will suffice for the general tone of the letters we've received. I will read the letter, then ask the first of three specific questions tacked onto the letter.

"Dear C.A.C. I think it is absolutely imperative that Awareness comment further on Dr. Beter's last two tapes, No.'s 45 and 46, concerning the Russians killing top American leaders and replacing them with organic robotoids. This idea is so completely ridiculous that not even the most open-minded people are willing to accept it. To me it seems as though Dr. Beter has flipped out and CAC also must be flipped out to support this crazy theory.

I admit, Beter had me going with the Bolshevik double theory, but now the robotoid thing is just too far out. [...] how can ANYONE believe that our nation has been taken over by Russia by means of 'organic robotoids'?

It sounds like nothing more than a paranoid's fantastic fantasy, and CAC's support of these crazy people forces one to question CAC's credibility. IS it possible that Paul has tuned into Dr. Beter's twisted mind? Is it possible that Paul has become lost on a path of right-wing political insanity? I don't know, I hope there is some logical explanation for all this. I don't think CAC can just shrug off the robotoid thing now that they've brought it to our attention. I feel Awareness MUST explain this craziness. You can't really expect anyone to believe it, can you? At

least not without some solid evidence. If Shockley is indeed a clear channel for Cosmic Awareness, can't he give us information on how to prove these happenings ? I have accepted much of the conspiracy theories up to now. but I now am beginning to feel I've been led down the path of some crazy people's paranoid fantasies. I hope Awareness can satisfactorily explain some of these seemingly crazy theories. At this point, I don't put much faith in anything I've [...] heard from Dr. Beter, because their ability to see things clearly and open-mindedly seems suspect. And now I have to say I'm even suspicious of the clarity of CAC's readings. I'm sure a lot of people feel the same way. I hope this can be cleared up."

And his first question is: "Awareness, please comment in detail on Dr. Beter's theory of Russian robotoids replacing Carter, Brezinski and so forth, and give some means whereby this seemingly insane theory may be proven true or false."

COSMIC AWARENESS:

This Awareness indicates that before attending this first question, this Awareness wishes to comment on your letter in general. This Awareness indicates that throughout your letter the question is asked, 'How could anyone expect another to believe such insanity'?

This Awareness has again and again asked entities not to believe. This Awareness asks entities to discover what is. This Awareness asks entities to discover what is by questioning and doubting-by doubting not only others, but by doubting one's own beliefs. This Awareness suggests that entities in discovering what is must first question themselves and their own beliefs.

This Awareness suggests that in terms of the information which this Awareness has given, It did not say to support Dr. Beter [...] – this Awareness indicated that these were sources of information which could not be found in other places. This Awareness indicates that these sources of information add to one's general understanding of what is occurring.

[...] This Awareness has indicated that the Dr. Beter material as being approximately 90% accurate in those areas which it covers. This Awareness indicates this means there is approximately 10% that is not accurate. [...]

[...] This Awareness indicates that in terms of your evaluation of Dr. Beter's information—you have the right to close your mind at any time you choose- all entities have the right to close their eyes and not look. [...]

This Awareness indicates that in your demands, or your request, whichever it may be, that this Awareness or the entity Paul Shockley prove to you that the robotoids exist, you are setting yourself up for a disappointment, for neither this entity nor this Awareness is your servant, nor needs to prove anything to you, but can share what is seen, when and if you open your consciousness to receive, to search, and to wonder whether there is anything to this or not. This Awareness indicates that the fact that you wrote the question, asked the question, indicates that your mind is still searching, and therefore you have not closed your mind to this. This Awareness therefore suggests that the question be asked and that this Awareness shall give you indications whereby you may search for better understanding of how these robotoids might be real.

QUESTION:

"Please comment in detail on Dr. Beter's theory of Russian robotoids replacing Carter, Brezinski, and so forth, and give some means whereby this seemingly insane theory may be proven true or false?"

COSMIC AWARENESS :

This Awareness does not wish to prove this true or false. This Awareness indicates that if It presented the proof of this information, the Interpreter, the staff of C.A.C. and the majority of members in C.A.C. and Dr. Beter, would in fact be jeopardized and endangered by the proof. This Awareness indicates that this information as being extremely dangerous for this entity to have released—that the only reason why the entity has been allowed to continue serving after the release of this information is because it appeared to be so unbelievable that the public has not responded or reacted in a manner that threatened those who are behind this action.

This Awareness indicates that there is no way and no need for this Awareness to prove these exist in order to be in your good graces. This Awareness indicates it is for you to make this discovery after researching and learning and digging and waiting, and wondering if this is important to you to make a decision as to their reality or not. This Awareness indicates however, that there are ways whereby you may search out further information on the development of these creatures. This Awareness indicates that you research the areas of the DNA (you may begin with the book mentioned by Dr. Beter), that you research areas on cloning, that you research areas on electromagnetic fields, that you research areas in relation to UFOs—for these are all tied together.

This Awareness indicates that the electromagnetic fields are used in creating certain atmospheres of an electronic nature, for the transmuting of the DNA. This Awareness indicates that information which may lead to certain possible areas of research in this field, can be found in studies on mice and frogs and other small animals in the early researches of the DNA. This Awareness indicates that the majority of this type of information has been withheld from the public, and is not available. This Awareness suggests that if you wish to spend some time moving into these fields of study, you may spend approximately ten years working through various scientific works and becoming acquainted with different scientists in the fields, to ask questions and research the information in this manner.

This Awareness indicates that otherwise you may seek to explore through contacts with secret services, various entities who have contacts in the CIA or the secret services, and if careful you may become aware through some of these entities of areas wherein certain researches of this type have occurred. This Awareness indicates this may take quite some time in developing friends in these branches of government who will share information with you or refer you to others who would do so.

This Awareness suggests that if working your way up through the scientific academy or working through the secret services or through research in libraries does not appeal to you, this Awareness suggests that you wait for other Dr. Beter tapes and other Awareness messages and other sources to present themselves to you for your further evaluation, and that you shelf your concern for immediate answer to this situation.

This Awareness indicates that: essentially ‘there are more things in heaven and earth than you have dreamed of in your philosophy’. This Awareness indicates that the magnitude of this area of research and development is so great that entities cannot at present comprehend. This Awareness indicates that this however is but a small portion of information which is withheld from the public.

This Awareness indicates that entities ask this Awareness questions—this Awareness, speaking through Its Interpreters, gives information. This Awareness indicates entities are not satisfied with the information given, but want more information, more in-depth information—want to know more about how this or that can be.

This Awareness indicates if It gives everything that an entity could ask about, if It answered all the questions in perfect proof and perfect evidence, exposing all

secrets that the members would ask about, the Interpreter would be slain and the members hunted down for knowing too much about vital secrets to those who have power and wish to continue holding that power.

This Awareness indicates the Project Bluebook once had twelve hundred employees—there are now thirteen of these entities still alive—for they knew too much.

QUESTION:

We're starting to get questions in about organic robotoids, and I thought maybe if I asked a couple, it might be sufficient. D.W. of Ridgefield, Washington, wants to know if these robotoids have an aura...?

COSMIC AWARENESS :

This Awareness indicates that this around the heart chakra only.

QUESTION:

Do these robotoids become inhabited by spirits or other entities?

COSMIC AWARENESS :

This as negative, except in rare instances whereby certain forces might penetrate briefly. This Awareness indicates these creatures as not being suitable for the complete embodiment of a disembodied spirit—that the metabolism of these creatures is such that the disembodied spirit would not enjoy being involved inside such a creature, except very briefly. This Awareness indicates this much likened unto a spirit inhabiting an animal for a brief time. This Awareness is referring to human spirits, and assumes the questioner is also referring to this.

QUESTION:

That is correct. Organic robotoids, apparently having the facility to think like humans, must therefore have some form of life-force similar to that which motivates humans. Is that correct?

COSMIC AWARENESS:

This Awareness indicates this essentially correct—that these creatures do not have a self-awareness, except when this self-awareness is programmed into them. This as a kind of awareness similar to that of a plant, except when programmed to be self-aware.

This Awareness indicates that the programming of behavior being that which is implanted into these creatures, according to the memory pattern from the predecessor. This Awareness indicates that the creatures themselves carry certain subconscious programmings similar to that of an entity who is in a kind of coma or zombie-like state. The entities' basic functions and basic responses carry through in the DNA cell memory, but the general programming of behavior and personality will occur from the implanting of the memory of the predecessor—this through the methods described by Dr. Beter in his June '79 tape.

QUESTION:

Then when a robotoid burns itself out and essentially dies, is there any form of soulstuff that emerges and goes into consciousness that might be identified with the original entity whom it replaced?

COSMIC AWARENESS:

This Awareness indicates this as very little—this similar to ectoplasm, or the electromagnetic field of energy that might emit from a hand or finger seen under Kirilian photography. This Awareness indicates there is an energy which is released from these beings, that this also may be similar to energy which is held in plants. This Awareness indicates this may be somewhat stronger in the robotoid.

This Awareness suggests that the robotoid does not have a complete development of soul, but does have certain spirit energies—this similar to what might be termed an elemental. This Awareness indicates these creatures in time can be perfected scientifically through other means whereby exact duplicates with potential for reproduction and human development could be made—this being closer to that which Jehovah created on Mars as Adam and Eve, and this as being closer to that which this Awareness referred to as synthetics. This Awareness suggests the synthetics live longer than robotoids, that the synthetics have been created by extra-terrestrials rather than Russians.

QUESTION:

A question from R.K., of St. Cloud, Minn., which came in during June of 1978, end was held in abeyance because at that time Awareness asked that we not question into this area. But in light of some of Dr. Beter's material, this particular question might prove enlightening: "The people at the Summit Lighthouse are being taught about so-called robot people. They are supposedly laboratory-created skull-less humans, who have reproduced themselves since the time of Atlantis, when they were created. According to this source, there is a large percentage of these people in America today, particularly in the government, because they are easily influenced, and therefore manipulated by the Fallen Ones, who are ceaselessly working to overtake the earth for their own use. Would Awareness please comment on this?"

COSMIC AWARENESS :

This Awareness indicates that this information is basically correct. This Awareness suggests that this be included in that material being released under the heading of UFO Project Reading.

This Awareness indicates that essentially these entities are being associated more with the synthetics this Awareness has described, than with the robotoids described by Dr. Beter. This Awareness indicates that explanations regarding both of these creations is available in other readings from C.A.C. This Awareness indicates that essentially this is well-known by certain departments in the government,—that many of these have been involved in the government, and in fact, many of these robot-like creations have taken over certain departments of government.

This Awareness wishes entities to consider that there have been several unusual movie plots during the past few years, which are not purely science fiction. This Awareness indicates that the movie *Future World*, wherein celebrities were taken into a new type of amusement park, and their doubles emerged, this being in the state of Nevada. This Awareness indicates this movie was, in actuality, based on the alien base which was in existence in the mountains above Las Vegas, wherein these synthetics were being created, and released into society after receiving proper training and programming and the necessary money for carrying out their assignments.

This Awareness indicates this movie as having had a substance based on reality. This Awareness indicates also that the movie *Invasion of the Body Snatchers*, wherein entities were being created who became doubles for humans and took their place. This Awareness suggests you consider this movie in light of the information which Dr. Beter has given on the robotoids.

QUESTION:

Would Awareness expand on that part of the question where it said, "These entities have reproduced themselves since the time of Atlantis, when they were created." Is that correct?

COSMIC AWARENESS:

This Awareness indicates this as being essentially correct—that these entities as being somewhat more refined than the robotoids or the synthetics. This Awareness indicates that the synthetics as being creations by the alien UFO invaders—the word invaders as not exactly appropriate, as these entities have been here for so long. This Awareness indicates that the synthetics being created from parts taken from humans or from animals and certain processes involving decompression chambers and various nutrients and magnetics.

This Awareness indicates that the robot-like humans which the Summit Lighthouse is referring to are basically humans or humanoid in appearance and capability. The latest difference between themselves and humans is that they have not been in used with the higher spiritual vibrations, but are more closely aligned to animal vibrations.

This Awareness indicates however that these can mate with the human being and in this manner receive the divine vibrations. This Awareness indicates these also can develop over long periods of time to tune into spiritual or divine energies.

This Awareness wishes to define the term 'divine energies'—these being energies which allow for identification with universal harmonies as opposed to simply self-oriented vibrations. This Awareness indicates that generally however these beings are self-centered to an extreme, and may not even have the ability or concern for self-preservation, but simply have a strong appetite and desire to acquire or to obey an barter programming which has been passed on through the genetic code of the being.

This Awareness indicates that generally these creatures remain below the surface of the earth as subterranean creations. These not however emerging to the surface except for certain assignments and purposes and these also not generally emerging in that area known as MiddleEarth that these entities generally remain in caverns and caves and tunnels deep under the surface of the earth.

This Awareness indicates that these synthetics as being created from an action similar to cloning, yet in part using certain flesh from animals or humans, particularly common is the use of the cerebral and nerve system of the cow. This Awareness indicates that these synthetics are put together and indeed living creatures in which astral beings may enter to work through upon this physical plane. This Awareness indicates these entities also are capable of creating synthetics who look exactly like other living persons upon this plane. These entities being trained in an area in the mountains near Las Vegas, Nevada, given information regarding the person who they are to replace, given background, childhood experiences, memories, being given programmed memories of that child, and identification to allow them to slip in and fill the role of that person.

This Awareness indicates that often there are created sets of synthetics who are identical in appearance, but are placed in various areas so that they are not spotted or recognized as being the same person in two locations.

This Awareness indicates these entities generally are operating from a rather obscure position in society whereby they do not call attention to themselves by their occupation, but these entities as generally having vast amounts of money. This Awareness indicates this as given to them before leaving the training area in Nevada – this at present as being approximately three to five hundred thousand dollars. This to allow them to mingle in society and serve as agents for those aliens who are seeking to take over this planet.

This Awareness indicates that these entities in appearance have, until last year in February (1977) have had certain types of characteristics that could be distinguished—that they showed no Adam's apple; they did not eat in public, for they have no need for food. They used pills, and when caught in a situation whereby they were required to eat, would eat only soup or light salad—a very small amount.

This Awareness indicates that these entities generally had a mottled skin, something like pizza crust. This Awareness indicates these entities often had a walk that was reminiscent of a penguin or duck, a kind of waddle back and forth. These entities as not being able to turn their necks very far and needing to turn their entire body, as though they had a stiff neck.

This Awareness suggests that the information being given presently not being given to allow entities to become paranoid and search out me synthetics in their midst and begin some kind of persecution drive, but as being given to allow entities to understand there is something occurring, and to assist them in being cautious in regard to who they are associated with.

This Awareness indicates that these entities themselves are slaves. The Bigfoot creatures are slaves, and those dwarfs and those entities beneath the ground known as Deros or detrimental robots, these also are slaves. This Awareness indicates those entities referred to as Men in Black, the MIBS, are also slaves. That all these entities are set up under that entity who has presented himself in the midst of the seat of power known as the Anti-Christ. This Awareness indicates this entity as having control upon this hierarchy system, intent upon gaining power and control of the earth, in order to set up his realms.

This Awareness indicates that these entities have great power in terms of physical and occult controls. That these entities have machines which allow them to listen to the thoughts of others, which allow them to teleport; and whereby, even in vehicles, they can hook their teleportation machine to the vehicle and teleport, or disappear, right before the eyes of others. This Awareness indicates these entities have the ability to appear, to materialize, before others. This Awareness indicates that these entities have the ability to create pains and nausea and sickness in others. These entities as often causing accidents and death and illness to those on the surface, particularly when these entities on the surface level become too aware of their activities and become a threat.

This Awareness indicates that this realization and this awareness of these entities can become that which is dangerous to know, until entities have the spiritual awareness which allows them to protect themselves from this kind of psychic force and power that that these entities can emanate.

This Awareness wishes you to understand that these powers these entities use comes from an understanding of the electromagnetic spectrum and the super spectrum. This Awareness suggests that entities read the book by John Keel, called 'The Eighth Tower.' This Awareness indicates that in these various vibratory rates there are powers that echo and reflect from one octave to another. This Awareness indicates that the Forces of Hades are using those powers which are of a lower vibratory rate than are those who are working from levels of Celestria.

This Awareness indicates those higher vibratory rates have dominion over the lower vibratory rates. This Awareness suggests that those who are attuned to the highest and best cannot be touched, cannot be harmed by those forces which are operating from the lower vibratory rates. This Awareness indicates that they can be aware of those forces. They can feel the vibrations of those lower forces, but they cannot be shaken from their place, or destroyed, or shattered by lower vibratory rates. This Awareness indicates that the only way entities of a higher vibratory rate can be harmed by those of a lower vibratory rate, is if they allow themselves to become frightened, fearful and intimidated to the point of being terrified.

This Awareness suggests that in order to avoid this, this Awareness suggests that entities be cautious, careful, loving, discerning, and protective-of that which is

the highest and best, and to avoid careless exposure to those areas and forces which can be harmful without having confidence and protection accompanying that exposure.

QUESTION:

Awareness, it has been indicated (by this Awareness) that for the most part those heads of governments and those entities in power that would create war, nuclear war, are synthetic entities, artificially created entities. Now, Awareness has indicated these entities can be taken into the astral and programmed. Is this programming confined to these synthetics entities, or can real live flesh and blood human beings with souls and spirits also be taken into them astral levels and programmed?

COSMIC AWARENESS:

This Awareness indicates that this is mostly with the real life flesh and blood entities in the movement into the astral levels for programming. This Awareness indicates that generally the synthetics are programmed by prompters of a physical nature. This Awareness indicates however, they can also be influenced to a lesser degree from the inner planes. This Awareness indicates there appears to be a very weak astral body in the synthetics. That essentially it is not strong enough to be effectively programmed. That the efforts by those entities in the astral levels are aimed more toward the programming of human agents on this plane and that the synthetics are generally used to carry out the programming which was given by these human agents.

This Awareness indicates that this programming of synthetics is generally accomplished through electronic technologies, this including a bioelectronic technology.

QUESTION:

Awareness has previously indicated that synthetics have a difficult time eating the normal foods that the average entity eats. There are certain people in government who are promoting the use of candy, like jelly beans. Is candy a particular food source for these entities?

COSMIC AWARENESS:

This Awareness indicates that this appears to be a way whereby these entities can take their supplements. This Awareness indicates that this is not necessarily candy in the usual sense, but is a supplement which is made to appear as candy. This Awareness indicates that the technology associated with the synthetics and robotoids as that which has progressed somewhat in the past several years and the limitations which were previously given are not as pronounced at present as in the past.

This Awareness indicates that It does not wish to probe or reflect on this topic any further. This Awareness indicates the reason being that it is too confusing and too bizarre for the readers of your material. It detracts from greater concepts because of its bizarre nature. This Awareness indicates however, that very gradually, information is being released whereby within approximately 5 to 10 years entities will understand without such apprehension that life can indeed be created using the cells to create a full grown adult human being of a synthetic nature.

This Awareness indicates that a recent tabloid released last month headlined the creation of a human being by scientists. This Awareness indicates that this however, was not allowed to develop to full size. This creation was terminated while at a very early stage of development. This Awareness indicates that the purpose for

releasing this information to the masses was simply to prepare them for future acceptance of synthetics and robotoids in society.

QUESTION:

Five years ago Dr. Beter made the statement to the effect that if entities could not grasp and fully understand this concept of robotoids and implying later the synthetics, that nothing that was going to happen in the next 5 to 10 years was going to make any sense at all to them. Does Awareness agree with that statement?

COSMIC AWARENESS:

This Awareness indicates that this as a general statement is correct. This is not necessarily applying to every situation. This Awareness indicates that essentially all corporations of any magnitude have been take over by synthetics, and are being controlled and run by those who are behind these forces. This Awareness indicates that It does not mean that every individual in power in a corporation or in the executive or administrative level are robotoids or synthetics, but rather those key positions within the structures are quite usually controlled and operated by this type of being.

This Awareness indicates that in many instances the being is a replica of one who is still living, and this allows the entity to be elsewhere, while still at his office.

85-1

COSMIC AWARENESS:

This Awareness indicates there is seen some concern in regard to the concept of robotoids, synthetics, doubles and humans in government. This Awareness indicates that this in relation to readings which were released at previous times through this channel and also in relation to information released by Dr. Peter David Beter in his tapes. This Awareness indicates that the present situation in regard to these entities is such that specific individuals shall not through this channel be singled out and defined in terms of their type. This Awareness indicates that other questions in regard to this can be asked.

This Awareness indicates that the reason for this is for your own protection, for in singling out an individual and calling that individual a robotoid or synthetic, or saying the person is a double, one could open oneself up to suits or to other harassment. This Awareness indicates that enough was presented previously to explain the nature of events that are occurring behind the scenes and this Awareness does not intend to be used to point fingers at individuals, tattling on the individual for being a robotoid, synthetic or double, for that is not the purpose of this Awareness coming to this plane at this time.

This Awareness indicates that the purpose is to awaken consciousness to allow entities to have a greater expansion of concepts that allow the mind to move into areas which were previously unthinkable, to expand consciousness into thinking about unthinkable things, to explore the unknown and to discover new things regarding the universe in which they live. This Awareness indicates that the purpose is also to eliminate sorrow, suffering and tragedy from this plane, through such enlightenment.

This Awareness indicates that for It to present messages of pointing out this or that statesman, labeling this or that entity in order for people to hold certain judgments of that particular entity; this is not the function of this channel. This Awareness indicates that for the record, this Awareness indicates there are approximately 700,000 aliens on this earth at this time; this besides the Wanderers who were born of earthly parents. This Awareness indicates these entities have been since the time of the Eisenhower

administration, the early 50's, have been moving slowly and carefully into positions in government whereby they can have influence.

This Awareness indicates that some of these aliens represent the Ahrimanic Forces, the Forces of Ahriman; some of these represent the Galactic Command Forces, these beings of the Light Force who are assisting in countering the efforts of the Dark Ahriman Forces. This Awareness indicates the intrusion by these entities of the Galactic Force is to help assure the continuance of this planet, for without their assistance and the assistance of those who are the Wanderers, this planet would be lost and would be destined for destruction.

This Awareness indicates that many of these aliens of both the Ahriman Forces and of the Galactic Forces do participate in actions whereby they enter into the bodies of those who are presently here, either as robotoids or synthetics, or whereby they enter in duplicate form, replacing entities who pass on, or they may enter as Walk-ins, whereby the owner of the body steps out and allows the body to be taken over by an alien being.

This Awareness indicates that this message as that which may be released or may be held back from your readership at your discretion; that *It* does not consider this to be an important factor to the current needs of your membership, but that it does have some degree of interest to some entities. This Awareness indicates it also may lead some of your readership to consider it as being too bizarre and unbelievable for public consumption.

This Awareness is not concerned about whether or not this message is released; that it is your choice. This Awareness suggests that if there are other questions in regard to this, that these may be asked, so long as individual names are not included in asking questions about public figures.

FOLLOW-UP QUESTION:

Well, about the main question that members write is: they read the information released back in '79, five years ago, about these various public figures which the communications, and Dr. Beter explicitly showed were eliminated and made into substitute entities...the question most often asked is that they want us to explain, as publishers of the information, how come these same people five years later are still in the news, still running for offices, still talking the same old line, look like they always did, sound like they always did and so forth, and we simply don't know what to tell them because Dr. Beter hasn't published any more information on it.

COSMIC AWARENESS:

This Awareness indicates that this information was given at that time; it was explained in those readings and in that information at the time that these entities were replaced by those which were called robotoids in some instances, or by those which were called synthetics. This Awareness indicates it takes little stretch of the imagination to realize that if they were replaced once, they can be replaced by still another duplicate.

This Awareness indicates that these synthetics and these robotoids may have been replaced by human doubles. This Awareness reminds you that there are quite often look-alike contests, that many of the movie stars have look-alike doubles; that many of the tabloids on occasion will have contests, searching for entities who look like the new president, and this Awareness suggests that these contests are often sponsored and used by those forces seeking to find doubles to play the parts for these public figures.

This Awareness indicates that down through the ages kings have often had their doubles; that this is no secret. It may be unknown to many of your

members, but it is no secret; that there are many who are aware of this; there are many historians who recognize that this has been part of the formula for protecting the monarchies. This Awareness indicates that there are a number of ways whereby entities who are seen at one time may be replaced by another who looks similar.

87-11

QUESTION:

I have a few question from one of the SPIRAL people, "Recently reference was made in the Village Voice newspaper to the subjection of, Russian dissidents to E.M.R. (electromagnetic radiation) emitted from Russian remote sensing instrumentation, which involves 'thought detect-ion studies via scanning micowave holography. Would Awareness please explain the process and tell us if this is related to the production of synthetics and robotoids. Also, is the method now in use for thought detection of US. citizens; and if so, how can we protect against it?"

COSMIC AWARENESS:

This Awareness indicates that this as being an advanced form of radionics, or that which is known as psionics; that this also as related to instruments described in the Shaver mystery material, produced in the early 40's. This Awareness indicates that the present technology using these devices is that which has its basis from the radionics of vibration, or frequency, whereby the instrument tunes in to the particular frequency of the subject, and from such frequency, can detect as well as send information. That this as associated with the mind of the operator, whereby the operator can send certain frequency through the machine, while also sending certain data from the mind of the operator to the subject, once the subject has been identified and tuned in to by the frequency on the machine.

This Awareness indicates that similarly, in the radionics machines, whereby the subject may be contacted by its frequency, either through use of a photograph, or through a part of the subject containing the vibration of the subject; (this may also include the signature of the subject); that the machine may be used to locate and identify the frequency of the subject, to send a particular energy or to send a particular message. This Awareness indicates that an example being to use a photograph of an orchard, whereby every other row is painted with pesticide to kill the pests in those rows in that orchard. This photograph then being placed in the radionics or psionics machine, then sends forth the vibration which tend to kill the pests on those rows marked on the photograph. This Awareness indicates that likewise, this may be used to heal diseased plants or subjects, by giving medicines to the photograph rather than poisons.

This Awareness indicates that the principle being that of the Law of Correspondence, wherein that which is a substitution for another thing carrying the vibrations of that thing, may be used for psychic attunement; this closely associated with principles used in voodoo, This Awareness indicates that what has been described is relatively well-known by entities involved in the radionics field; that the new twist which has been more recently developed by the Soviets, is that of scanning the mind of entities in order to not send, but receive information from entities whose photographs are available. This Awareness indicates that the principle works the same, except in reverse: rather than sending a thought, the operator becomes open to receive a thought by attuning to the frequency of the machine, after the machine has tuned to

the frequency in the photograph.

This Awareness indicates that this is not an exclusive machine used by Soviets, that the United States has also use of this type of equipment and it has been in use for some time,—this in certain segments, particularly associated with the Rockefeller powers and the agencies under their control.

FOLLOW-UP QUESTION:

This principle is also used in the creation of the robotoids and synthetics, is it not?

COSMIC AWARENESS:

This Awareness indicates that the principle as particularly developed in the Soviet Union for use in gathering information electronically, and implanting that information into the robotoid through the attunement of frequency; this as similar to a program which would combine recording techniques with broadcasting techniques. This Awareness asks you to imagine a particular machine that could not only record information, such as on a tape, but take from that recording—read off the vibrations from the tape by erasing or drawing out; that information without losing the vibrations or frequencies, and implanting that information into another tape. This Awareness indicates this may be difficult to imagine, yet it becomes simple when you consider the transplanting of information from a phonograph record to another phonograph record through the usual process of duplicating records. This Awareness indicates that essentially, these machines through attunement to vibrations, can tap the consciousness of an entity, record the frequencies, and translate and broadcast these energies to other entities through the machines involved

QUESTION:

Another question from the entity in SPIRAL. “Is the Eastern establishment encouraging and permitting an increasing number of large corporate mergers to occur at this time in a frantic attempt to implement a corporate world-wide dictatorship? And are the Bolsheviks in control in the United States lending to this plan so that their plan of taking over the United States will then be made easier”? Large power blocks might be easier to nationalize than many smaller ones.

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative, particularly in the first part. This Awareness indicates that in reference to the Bolsheviks allowing this to occur, that this as being allowed with reservation. That wherein the Bolsheviks find an opportunity to move in and establish control of these corporations, this would be acceptable to these Bolsheviks, even though the total dictatorship had not yet been established.

This Awareness indicates that essentially, the Bolsheviks have much control of these corporations already, in that many of the heads of corporations are in fact synthetics, —this having been accomplished during the past two years. This Awareness wishes to clarify also to entities that there are very few robotoids in the United States; that these entities have been essentially removed and replaced by synthetics. This Awareness indicates that this appears to have been a source of misunderstanding by many entities who still speak of robotoids in the United States. This Awareness indicates there are a few, but the majority have been replaced by synthetics of the Bolshevik system.

QUESTION:

Would Awareness give an approximate figure of the number of synthetics there are

now in the United States in the government and corporations and other places? Just a ballpark figure...?

COSMIC AWARENESS:

This Awareness indicates that it appears approximately one-third of the entities in the higher level of government agencies and also in corporations,—approximately 20% in the corporation levels,—this in terms of the larger corporations. That this 20% being in terms of the higher echelons of the corporations, not referring to the lower management levels. This Awareness indicates this including the banking system to some degree also. That this also includes the security agencies of the government, wherein many of these entities are synthetic in nature. This Awareness indicates that this information as that which can become somewhat troublesome in terms of questions from your membership, and may cause you to lose some of your membership. This Awareness suggests that you consider whether you wish to print this or withhold this information.

FOLLOW-UP QUESTION:

Is there any foolproof method that an entity who is non-synthetic can detect the new, improved synthetic? For example, legend has it that vampires cast no reflection, no shadow, or ...

COSMIC AWARENESS:

This Awareness indicates that this as a reference to the aura; that these entities who have no aura of magnitude. That the aura as that which is limited in size to a very small close thin aura, or only that which surrounds the heart. This Awareness indicates that with certain machines using processes similar to Kirlian photography, or with psionic machines, entities can distinguish the synthetic from the real entity or from the robotoid. That without such, the entities cannot, except through sensitivity or ability to see auras, make such distinctions.

This Awareness suggests that entities not become overly curious about things which they can do nothing with or about; or about things which, if they become too involved in, would simply cost them their lives. This Awareness reminds you of the saying that “curiosity killed the cat.” This Awareness indicates that it is one thing to become aware, it is another thing to know too much for your own good; for there are those who take great pains at preventing entities from finding out what is happening. This Awareness indicates that in order to continue to function upon this plane, entities must grow in wisdom and knowledge at a pace which is not too rapid, so as to draw too much attention; at a pace whereby entities can not be too outstanding, but whereby they can be on the cutting-edge of consciousness without protruding out beyond that edge. This Awareness indicates that It must withhold some information for the right time; that when It gives too much, trouble follows.

This Awareness indicates that it is healthy to be curious, but it is also healthy to be patient and to be able to accept that which has been given, knowing that there is more which may come later. This Awareness does not intend to chastise anyone for questioning, but rather wishes to explain why certain information often must not yet be released. That in retrospect, looking back at the information on the UFOs, wherein for approximately ten years entities were asking questions regarding the UFO's; if entities will recall the information released in that message regarding the UFOs and synthetics, they will now understand why this Awareness did not release this information ten years earlier. This Awareness indicates that even when it was released, it lead to the loss of approximately one-third of the CAC member-ship, and to many questions, hostilities and other expressions of disbelief.

This Awareness indicates that there are many areas which the human mind cannot conceive, refuses to examine, and would not believe, yet wants

to know. This Awareness indicates that the area of robotoids, synthetics, and the intrigues of the government are very touchy areas which can cause problems, even though entities may, out of curiosity, wish to find out what they cant This Awareness indicates that curiosity is that which sets the thinking mind apart from the dull and thoughtless mind; yet curiosity, if not checked, can also be fatal.

FOLLOW-UP QUESTION:

I have a small file of previously unreleased information on robotoids and synthetics. Would it be appropriate to put that together sometime and publish it?

COSMIC AWARENESS:

This Awareness indicates that this could be published, presented more for those who wish to pursue this further. This Awareness indicates that there is very little value in that information except as satisfying those who are obsessed and curious about the entities; that essentially, the general information regarding robotoids as that which has already been released except in regard to the link between the aliens and the robotoid factor.

This Awareness indicates that many entities who have not been with your organization for a long period of time will find this to be quite unusual and disturbing perhaps. These entities could be referred to the Dr. Beter information for further information on robotoids. There is very little real value in pursuing this, and this Awareness does not encourage entities to pursue research that only satisfies curiosity in regard to its having to do with bizarrrism.

However, because these things have some effect on the potential future of individuals, this Awareness brings out the information in a general sense.

This Awareness prefers that entities have the general overview and not become obsessed with details regarding robotoids or synthetics or any of this bizarre information just because it is bizarre and may have some curiosity to know all the details, such as: "What do robotoids eat for breakfast?" and so forth. That these things are of little significance. What is of significance is that there is an influence acting upon the affairs of humans which entities know little or nothing about which have many ramifications and is behind much of what you see in the news which is never mentioned, and it is this factor of this unseen hand or unseen influence that this Awareness wishes entities to become aware of.

It does not wish to engage in disputes, arguments or questions dealing with the miniscule details of some bizarre aspect here or there, just to satisfy some mental curiosity, or obsession that an entity might develop. There are certain mentalities that tend to focus not on the overview or on the significance of something but on some miniscule detail and they become obsessed with knowing everything about that particular detail, in order to become some kind of expert or something, and this is not the purpose this Awareness has for giving this information.

This Awareness does not particularly wish to deny information, but It does not wish to focus on information that is irrelevant to the main purpose of Its communication on this plane

Is that information correct?

COSMIC AWARENESS:

This Awareness indicates that this is correct; that the instruments which Dr. Beter
once spoke of in his Audio Letters as being able to locate and determine what
anyone on earth was doing at any time, is an instrument that was just spoken of,
that was made available through his contacts with scientists in Nevada; that they
were using these instruments in order to supply him with information for his Audio
Letters. You will recall that often he spoke of entities who would allegedly be at
some place, but by his sources would be found to be elsewhere, such as Jim Jones
actually being flown to Israel and being thrown out of a plane near the Turkish
boarder, and other instances of a similar nature, wherein entities were believed by
press releases and so forth to be in a certain place, and Dr. Beter would indicate
that they were truly elsewhere.

This Awareness indicates that this also allowed them to distinguish between the
real entity and a duplicate, a double who was replacing that entity, because the
vibration of that double would be slightly altered and different. This Awareness
indicates that Dr. Beter also was able to distinguish the difference between a

robotoid, synthetic and human, because the human had a soul at the time; that in his later reports and in further technology, the robotoids were even being given a soul.

This Awareness indicates that this occurred through further alien technology in which the soul of an entity can be severed from the body and implanted into another's body. It is a technology that allows for the Walk-In. It also allows for the soul to be put into a duplicate body, a robotoid for example, so that the soul can continue to exist after the first body has been eliminated, and in this kind of action it is almost the same as if the entity had received a new body. That in this sense, and for the purposes of changing the entity from one body to another, the reason for such might be, for example, to alter the memory or alter the philosophy of an entity in moving it from one body to another, by erasing certain aspects of memory.

This aspect is discussed further in the next chapter reserved for the Cassiopaeian channeling material, where it is claimed that human souls can be extracted from their bodies, reprogrammed while in an etheric state, and inserted into a duplicate physical body. Upon completion, this process results in an individual who shares his or her former superficial identity but is covertly and perhaps unknowingly in complete subservience to the agenda of his or her programmers, to the point of going against his own previous ideals and opinions and instead disseminating disinformation dressed up by the credibility of his former self. The Cassiopaeians were not asked why body duplication is preferred over reanimation of the original body, but fortunately Awareness explains this in detail.

This Awareness indicates you will recall that the memory is stored in the etheric, between the mental and etheric bodies, and that it can be altered in the human. It can also be erased, and by taking the soul and these bodies from one physical body and putting them into another replica of the physical body, they can actually bring about a changed person with a different philosophy or different values, and yet the entity would essentially be the same personality. This Awareness indicates that perhaps this can answer many questions that entities have had, in regard to past notable figures that have been indicated by Dr. Beter as having been replaced by duplicate bodies. This Awareness suggests the reading continue.

They can lower your heart beat with deep sleep 'Delta Waves,' induce a static shock, then re-program via a Brain-Computer link. They can introduce data and programmed reactions into your mind (Information impregnation-the "Dream Library."

We are entering an era of the technologicalization of psychic powers. The development of techniques to enhance man/machine communications; Nano-tech; Bio-tech micro-machines; Psi-War; E.D.O.M. (Electronic Dissolution of Memory); R.H.I.C. (Radio-Hypnotic Intra-Cerebral Control); and various forms of behavior control (via chemical agents, ultra-sonics, optical and other EM radiations). The Physics of 'Consciousness.'

COSMIC AWARENESS:

This Awareness indicates that it is also on this level that the technique whereby souls can be extracted from the physical and transferred into other bodies or into replicas occurs. That in the transference there can also be the alteration of memories, values and qualities of the soul, so that an entity can appear to be the

same, but there will be certain changes that have occurred that may be unseen, and the attitude and purposes and directions of the entity may then be controlled.

This Awareness indicates that this occurs when the vibratory qualities of a soul are extracted by these electronic equipment from a body and moved into another. This needs not necessarily be a replica of the entity; it can be a totally different person's body, in which case it becomes what is termed a walk-in. This Awareness indicates that if it is a replica, it will tend to work with the replica to create the final features that result in a duplication of the features of the entity.

That this generally takes place on the almost human form, when the mind-state or soul energies, including the various electro-body energies are transferred, and as they begin to grow and attach themselves to that almost human form. The features then begin to solidify, to match the features of the electro-magnetic energies and the soul energies and astral energies and other mental and etheric bodies of the older original being.

This Awareness indicates that in regard to the corporations as being fascist in nature; that this is in the affirmative. This Awareness suggests also that you will recall remarks by Dr. Beter that heads of corporations were being replaced by synthetics or robotoids; in other words, replicas of themselves. This Awareness indicates that this as having been part of the alien program in order to assure continued use of such corporations.

These entities being replaced are under control, or were under control, of these technologies of the alien and of those who were putting implants into their replicas to control the corporations, according to their general plans.

QUESTION:

A question from XX, who writes: "When my husband Robert retired last year, I noticed what looked like scars with pink scar tissue behind his ears. Also, the space under his ears was more concave. His personality also changed (for the better). This will sound like a strange question, but I'll ask it to help other women in a similar predicament. Is this man who is so similar yet different than my husband of many years, a double of my real husband? Is his body now inhabited by a walk-in? What is going on?"

COSMIC AWARENESS:

This Awareness indicates that this appears to be in the affirmative; that it appears your husband was deeply involved in levels and projects of a very unusual nature; that this entity as being different. This Awareness refers you back to the messages of Dr. Beter and earlier messages from this Awareness in regard to the creation of duplicates and the transplanting of intelligence from one entity to another.

This Awareness suggests this as something you may prefer to keep to yourself as it would be of no benefit to pursue further concerns.

This Awareness indicates however, that you also need to be aware the scars behind the ears as implying the implants of monitors that can have some control over this entity. This Awareness suggests that names be stricken from this question, so that this entity can be identified.

(Follow-Up) Vikki:

For her own benefit, is it best for her to pretend to herself that this still is her husband and maintain as normal a relationship as possible?

COSMIC AWARENESS:

This Awareness indicates that this as in the affirmative; that this entity may make the best of her relationship with this entity in accordance with what feels proper to her; that the entity actually is modified to be a better husband for her; that some of the more gentle qualities of this entity have been made stronger and the more harsh qualities have been removed, in this creation.

QUESTION:

We occasionally get questions like this one from J.J. particularly since we've been advising the new members to review some of the earlier material, She asks: "The current Carter family emerges in the news from time to time, all three of them in connection with the best of causes: pacifism, ecology, building homes for the poor, etc. In what possible fashion does this serve the purposes of those who replaced the originals with these, or is it simply a function of the duplicative material used'

COSMIC AWARENESS

This Awareness indicates that these entities as being used more now for the purpose of the causes in an effort of keeping good will. That this is a very difficult question to answer without getting into the entire alien technology of the use of duplicates and their ability to transfer consciousness and the replacement of parts. It would open a can of worms to answer this question at this time. This Awareness suggests that entities may wish to review this information in light of the Dr. Beter material regarding synthetics and robotoids and to also then study the mate] that is available in regard to the aliens and their technology how this is and has been adopted in a kind of secrecy by the government: all of this is simply too much in terms of getting into military secrets to answer such a question.

It simply cannot be answered through this channel in this manner without endangering the entities involved for there is information needed that is not yet made public which, if exposed, would break secrecy of your government. This in regard to the duplication of beings. It is also unnecessary for entities to have this information although it is a fascinating concept which tends to create a fixation for the mind to attempt to understand something that is in effect quite intriguing, even bizarre.

This Awareness suggests however, that if you wish to understand the concept of robotoids and synthetics, you may find much of this very powerful information in one or two paragraphs in the book Alien Magic, in which there is a very brief description of how these entities are created, as witnessed by abductees who were inside the Dulce base in New Mexico. That by reading what is said and what has been given previously in regard to robotoids and synthetics, an entity can read between the lines and get a strong hint of the general nature of these technologies, and in understanding this, and that the CIA and aliens have worked together in the Dulce base as indicated in the book and in other sources, entities can put two and two together for themselves to reach answers.

93-01

QUESTION:

[...] To extract a lifetime's worth of information out of his head in four hours, they must have some very sophisticated equipment or something to do that, do they not?

COSMIC AWARENESS:

This Awareness reminds you, however, that this technology is not unique to the aliens; that in the creation of Robotoids and synthetics it was also used, whereby an entity's consciousness could be extracted and put into the double for that entity, allowing the double to remember everything the entity also knew.

This Awareness reminds you that Dr. Beter spoke of this and this Awareness discussed this information approximately 10 to 12 years ago.

FOLLOW-UP QUESTION:

In one of his questions, I recall that he described the movie "They Live" and all of the various ways that the public was being deceived by these entities, and he was focusing on the possibility that with the Robotoids and synthetics and doubles and all of these implants, that it would possible to construct some simple method so entities could see these entities around them.

COSMIC AWARENESS:

This Awareness indicates that there might be some electronic means whereby measurements could be obtained in terms of electronic frequency that would allow discrimination between one type of entity and another. This Awareness indicates that the field of radionics essentially does this kind of thing. The entity seeking to attune to another's vibration, uses a kind of drum with powder and moves the fingers around on this until they stick, while at the same time turning a knob which changes frequency on the machine and when the fingers stick, the frequency at a certain level is assumed to be the frequency of the person or individual the operator is attuned to.

Once you have that frequency, then you set the dials to that entity's frequency and begin to do readings on the entity in terms of frequencies associated with illness or other concerns. You could use the same method for finding the frequency in a diode or implant that the entity may have within himself, or if the entity is a synthetic or Robotoid or non-human type, you might use this method for finding what frequency this entity is and thus, gain some understanding of the frequency level associated with synthetics.

For more on radionics, research the works of Dr Ruth Drown. A decent radionics box consists of nine small rheostats (wire-wound variable resistors) with numbered dials (1 through 10) electrically connected in series. Into this tuning arrangement is plugged an electrode upon which rests a sample of what is to be analyzed. The output of the tuning arrangement passes through a metal plate covered in stretched latex, the metal plate then being connected to earth ground. An operator rubs the latex covering (called a stick plate) while tuning the dials until the fingers "stick" and the latex makes a snapping sound indicating the dial has been properly tuned...the operator then moves to the other dials and repeats the procedure until all nine are tuned. This produces a nine digit readout encoding the vibrational characteristics of the analyzed sample. It is a sophisticated form of dowsing; whereas pendulum dowsing produces little more than three answers: *yes/no/maybe*, a radionics box with nine dials allows for two billion possible numeric answers.

The only problem is you would have to know for sure the entity is a synthetic and there would need to be a great enough difference between most entities and synthetics that there would always be a standard level for synthetics shown by the vibration or frequency so that you could distinguish this entity is a synthetic because his vibrations are those that match other synthetics that we have tested.

This Awareness indicates that it would require many years of research unless it has already been done and you would also need to have a control group of synthetics to measure and compare with a control group of real humans to

determine if there is indeed a difference in the vibration and how much difference and if it is always present in synthetics and if the human vibrations never extend into the same areas as the synthetics.

This Awareness indicates that it is an area which would require considerable commitment and long-term research and probably quite a large amount of time and money.

QUESTIONER:

Okay. "I don't understand why it is easier for the aliens to kill someone and then force back their soul into the Robotoid body, makes it easier to reprogram them to do things that would have been morally repugnant to them in their previous body."

COSMIC AWARENESS:

This Awareness indicates that this is not what this Awareness has indicated at any time, that aliens were killing them in order to use their soul in some other body, to get them to do something they would not have done otherwise. This is conjecture. This Awareness indicates that It has indicated that the alien's technology—and this can be used by others besides the aliens themselves—the alien technology as having been used to record the psyche or information or soul qualities of an individual.

It is possible for these entities to extract a recording, an electronic recording of one's memories, psyche and vibrations, including the personality, and to put these into a synthetic replica of the entity. This Awareness indicates that the actions have been done for numerous years as have been described in the Dr. Beter tapes; that it does not even require the first entity be killed in order to extract this recording or this information and to transplant the recording to the personality, etc., into a double.

The double can exist along with the original. It is seldom exactly the same, but is usually very much the same. There is always something lost in the transfer. This Awareness indicates that the double can also be altered in terms of its information, so that it can be reprogrammed more easily than the original. This Awareness indicates it is in this way that an entity may be caused to take a position that is different from the position the original held, because the new programming or the collection of vibrations that hold the information of the individual when transplanted to a new body can be altered with new programming because it is not based on direct experience.

The information the original obtained was obtained by direct experience linked with emotions. The information, when it is transferred, does not have that same depth of attachment and therefore, can be altered more easily. This Awareness indicates that this is not necessarily a transfer of the soul; the aliens do have the ability to sever the soul or cause a split in the soul or move the soul of an entity into someone else.

This, of course, as being subject to a definition of what is meant by the soul. There's a certain aspect of an entity that goes on, and that may be termed the true soul. There is still another aspect of the entity that is the emotional passion associated with the magnetic center of an entity and it may be moved it may be severed from the etheric body and from the physical body and this results in a kind of splitting of the soul.

It is not necessarily the ultimate spirit of the entity, but it can be a great injury to the soul of the entity so that the soul development, if left to progress naturally, would be different from the soul development that is tampered with by alien technology and injured in the process of transfer. It is for this reason that many of those in other areas who have sent some of their best to the earth to assist on the earth are very concerned and are considering pulling them out because they are

receiving them back with warped, twisted, broken souls that cannot easily be repaired.

This Awareness indicates the problem here is language. The term “soul” in one use is different from what another may mean by “soul”. In speaking of the immortal soul; that part which is indestructible, referring to this as the life of the entity the more permanent part of the entity, this may be but likened unto a denser part of the larger soul in which there are lesser parts that are not so dense that can be severed and can be split off and put into another body. You will retain the same essence of the entity, but without the depth of soul.

This Awareness indicates that this is extremely complicated when attempting to communicate it in words rather than energies. If entities can see behind the words to the energies that make up the soul, and realize that the soul is not just a thing, It is an energy that is accumulating experience and that there are parts of that energy that are denser than others, that are more permanent than others, and that every little incident is added to the overall complex known as the soul, but that many of these incidents can be lost, can be forgotten without the soul itself being destroyed or lost and forgotten, or these incidents can continue to compact and grow and develop into a larger and more compressed soul, so that all of these incidents are part of the soul.

If you can understand what makes up the soul, that it is an accumulation of experience, then it becomes more easy to understand what is meant when one speaks of the severing of the soul. A part can be cut off, whereby one loses experiences, loses memories, loses a part of one’s essence, and is returned, remaining immortal but damaged from the experience of alien severing of one’s soul.

If you can understand that, rather than simply seeing words, then perhaps you can understand what is meant by this concept of transferring a soul or transferring energies or personalities from an original being to its counterpart replica. This Awareness indicates it is a fact that many entities who have known the original and who then meet the replica will comment. “It looks like him, it claims to be him, but it isn’t the same person I used to know.”

FOLLOW-UP QUESTION:

The terminology is confusing. Can we accurately say then that the Robotoids and the synthetics are artificially created creatures and sometimes imbued with soul-stuff by the aliens, and the walk-ins are living humans that have abandoned their body; their soul has either abandoned it, or been pushed out and taken over by an alien soul?

COSMIC AWARENESS:

This is in the affirmative. The personality that has been imbedded on the brain (this in reference to the walk-ins) in terms of its recording of events and memories, remains with the body. The brain serves in the same way as a cassette tape recording stays on the tape and has its impression on the tape, whereas the etheric astral or soul energies may also carry these same memories.

An entity entering into a body that is abandoned by a soul will still have access to the entity’s memory of events. The entity will still be able to recognize friends and associates, certain jobs and skills, and will in general appear to be the same person, but the entity generally knows that he is someone else in this body, and generally those who know the entity closely will recognize a major change; that the entity is like the one before, but is different, appears to be a different person. Sometimes the walk-in is much more enjoyable to be around than the original.

The Ra Material is considered by many to be one of the most accurate and consistent set of channeled messages ever published. Printed in five small volumes known as *The Law of One* books, the material primarily focused on a practical system of spirituality and cosmology centered around the concept that "All is One." Additionally, the material explored relatively more mundane subjects including the nature of negative alien forces (termed the Orion Crusaders) and their involvement in the manipulation of mankind.

The Law of One, Book I, Session 12
January 28, 1981

Questioner: Are there any Confederation or Orion entities living upon the Earth and operating visibly among us in our society at this time?

Ra: I am Ra. There are no entities of either group walking among you at this time. However, the crusaders of Orion use two types of entities to do their bidding, shall we say. The first type is the thought-form; the second, a kind of robot.

Questioner: Could you describe the robot?

Ra: I am Ra. The robot may look like any other being. It is a construct.

Questioner: Is the robot what is normally called the "Men in Black"?

Ra: I am Ra. This is incorrect.

Questioner: Who are the Men in Black?

Ra: I am Ra. The Men in Black are a thought-form type of entity which have some beingness to their make-up. They have certain physical characteristics given them. However, their true vibrational nature is without third-density vibrational characteristics and, therefore, they are able to materialize and dematerialize when necessary.

Questioner: Are all of these Men in Black then used by the Orion crusaders?

Ra: I am Ra. This is correct.

The Law of One, Book V, Fragment 5
Session 12, January 28, 1981

Questioner: If a Man In Black were to visit me and I locked him in the closet could I keep him, or would he disappear?

Ra: I am Ra. It depends upon which type of entity you grab. You are perhaps able to perceive a construct. The construct might be kept for a brief period, although these constructs also have an ability to disappear. The programming on these constructs, however, makes it more difficult to

remotely control them. You would not be able to grapple with a thought-form entity of the Man in Black, as you call it, type.

Above, Ra distinguishes between the robotic creatures and the thought-form entities, both of which are used by the Orion Crusaders as control devices. From the description given, gray drones are good candidates for the robotic types. But that the robotic beings are construct and may look like any other being suggests they may take human form if manufactured as such; in other words, they are synthetics as defined in the Dr Peter Beter Audio Letters and the Cosmic Awareness channeling. Note that like Ra, Awareness claimed synthetics are associated mostly with alien forces.

Although not a significant source on the subject of human simulacra, there is one *potential* reference to it in the book *The Allies of Humanity*. What claim to be a group of benevolent alien observers have dictated through Marshall Vian Summers this manuscript, which is essentially an appeal to humanity to become aware of the hostile alien agenda and the impending enslavement of planet earth. Through awareness and preparation, these alien observers hope mankind can head off a grim totalitarian future.

Here there is a great challenge for the people of your world and particularly for those who are in positions of power and responsibility to recognize the difference between a spiritual presence and a visitation from the Greater Community. Yet how can you have the framework to make this distinction? Where can you learn such things? Who in your world is in the position to teach about the reality of the Greater Community? Only a teaching from beyond the world can prepare you for life beyond the world, and life beyond the world is now in your world, seeking to establish itself here, seeking to extend its influence, seeking to win the minds and hearts and souls of people everywhere. It is so simple. And yet so devastating.

Therefore, our task in these messages is to bring a great warning, but the warning is not enough. There must be a recognition amongst your people. At least amongst enough people here, there must be an understanding of the reality that you are now facing. This is the greatest event in human history--the greatest threat to human freedom and the greatest opportunity for human unity and cooperation. We recognize these great advantages and possibilities, but with each passing day their promise fades--*as more and more people are captured and their awareness is recultivated and reconstituted*, as more and more people learn of the spiritual teachings that are being promoted by the visitors and as more and more people become more acquiescent and less able to discern.

We have come at the request of the Unseen Ones to serve in this capacity as observers. Should we be successful, we will remain in the proximity of your world only long enough to continue to give you this information. Beyond that, we will return to our own homes. Should we fail and should the tide turn against humanity and should the great darkness come over the world, the darkness of domination, then we will have to depart, our mission unfulfilled. Either way, we cannot stay with you, though should you show promise we shall stay until you are safeguarded, until you can provide for your selves. Included in this is the requirement that you be self-sufficient. Should you become reliant upon trade with other races, this creates a very great risk of manipulation from beyond, for humanity is not yet strong enough to resist the power in the Mental Environment that can be exerted here and is being exerted here now.

"...as more and more people are captured and their awareness is recultivated and reconstituted" [emphasis mine] – The choice of words is very revealing because it implies something beyond mere social indoctrination. To be *captured* is not unlike being abducted, and awareness being *recultivated* and *reconstituted* is even more indicative of something already detailed in earlier chapters: the abduction, extraction, and reprogramming of the soul during the duplication process. Like reconstituted orange juice, the soul is similar but not quite identical to its original form.

Further information about *The Allies of Humanity*:

<http://www.alliesofhumanity.org>

The late Dr Karla Turner was a dynamite researcher whose investigations during the early 1990's focused on aspects of the abduction phenomenon considered taboo by mainstream UFOlogy. This led her into dangerous territory because it struck at the core of the alien agenda, revealing it to be far from benevolent. An abductee herself, she wrote three books detailing her own experiences and those of others. Her books are out of print and extremely rare, but fortunately the most important of her works titled *Taken* is now available online, from which the following excerpts have been extracted:

The second controversial area reported by Lisa involves, as with the case of Pat in the previous chapter, the viewing of "new bodies." She told me that her memory of seeing a new body occurred sometime in late 1992. Although she was keeping a journal by that time, which recorded UFO sightings, conscious events, and dreams, both alien-instigated and the normal, self-generated variety, she refused for some reason to include this event in the record.

Lisa recalled lying on a table aboard a craft, with her "new body" beside her. "I got out of my old body," she said, "and stood next to it. I was looking it over, and I even looked at my teeth. The body was perfect, but it had my long hair that I used to have. Somebody said they could make people believe that was me," she continued, "even though it was perfect and with long hair. I wanted so badly to get in it, but I did not. I don't remember who the beings were in the room with me, just being overwhelmed seeing the body. I don't remember how I got back in my old body."

...Of more concern are the three accounts of abductees seeing, or being told of, cloned human bodies. Both Lisa and Pat were shown clones of their bodies, although they were given different explanations. Similar reports come from other abductees, and in one case a man said he saw a room full of inert male and female human bodies, who were beautiful and identical. The implications of such reports are enormous, considering the possible uses the aliens could make of these carbon-copy human bodies.

...But by far the most alarming evidence of alien technology concerns the "new" bodies and "clones" they manufacture. Whether these are really bodies for a future human "resurrection," as Pat was told, remains to be seen, for other explanations have been given. In a case privately reported, for instance, a man was told that a duplicate of his body could be used to "replace" him if he didn't "cooperate" with the aliens. Lisa, too, was told that other people wouldn't be able to distinguish her cloned body from the original, if they chose to replace her. And Angie was shown the cloned infants as part of a "novel breed" the aliens are producing.

Here we see some compelling references to human duplication by hostile aliens. These are testimonials given by individuals who experienced for themselves evidence of the human simulacra phenomenon, and who despite not knowing each other or being familiar with the other sources discussed in this document gave virtually identical accounts.

"The implications of such reports are enormous, considering the possible uses the aliens could make of these carbon-copy human bodies." – Dr Turner *knew* this was a significant subject, one with disturbing implications. In *Taken* she did not further explore these implications, but from what has been discussed so far in this document, these should be obvious.

Dr Turner's continued exploration into the darker corners of the abduction phenomenon invited much hostility by those forces threatened with exposure:

I began the book project, and in the course of taking care of necessary business through the mail, it soon became clear that many of my letters to the women were being diverted. It was an annoyance, but a minor one. But then the women began having serious problems, physical afflictions of a suspiciously similar nature.

Beth was first. On the night she decided to participate in the project, she phoned a friend to discuss the decision, but in the midst of the conversation the line went dead. That night, she had disturbing but cloudy dreams, and the next morning both her legs from knees to ankles were in excruciating pain for no apparent reason. And then she had a sudden, frightening flashback that linked the mysterious pain with military personnel warning her not to be a part of the book.

That was in early October 1993. Three weeks later, after discussing my determination to do the project with one of the women, I went to bed in fine shape and woke up at 6 a.m. with wracking, spasmodic pains in both legs, from my knees to my ankles. It was unbelievably bad, unlike any pain I've had before, and after swallowing ibuprofen I hobbled back to bed and tried to sleep. I must have, for I dreamed after that, seeing myself surrounded by military personnel who were injecting something into my knees. They taunted me, saying, "Don't think you can do anything you want. This is just a little demonstration that we can bring you, literally, to your knees any time we choose."

For Beth and me, these may have been mere dreams, reflecting our fears about the project. But Anita's report of experiencing this same pain after an abduction, years before, makes it harder to discount a connection. And on the same weekend I had the leg pains, both Anita and Jane suffered unexpected gall bladder attacks, so severe that they both underwent emergency surgery at almost the same hour.

Angie was the next to suffer. After an abduction in early November, she woke up with several physical symptoms, the worst of which was heavy congestion. It quickly grew worse, and in the space of less than two months she had to be hospitalized. Before that time, however, her health had been remarkably pristine. It was in November, too, that Angie recalls military personnel threatening punishment if she "talked to Karla Turner."

Taken was published in 1994. Following an abduction experience in 1995, Karla Turner contracted a sudden and aggressive form of breast cancer that soon tragically took her life. In memory of Karla Turner (1947-1996)...

The Cassiopaean Transcripts

Rounding out the discussion on duplicate humans are excerpts from the Cassiopaean Transcripts, another published channeled source but one with a greater level of accuracy and conciseness than most. This material was produced between 1994 and 2002, and unlike trance methods of channeling, the Cassiopaean transmissions utilized a Ouija board with multiple participants. Whereas trance channeling requires an external intelligence to take over through the subconscious and direct the vocal apparatus of a lone individual, Ouija board channeling works through multiple participants and uses the more easily directed muscular system; thus there is less opportunity for bias and corruption. What bias exists stems from energies of those present tainting the conduit of communication, which is always present to some degree so discernment is advised.

The following excerpts explore the duplicate/alien theme covered in previous chapters, adding further correlation and data to what we already know of the subject. The format is in question/answer, with names of session participants abbreviated in parentheses and names of others also abbreviated to preserve their anonymity.

October 21, 1995 (discussing the Roswell crash)

Q: (L) There were two complete craft that came down?

A: Bouncing off ionized waves between two craft traveling in tandem.

Q: (L) OK, was one of these craft totally destroyed?

A: Yes.

Q: (L) And all the beings in the one that was totally destroyed were incinerated, or blown to bits, is that correct?

A: Close.

Q: (L) Did some of them eject?

A: 4th density.

Q: (L) OK, they knew it was coming and they went into 4th density?

A: No.

Q: (L) They were 4th density beings, and therefore when they blew to bits, they disappeared, is that it?

A: Close.

For those unfamiliar with the term, fourth density denotes a transdimensional environment, the native realm of those aliens such as the grays and reptilians (nicknamed “lizzies” in the Cassiopaean Transcripts). These are the same as the Orion Crusaders spoken of by the Ra Material, and the alien abductors investigated by Dr Turner.

Q: (L) OK, now of the 21 that were in the craft that was captured, so to speak, there were four outside the craft when it was approached, is that correct?

A: Yes.

Q: (L) Then that would mean that there were 17 inside... Of these 21 beings, how many were greys, the standard grey lizzie-probe type being?

A: Most.

The Cassiopaeans claim grays are cybergenetic organisms with whom reptilians psychically interface to probe our three dimensional reality, that they are essentially 3D “space-suits” for 4D reptilian beings.

Q: (L) Were there other kinds of beings in there?

A: Human.

Q: (L) There was one human in there also?

A: 5.

Q: (L) There were 5 humans inside, so we have... (LM) Why?

(L) Why were those humans in the craft?

A: Retrieval and study specimens, two big foot types.

Q: (L) Does that mean that the humans that they had in there were retrieval and study specimens, or otherwise known as abductees?

A: Deceased.

Q: (L) Oh, they were dead humans. Wonderful. Did they abduct them dead? Or did they abduct them alive?

A: No.

Q: (L) Did they abduct them alive and then kill them?

A: No.

Q: (L) Were they dead as a result of the crash?

A: No.

Q: (L) Well, then, what's the story here, I mean, what other choices do I have?

A: Retrieved.

Q: (L) Ohh, these were beings that had been retrieved at death and remolecularized? Is that what you are referring to, what we discussed before?

A: 3rd density.

Q: (L) Were they remolecularized in third density? Is that what you are saying?

A: Retrieved in 3rd density.

Q: (L) OK, tell me once again what it means for a being, a human to be retrieved.

A: Picked up after expiration.

Q: (L) OK, so they picked up dead bodies, is that it?

A: Yes.

Q: (LM) Why? (L) To study them. OK, did they plan to reanimate these corpses?

A: Open.

Q: (L) Do they ever pick up dead bodies, you know, right after, and reanimate them?

A: Yes.

Q: (L) When they pick them up and reanimate them, do they reanimate them with the souls that left them? Do they like, catch the soul and put it back in?

A: No.

Q: (L) When they reanimate them, do they reanimate them with an alien soul?

A: Multiple possibilities.

Q: (L) If they reanimate them, is it possible to reanimate them with no soul?

A: Yes.

Q: (L) OK, when they reanimate them with no soul, do they have kind of like a zombie-like situation?

A: No.

Q: (L) Well, could you give us a little more information on this particular aspect? If they reanimate them with no soul, what is the animating force or energy?

A: Indistinguishable from other humans.

Q: (L) They're indistinguishable from other humans. (LM) How is that possible?

A: Technology makes all things possible!!!

Q: (L) Of course, you are talking about 4th density technology?

A: Yes.

Q: (L) What form of... Now, a reanimated corpse that has been animated by infusion of some form of an energy pattern...(SV) Is it 'chi' energy, maybe? (L) What if the reanimated corpse dies again, I mean, you have got to understand here, that we perceive the soul as being the animating force of the physical body, and when the soul is gone, the body dies. Is that correct?

A: You are making assumptions based on limited data.

Q: (L) OK, well, will you expand my database by telling me how a corpse can be reanimated if not done by a... if not with a soul?

A: Complex technology, using electronic biogeneration frequency matching, combined with extremely high frequency radio beacon transmitters for tracking and control of all functions, including thought pattern mimic and emotional frequency vibrational rate modulation!!!!

Thought pattern mimic is simple enough to understand, but more important is the duplication of the "frequency vibrational rate" modulation – in other sessions, the Cassiopaeans explained this is associated with the aura and one's emotional make-up. The significance of this will be discussed below. Furthermore, that such entities are controlled by "extremely high frequency radio beacon transmitters" suggests that whatever spectrum these transmissions occur on, they are most likely not anything shieldable via ordinary means, suggesting these transmissions employ scalar waves, longitudinal waves, or identically waves composed of curl-free magnetic vector potential fields, none of which cannot be detected by standard instrumentation, but all of which are known to be biologically and psychologically active.

Q: (L) If they're doing this, does it make the physical body...

A: Yes.

Q: (L) The blood, the heartbeat and everything...

A: All functions, including cellular, duplicated.

Q: (SV) What about the aura? (L) Would a being such as this still have an aura?

A: Projected.

Q: (L) OK, that would be projected, along with all of the frequencies, and everything else. Now... (SV) Are there a lot of dead people walking around?

A: This is method used for subjects discussed in "Matrix Material" instead of "Robots", as suggested.

"Matrix Material" is a reference to Valdamar Valerian's book Matrix III volume 1, which included excerpts from the Cosmic Awareness channelings, some of the same ones referenced earlier in this document. The Cassiopaeans are therefore suggesting that the

duplication phenomenon involves a process more sophisticated than what was discussed by Dr Beter concerning organic robotoids.

Q: (L) Is there any way that a normal person would be able to identify such a being?

A: No.

Q: (L) Approximately how many of this type of being are walking around on our planet, acting like normal people?

A: 2,000,000.

Q: (L) Approximately 2 million?

A: Yes.

Q: (L) OK...

A: You, Laura, have come in contact with 7 of them!

Q: (L) Who are they?

A: Discover.

Q: (L) Are you going to tell me anything about it at all? If there is any question I could ask to get any information concerning this, consider it asked.

A: Who is nutritionist?

Q: (SV) Is that the one who wrote the book? SS___? (L) She's not a nutritionist. (SV) Who do you know that's a nutritionist? Isn't she a nutritionist, the one that wrote that book? (L) Do you mean SS___?

A: Yes.

Q: (LM) I find that hard to believe. (F) Is SS___ a robot? (LM) When did she die?

A: Open. All it takes is a "hospital visit." [Laura's note: To my knowledge, SS___ has been hospitalized for surgery at least twice.]

Q: (LM) Then what happens? (SV) All what takes? (LM) It doesn't make sense. (L) Maybe there's a death certificate for her...

A: Yes it does.

Q: (L) Does this mean if one goes into a hospital for surgery, that it's possible for them to die and be reanimated in this manner? Without anybody being aware of what happened?

A: Yes.

Q: (LM) Why? (L) Well, we know why, because they're creating a force, you know, putting it in place all over the planet so they can take over... We already know that! Is that correct?

A: Open.

Q: (LM) What's open mean? (L) Open means that's not absolutely determined yet, at this time, that's not something that they're just... it could be, yes. (L) So, you're saying that SS___ was one of these robotoids, is that what you're saying?

A: We gave you one for your own knowledge and protection, but cannot give you others at this juncture. [Laura's note: Does this mean they can be given at another time, after a particular, destined interaction takes place?]

Q: (L) Is it up to me to figure out what characteristics these individuals have, in order to...

A: Based upon data given, yes.

This individual, SS___ is a practitioner in the alternative health field whose later research and publications contain a strong disinformative bent, as would be expected

of someone who has been duplicated or “reanimated.” What can be said of her research and the products she endorses is that these serve to weaken will, disrupt health, peddle fear and encourage preoccupation with physicality, and encourage a specific alternative health service that requires the use of specialized “hospital visits.” The point here is that disinformation is most prevalent in areas where truth and knowledge must be diverted, where those interested in advancing beyond the control system are likely to turn. Therefore, SS___ is just one manifestation of a greater phenomenon of individuals in the alternative research community (conspiracy, esotericism, channeling, alternative science, exopolitics, etc...) peddling disinformation in ways that many either gullibly fall for or else find extremely frustrating for its irrationality and deafness to all reason and criticism. Irrationalism is typical of anyone who is highly programmed, be it one simply indoctrinated, one who has been reprogrammed through soul extraction and insertion in a duplicate, or one who is not even sentient but technologically animated.

Q: (L) OK, is one of the, I mean, I'm clicking right now, one of the characteristics I think, that these kind of individuals might have, since they have this projected emotional frequency, would be a repeating emotional pattern, that they just simply, in spite of seeming intelligence, do not seem to learn from anything; that it just repeats over and over again, is that a clue?

A: Yes.

Q: (SV) Wait a minute, was that her idea, that we should eat like the monkeys do? (L) Yes. (SV) And then you've read about... saw the Jane Goodall film that talked about the fact that monkeys like to eat... (L) Other monkeys, yes. (SV) And what did she say when you told her about that? (L) She said, "Well, I'll just say:" and she changed the entire paragraph to read "That in the wild, primates eat primarily vegetation with some amounts of protein," and no specification as to where the protein came from. (L) That's really stretching it. (SV) She should have just left it out... (LM) That doesn't make any sense... (L) Now, she does... there are some strange things about her, I'll have to admit that. OK, then, this same inability to get a clue about what's going on... OK, that's a clue, right there. Is there any kind of instinctual sensation that one would get about these types of individuals?

A: Bland.

Q: (L) That they're bland in some way? Is that it, that these individuals are bland individuals?

A: Spend inordinate amounts of "time" in solitude.

When the Cassiopeans put words in quotes, they imply a deeper meaning to the term than at first appears, perhaps a double meaning. If transdimensional beings are involved in the human simulacra phenomenon, then this introduces the factor of hyperdimensional technology not constrained by the limits of our three-dimensional space or linear time. There is very likely a nonlinear time factor involved in the retrieval of humans from 3D and the re-insertion of altered versions back into the timeline.

Q: (L) Well, that means Frank's one! Well, Frank's kind of bland! And he spends a lot of time in solitude. (SV) A lot of people do! (L) So, is Frank one?

A: No.

Q: (LM) So, if you put a lead shield up around him, he'd collapse!
 (L) We're teasing you, Frank! I didn't mean it! (SV) He's not bland, though! Frank's anything but bland! (L) Is my husband one?
 A: No.
 Q: (SV) Am I one? (L) Of course not! Don't be silly! Now, let's stop a second. Now, we had several questions, and one of the questions was...
 A: Bland is not universal in this situation, just a clue for you to identify individual.
 Q: (L) OK, one is a nutritionist, one is very bland. Is that what we're getting at?
 A: No.
 Q: (L) OK, bland is just part of it.
 A: Not key component, more likely to be spreading of disinformation.
 Q: OK, is John W one?
 A: Open.
 Q: (L) Well, John W has got some stuff, because, I tell you what, you tell him something logically, it's almost like he's got a pre-set program that runs, and the minute you get to the point where you almost might possibly think... then it just shuts down and he repeats the program. And it just amazes me that people can be that way. OK, have we... I guess you're not going to tell us any more about this. Do these beings know what they are?
 A: Not conscious beings!
 Q: (L) They're not conscious beings, so, they just react to you as though they are being remote controlled. (SV) So, if you told one of them what they were...
 A: Are being remote controlled.
 Q: (L) OK, do we have any more questions on this subject? (SV) So, if you told one of them what they were, they'd agree with you?
 (L) No, they'd probably disagree with you. (SV) Yes, being remote controlled... (L) Whoever is in charge would not want you to know it, so they'd naturally deny it vehemently. (SV) Then they'd probably come and get you... (L) Yes, no doubt about that. Now, what is the purpose of putting 2 million of these kind of critters on the planet? Can you give us a clue?
 A: Wait and see.

December 2, 1995

Q: (L) When we did the session on October 21st, we were talking about robotoid type people, or reanimated humans, and that this is what is done rather than cloning and replacing. Then you said I had been in contact with 7 of these, and we identified one of them. Then, we talked about profiles, and it was indicated that a "bland" personality might have something to do with identification. You also said that you could not identify the others right at that moment. Can you now do so?
 A: Search your "files." Learning is sometimes best accomplished by study and exploration.
 Q: (L) Can I have a couple more clues as to what I am looking for? You mentioned being in a hospital...
 A: Non-emotive. There are other clues which you can discover by your own study. It would not be advantageous for us to give you

further information on this subject. Speculation about this particular subject will throw you off track.

Q: (L) Is the subject as important as I think it might be?

A: Ultimately, but not yet!!

April 28, 1996

Q: (L) Okay, if a person were, say, a robot person, when a person becomes a robot person, what happens to the soul of the robot person?

A: Same process.

Q: (L) As what?

A: Death.

Q: (L) So, a person can die and leave their body, their body can be taken over and reanimated and controlled to function and do a lot of things for a long time. Meanwhile, the original soul has completely departed to 5th density ready to recycle?

A: Yes, but body is replaced, not reanimated.

This is what the Cosmic Awareness channeling stated, that the primary component of the soul goes on through the death after a holographic fragment is first amputated to seed the new body, and that a duplicate body was needed because the old one holds memories and tendencies that might run counter to the reprogrammed tendencies, memories, and opinions of the transferred soul fragment.

Q: (L) Is this what happened to Lewis when he had that surgery back in 1981?

A: We caution that, even though you have met 7 "robots," in your entire lifetime, not to "see" them under every bush or around every corner. You have met so many people in your life. We gave you one, and only one!!

[...]

Q: (L) Well, that is why I said that was enough of that because I don't want to talk about my personal stuff anymore. I did think that the thing about the robot people was pretty significant, but obviously it is not that significant or important. There are two million of them on the planet, and I have been told that I have encountered seven. I did think that this was a pretty high ratio of robot people for one person to encounter...

A: Yes, but your life path has been unusual. And you have met 4588 people personally!

February 22, 1997

A: Bio and cyber/genetic humanoid types now increasing exponentially in general population. You may have already encountered one or two during the past 10 days.

If in 1995 there were two million robotic beings on the planet and by 1997 these were increasing exponentially among the general population, then where does that place us in 2005? That individuals cannot be "un-replaced" indicates a saturation point that makes the presence of human simulacra among the human population no insignificant matter.

Q: (L) You, who? You, as in me, you as in Frank, who?

A: Reflect upon activities, and power and influence centers for answer.

Q: (L) Well, we will reflect on that over the next week, but we're going to have to say goodnight for now.

A: If you wish. Goodbye.

Laura's Note: During the specified 10 day period, there had been a LOT of activity relating to finances, insurance, driver's license bureau, the purchase of an automobile; Ark attended a conference at UFL, interacted with numerous University officials... so, there is such a lot of ground covered that it is hard to think which it might be. However, one of my guesses would be the attorney who handled the paperwork for the loan for the car. His name is "Chip." Other than that funny connection, nothing else comes to mind.

That funny connection also carries a serious side, namely that the nonlinear time technology employed by these transdimensional aliens allows them to change superficial details in the timeline, meaning that many times (though not always) reanimated or artificial humans carry odd synchronistic details about them slightly hinting at their true nature. This is not to encourage name anagramming or analysis as a reliable means of detecting impostors, rather that one shouldn't be surprised if in retrospect such individuals wear odd clues about them.

November 29, 2001

(L) My next question is, of course, what is wrong with V____?

What is driving him?

A: He is a robotoid.

Q: (L) Who did his programming?

A: 4th density STS.

Q: (L) Doesn't that contradict him having his free will?

A: No. Even robots have minimal consciousness.

Q: (L) So, all his whining and all his "poor pitiful me" stuff is just a program?

A: Yes.

Q: (L) That explains, I guess, why he doesn't seem to learn from anything. Even a dog would have figured it out by now.

A: Yes.

February 23, 2002

Q: (L) Anybody have any wrap up questions? (R) Yeah. I have one completely unrelated. (L) Go ahead. (R) It relates to this girl I was communicating

on the net. I was just wondering if she was just doing all of that [crazy manipulating] on her own or if she was just being helped.

A: FRV robot. You will encounter many more in times to come.

Q: (L) FRV Frequency resonance vibration. (R) The question still is: if she was doing it on her own or if she was being controlled.

(L) Well, FRV robots are being controlled. They can download an agent into anybody at any time.

I was given the opportunity to analyze the communications between the individual "R" and this supposed "FRV robot" to see if anything stood out. I was shocked to find that her behavior, style of approach, and vibrational signature (as determined by my intuition) precisely matched those of several other bizarre individuals I once dealt with, as though all these individuals were cut from the same die. After some extensive

observation, what I can generalize about these particular individuals is that their personal history, interests, and personality seemed to have been superficially tailored to their targets; they were decoys. Some of these similarities were so uncanny that only a transdimensional manufacture technique could account for it.

All of these individuals demanded inordinate amounts of time and energy from their targets and were themselves of a very fragmented and unstable emotional nature. The term “FRV” means “frequency resonance vibration” which as explained earlier has to do with the emotional composition, emotional learning path, and auric profile of a person. It is their quantum vibratory signature that determines where their most natural pathway progresses through the web of probable timelines.

An FRV robot is therefore most likely a synthetic being whose frequency resonance vibration is artificially generated, or perhaps inserted via a rudimentary soul imprint that puts them on the energetic level of animals (as discussed in the Cosmic Awareness material). If done for strategic purposes, the inclusion of low FRV characteristics in such entities might serve to dampen the vibration of their target, thus the demand for energy and time commitment to allow maximum osmosis of the lower frequency from decoy to target, which in turn makes the target more vulnerable to scanning and interference by the alien forces whose vibrational signature may otherwise be too far removed from the target to interfere as much as they wish. Another possible reason for the low FRV characteristics of these robots is that it may simply be the highest alien technology can achieve, which despite their advanced transdimensional status still possesses metaphysical limitations.

The purpose of my recounting the above experience with possible FRV robots is that these appear slightly different from the reanimated/duplicated types whom the Cassiopaeans said are generally non-emotive. And indeed, there does appear to be a different class of programmed disinformation agents who are verbally slick and mentally sharp, but only within the boundaries of their programming. They appear calm and rational but quickly become “hot poppers” if pushed beyond such boundaries, which for ordinary individuals would evoke more rational reactions like puzzlement or intrigue. This is not to say all irrationalism can be attributed to artificial humans, but rather that some cases are so bizarre that no other explanation suffices.

The Cassiopaeian Transcripts were once available at <http://www.cassiopaea.org> but have since 2003 been removed from public access. This, after the website and research group underwent drastic—and some would say irrational—restructuring of personnel, philosophy, location, and research focus.

The transcripts may be found elsewhere:

Anecdotes and Conclusion

Besides my own experiences with what could fit under the category of human simulacra (as recounted in the last chapter), other clues have come my way from those who have odd stories of their own to share. I shall include two examples here:

6 Sep 2002, written by KW

This year during Spring for the first time I began seeing auras of trees and plant life. I've seen the auras of people and animals for about 5 years now.

In all your studying of auras have you come across anyone else who can describe this:

I am perhaps on my lunch hour in the heart of downtown not just once but several times, walking amongst many other pedestrians. I notice in one instant many or most of them go what I call "blank", that is no aura in a flicker of an eye. ?? That is, they previously had an aura and in an instant they don't?

I've also walked in areas where there are many blanks, malls are good for this.

26 Jan 2005 written by C:

Someone I knew in 1989/90 who had spent a lot of time around Glastonbury in the UK told me that she had spent some time doing healing work with a colleague there. Over a period of time she and her colleague noticed that some of the people who came in for healing had absolutely no auras that they could perceive. This to her seemed very odd but she had no explanation for it at the time.

It was one of those pieces of information that I have stored, waiting for an answer.

When reading these, a couple excerpts come to my mind:

Revelations of Awareness, Issue 87-11

This Awareness indicates that this as a reference to the aura; that these entities who have no aura of magnitude. That the aura as that which is limited in size to a very small close thin aura, or only that which surrounds the heart. This Awareness indicates that with certain machines using processes similar to Kirlian photography, or with psionic machines, entities can distinguish the synthetic from the real entity or from the robotoid. That without such, the entities cannot, except through sensitivity or ability to see auras, make such distinctions.

Cassiopean Transcripts, October 21, 1995

Q: (L) If they're doing this, does it make the physical body...

A: Yes.

Q: (L) The blood, the heartbeat and everything...

A: All functions, including cellular, duplicated.

Q: (SV) What about the aura? (L) Would a being such as this still have an aura?

A: Projected.

If auras can be projected artificially, then a temporary technical glitch would cause such auras to flicker out – a glitch only noticeable to those with auric vision. And if KW's account is true, that “in one instant many or most of them go” blank and that there are “areas where there are many blanks, malls are good for this”—what does that say about the prevalence of artificial humanoids among the general population, and where is this all leading? As the Cassiopaeans say, “wait and see.”

As much as this information may gnaw at the mind, one would do well to remember the words of Awareness:

This Awareness indicates that enough was presented previously to explain the nature of events that are occurring behind the scenes and this Awareness does not intend to be used to point fingers at individuals, tattling on the individual for being a robotoid, synthetic or double, for that is not the purpose of this Awareness coming to this plane at this time.

What is of significance is that there is an influence acting upon the affairs of humans which entities know little or nothing about which have many ramifications and is behind much of what you see in the news which is never mentioned, and it is this factor of this unseen hand or unseen influence that this Awareness wishes entities to become aware of.

This Awareness indicates that the purpose is to awaken consciousness to allow entities to have a greater expansion of concepts that allow the mind to move into areas which were previously unthinkable, to expand consciousness into thinking about unthinkable things, to explore the unknown and to discover new things regarding the universe in which they live. This Awareness indicates that the purpose is also to eliminate sorrow, suffering and tragedy from this plane, through such enlightenment.

The last paragraph summarizes my intent for writing this document: that understanding and perception be expanded so that one may become freed from some of those mysteries that obsess, frustrate, or manipulate others lacking this knowledge.

In all sincerity I recommend this information be kept in the back of the mind, that it be brought forth as a possible explanation only when more mundane ones fail to account for the observed facts. I would also recommend greater reliance upon discernment, reason, and intuition rather than credibility when considering whose words to believe, because even those with respectable pasts can be “reanimated” and begin peddling disinformation sold on the basis of their previous credibility.

Lastly, only those with gaping spiritual vulnerabilities can be abducted and messed with to the point of “reanimation.” Valuing spiritual awareness, avoiding pitfalls in an active but nonplussed manner, and maintaining a positive attitude in life are crucial measures of defense. ■
